My Haunted House John Kuykendall,2013-07-27 IMPORTANT In horror films and on some TV shows ghosts can seem scary and dangerous In real life that s rarely true There are no documented cases of a ghost killing anyone In fact most people live comfortably with any ghosts in their homes However it can be difficult to tell the difference between an angry

ghost and a malicious entity or even a demon If you are very concerned about your safety put this book down and call a professional immediately Ghosts are spirits so a spiritual advisor such as a priest or other minister of your faith may have the most experience with this kind of problem If he or she cannot help ask for a referral or recommendation There may be a good paranormal investigation team in your area If you feel that you are in danger from something in your home do not stay there Leave right now Get help immediately WHAT S IN THIS BOOK If you ve wondered if your home is haunted this book will help you find answers and in most cases explain what to do about them You ll discover the leading normal reasons why some houses seem haunted You ll also find out why most haunted houses don t have ghosts and what to do if your home really is haunted
