Hostile Sky A Hellcat Flier In World War II:

The Hostile Sky Doris C. Vernon, 2014-03-15 In the summer of 1942 Jim Vernon a nineteen year old student in Butte Montana joined the U S Navy s aviation cadet training program By the end of the war he was flying F6F Hellcats from the USS Ticonderoga against the Japanese mainland This memoir provides a carrier pilot s view of the conflict in the Pacific during the final months of the war when the atomic bombs were dropped and Japan capitulated A member of VBF 87 Vernon gives a highly personal eyewitness account of life in a bomber fighter squadron and the roller coaster emotions involved in combat sorties over the hostile sea and land He describes his feelings about meeting the challenges of war and offers stirring memories of his love of flying and the camaraderie of his flying mates both in the air and on liberty Added to this entertaining narrative are details of the mobilization and training of carrier pilots as well as a discussion of the high incidence of noncombat fatalities and the air group s response to the kamikaze threat information that contributes important dimensions to the overall story of the air war Completely candid about his emotions regarding day and night landings and errors made in the cockpit Vernon gives a vivid glimpse into the past at a time when teenagers matured rapidly as they faced the realities of war His recollections will strike a cord of recognition with aviators everywhere and will inform and entertain those with an interest in World War II combat

Kamikazes, Corsairs, and Picket Ships Robin L. Rielly, 2008-09-05 The untold story of ferocious air and naval combat during the WWII Battle of Okinawa drawn from primary sources and survivor interviews This is the story of an overlooked yet significant aerial and naval battle during the American assault on Okinawa in the spring of 1945 While losses to America s main fleet are well recorded less well known is the terrific battle waged on the radar picket line the fleet s outer defense against Japanese marauders Weaving together the experiences of the ships and their crews drawn from ship and aircraft action reports ship logs and personal interviews historian Robin L. Rielly recounts one of the most ferocious air and naval battles in history The US fleet and its accompanying airpower was so massive that the Japanese could only rely on suicide attacks to inflict critical damage Of the 206 ships that served on radar picket duty twenty nine percent were sunk or damaged by Japanese air attacks making theirs the most hazardous naval surface duty in World War II The great losses were largely due to relentless kamikaze attacks but also resulted from the improper use of support gunboats failure to establish land based radar at the earliest possible time the assignment of ships ill equipped for picket duty and as time went on crew fatigue US air cover during the battle is also described in full as squadrons dashed from their carriers and land bases to intercept the Japanese swarms resulting in constant melees over the fleet

Twilight of the Gods Ian W. Toll, 2020-09-01 New York Times Bestseller No one has told the story of World War II in the Pacific from beginning to bitter end better than Ian W. Toll This final volume concludes a brilliant trilogy Alex Kershaw New York Times best selling author of *The First Wave* and *Avenue of Spies* In June 1944 the United States launched a crushing assault on the Japanese navy in the Battle of the Philippine Sea The capture of the Mariana Islands and the accompanying ruin of Japanese carrier airpower

marked a pivotal moment in the Pacific War No tactical masterstroke or blunder could reverse the increasingly lopsided balance of power between the two combatants The War in the Pacific had entered its endgame Beginning with the Honolulu Conference when President Franklin Delano Roosevelt met with his Pacific theater commanders to plan the last phase of the campaign against Japan Twilight of the Gods brings to life the harrowing last year of World War II in the Pacific when the U S Navy won the largest naval battle in history Douglas MacArthur made good his pledge to return to the Philippines waves of kamikazes attacked the Allied fleets the Japanese fought to the last man on one island after another B 29 bombers burned down Japanese cities and Hiroshima and Nagasaki were vaporized in atomic blasts Ian W Toll s narratives of combat in the air at sea and on the beaches are as gripping as ever but he also reconstructs the Japanese and American home fronts and takes the reader into the halls of power in Washington and Tokyo where the great questions of strategy and diplomacy were decided Drawing from a wealth of rich archival sources and new material Twilight of the Gods casts a penetrating light on the battles grand strategic decisions and naval logistics that enabled the Allied victory in the Pacific An authoritative and riveting account of the final phase of the War in the Pacific Twilight of the Gods brings Toll s masterful trilogy to a thrilling conclusion This prize winning and best selling trilogy will stand as the first complete history of the Pacific War in more than twenty five years and the first multivolume history of the Pacific naval war since Samuel Eliot Morison s series was published in the 1950s

Dogfight over Tokyo John Wukovits,2019-08-27 From an expert in the Pacific theater of World War II comes the tragic story of the pilots who fought the last fight of the war during the first hour of peace When Billy Hobbs and his fellow Hellcat aviators from Air Group 88 lifted off from the venerable Navy carrier USS Yorktown early on the morning of August 15 1945 they had no idea they were about to carry out the final air mission of World War II Two hours later Yorktown received word from Admiral Nimitz that the war had ended and that all offensive operations should cease As they were turning back twenty Japanese planes suddenly dove from the sky above them and began a ferocious attack Four American pilots never returned men who had lifted off from the carrier in wartime but were shot down during peacetime Drawing on participant letters diaries and interviews newspaper and radio accounts and previously untapped archival records historian and prolific author of acclaimed Pacific theater books including Tin Can Titans and Hell from the Heavens John Wukovits tells the story of Air Group 88 s pilots and crew through their eyes Dogfight over Tokyo is written in the same riveting edge of your seat style that has made Wukovits s previous books so successful This is a stirring one of a kind tale of naval encounters and the last dogfight of the war a story that is both inspirational and tragic *Air & Space Power Journal* win 03 , *Air Power History* ,2003

Flying against Fate S. P. MacKenzie,2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals

ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers *Flying against Fate* expands our understanding of a major aspect of the psychology of war in the air and of World War II *The Hostile Sky* James W. Vernon,2014-06-15 In the summer of 1942 Jim Vernon a nineteen year old student in Butte Montana joined the U S Navy s aviation cadet training program By the end of the war he was flying F6F Hellcats from the USS Ticonderoga against the Japanese mainland This memoir provides a carrier pilot s view of the conflict in the Pacific during the final months of the war when the atomic bombs were dropped and Japan capitulated A member of VBF 87 Vernon gives a highly personal eyewitness account of life in a bomber fighter squadron and the roller coaster emotions involved in combat sorties over the hostile sea and land He describes his feelings about meeting the challenges of war and offers stirring memories of his love of flying and the camaraderie of his flying mates both in the air and on liberty Added to this entertaining narrative are details of the mobilization and training of carrier pilots as well as a discussion of the high incidence of noncombat fatalities and the air group s response to the kamikaze threat information that contributes important dimensions to the overall story of the air war Completely candid about his emotions regarding day and night landings and errors made in the cockpit Vernon gives a vivid glimpse into the past at a time when teenagers matured rapidly as they faced the realities of war His recollections will strike a cord of recognition with aviators everywhere and will inform and entertain those with an interest in World War II combat
