Negotiating with Terrorists Guy Olivier Faure, I.

William Zartman, 2010-02-25 This edited volume addresses the important issue of negotiating with terrorists and offers recommendations for best practice and processes. Hostage negotiation is the process of trying to align two often completely polarised parties. Authorities view hostage taking as unacceptable demands made by unacceptable means. However, terrorists view their actions as completely justified even on moral and religious grounds. If they are to try and reconcile these two sides, it is essential for hostage negotiators to understand terrorist culture, the hostage takers' profiles, their personality, their view of the world, and also the authorities' values and their framing of the problem raised by the taking of hostages. Although not advocating negotiating with terrorists, the volume seeks to analyse when, why, and how it is done. Part I deals with the theory and quantifiable data produced from analysis of hostage situations, while Part II explores several high profile case studies and the lessons that can be learnt from them. This volume will be of great interest to students of terrorism studies, conflict management, negotiation, security studies, and IR in general. I. William Zartman is the Jacob Blaustein Distinguished Professor Emeritus of International Organization and Conflict Resolution and former Director of the Conflict Management and African Studies Programs at the Paul H Nitze School of Advanced International Studies, Johns Hopkins University, Washington DC. He is a member of the Steering Committee of the Processes of International Negotiation (PIN) Program at the International Institute of Applied Systems Analysis (IIASA) in Laxenburg, Austria. He is author/editor of over 20 books on negotiation, conflict, and mediation. Guy Olivier Faure is Professor of Sociology at the Sorbonne University, Paris I, and a member of the Steering Committee of the Processes of International Negotiation (PIN) Program at the International Institute of Applied Systems Analysis (IIASA) in Laxenburg, Austria. He has served as an advisor to the French government on hostage negotiations.

Physical Security and Environmental Protection John Perdikaris, 2014-04-22 Manage a Hazard or Threat Effectively and Prevent It from Becoming a Disaster. Adopting a risk management approach to addressing threats, vulnerability, and risk assessments is critical to those on the frontline. Developed with first responders.
