ARCTIC EXPEDITION UNDER SIR JOHN FRANKLIN. 107

No. 11 (D.)

COPY of a LETTER from Dr. M'Cormick to the Secretary of the Admiralty.

11, Apsley Cottages, Twickenham Green,
20 February 1850.

Sir,

I now leave to transmit herewith, for the approval of my Lords Commissioners of the Admiralty, a list of the crew, gear and provisions and clothing requisite for the equipment of the Boat Expedition, which I have volunteered to conduct in search of Her Majesty's ships "Erebus" and "Terror," under the command of Captain Sir John Franklin.

The boat I should prefer for this service would be one similar, in the materials of its construction, to the boat used by Sir Edward Parry, in his attempt to reach the North Pole in the year 1827; but this I must leave to the superior judgment

No. 11.
Dr. M'Cormick's
Plan for a Boat
Expedition.

House Of Commons Sessional Papers Of The Eighteenth Century Vol 1:

House of Commons Sessional Papers of the Eighteenth Century Great Britain. Parliament. House of Commons,1975 *Materializing the Middle Passage* Jane Webster,2024-02-22 Jane Webster develops a pioneering approach to rebuilding British slaving vessels creating a new archaeology of the Middle Passage The book also examines multiple sources and accounts questioning why the African Middle Passage experience remains elusive even after decades of scholarship dedicated to uncovering it **Print Culture, Crime and Justice in 18th-Century London** Richard M.

Ward,2014-08-28 In the first half of the 18th century there was an explosion in the volume and variety of crime literature published in London This was a golden age of writing about crime when the older genres of criminal biographies social policy pamphlets and last dying speeches were joined by a raft of new publications including newspapers periodicals graphic prints the Old Bailey Proceedings and the Ordinary s Account of malefactors executed at Tyburn By the early 18th century propertied Londoners read a wider array of printed texts and images about criminal offenders highwaymen housebreakers murderers pickpockets and the like than ever before or since *Print Culture Crime and Justice in 18th Century London* provides the first detailed study of crime reporting across this range of publications to explore the influence of print upon contemporary perceptions of crime and upon the making of the law and its administration in the metropolis This historical perspective helps us to rethink the relationship between media the public sphere and criminal justice policy in the present

A Protestant Purgatory Laurie Throness,2016-12-05 How did the penitentiary get its name Why did the English impose long prison sentences Did class and economic conflict really lie at the heart of their correctional system In a groundbreaking study that challenges the assumptions of modern criminal justice scholarship Laurie Throness answers many questions like these by exposing the deep theological roots of the judicial institutions of eighteenth century Britain The book offers a scholarly account of the passage of the Penitentiary Act of 1779 combining meticulous attention to detail with a sweeping theological overview of the century prior to the Act But it is not just an intellectual history It tells a fascinating story of a broader religious movement and the people and beliefs that motivated them to create a new institution The work is original because it relies so completely on original sources It is mystical because it mingles heavenly with earthly justice It is authoritative because of its explanatory power Its anecdotes and insights poetry and song provide intriguing glimpses into another era strangely familiar to our own Of special interest to social and legal historians criminologists and theologians this work will also appeal to a wider audience of those who are interested in Christianity s impact on Western culture and institutions **Liverpool and Transatlantic Slavery** David Richardson,Suzanne Schwarz,Anthony Tibbles,2007-12-01

An Intellectual History of Political Corruption B. Buchan,L. Hill,2014-01-22 Few concepts have witnessed a more dramatic resurgence of interest in recent years than corruption This book provides a compelling historical and conceptual analysis of corruption which demonstrates a persistent oscillation between restrictive public office and expansive degenerative connotations of corruption from classical Antiquity to 1800 The Politics of Wine in Britain C.

Ludington,2016-01-12 A unique look at the meaning of the taste for wine in Britain from the establishment of a Commonwealth in 1649 to the Commercial Treaty between Britain and France in 1860 this book provides an extraordinary window into the politics and culture of England and Scotland just as they were becoming the powerful British state **The Slave Ship** Marcus Rediker,2007-10-04 Masterly Adam Hochschild The New York Times Book Review In this widely praised history of an infamous institution award winning scholar Marcus Rediker shines a light into the darkest corners of the British and American slave ships of the eighteenth century Drawing on thirty years of research in maritime archives court records diaries and firsthand accounts The Slave Ship is riveting and sobering in its revelations reconstructing in chilling detail a world nearly lost to history the floating dungeons at the forefront of the birth of African American culture **The Rule of the Admirals** Jerry Bannister,Osgoode Society for Canadian Legal History,2003-01-01 Jerry Bannister s The Rule of the Admirals examines governance in Newfoundland from the rule of the fishing admirals in 1699 to the establishment of representative government in 1832 It offers the first in depth account of the rise and fall of the system of naval government that dominated the island for more than a century In this provocative look at legal culture in eighteenth and nineteenth century Newfoundland Bannister explores three topics in detail naval government in St John s surrogate courts in the outports and patterns in the administration of law He challenges the conventional view that early Newfoundland was a lawless frontier isolated from the rest of the Atlantic world and argues that an effective system of naval government emerged to meet the needs of those in power An original and perceptive work Bannister s argument demands that we reconsider much of our knowledge of early Newfoundland history As he re examines governance prior to an elected assembly and places his analysis firmly within the material conditions of Newfoundland society Bannister provides a groundbreaking reinterpretation of a critical period in the island s colonial development Ultimately The Rule of the Admirals sheds light on one of the most misunderstood chapters in Canadian and British colonial history **Empire of Political Thought** Bruce

Buchan,2015-10-06 A book about how European colonists in Australia represented the Indigenous peoples they found there and the tasks of governing them within the terms of Western political thought It emphasises how the framework of ideas drawn from the traditions of Western political thought was employed in the imperial government of Indigenous peoples

The Architecture of the Bight of Biafra Joseph Godlewski,2024-03-06 The Architecture of the Bight of Biafra challenges linear assumptions about agency progress and domination in colonial and postcolonial cities adding an important sub Saharan case study to existing scholarship on globalization and modernity Intersected by small creeks rivulets and dotted with mangrove swamps the Bight of Biafra has a long history of decentralized political arrangements and intricate trading networks predating the emergence of the Atlantic world While indigenous merchants in the region were active participants in the transatlantic slave trading system they creatively resisted European settlement and maintained indigenous sovereignty until the middle of the nineteenth century Since few built artifacts still exist this study draws from a close reading of written sources travelers accounts slave traders diaries missionary memoirs colonial records and oral histories as well as contemporary fieldwork to trace transformations in the region s built environment from the sixteenth century to today With each chapter focusing on a particular spatial paradigm in this dynamic process this book uncovers the manifold and inventive ways in which actors strategically adapted the built environment to adjust to changing cultural and economic circumstances In parallel it highlights the ways that these spaces were rhetorically constructed and exploited by foreign observers and local agents Enmeshed in the history of slavery colonialism and the modern construction of race the spatial dynamics of the Biafran region have not been geographically delimited The central thesis of this volume is that these spaces of entanglement have been productive sites of Black identity formation involving competing and overlapping interests occupying multiple positions and temporalities and ensnaring real imagined and sometimes contradictory aims This book will be of interest to researchers and students of architecture architectural history urban geography African studies and Atlantic studies

Insanity, Race and Colonialism L. Smith,2014-10-14 Despite emancipation from the evils of enslavement in 1838 most people of African origin in the British West Indian colonies continued to suffer serious material deprivation and racial oppression This book examines the management and treatment of those who became insane in the period until the Great War

Poxed & Scurvied Kevin Brown,2011-05-30 A fascinating and wide ranging history of health hygiene and the sea This is a great narrative of an important but often hidden aspect of seafaring Ausmarine When European sailors began to explore the rest of the world the problem of keeping healthy on such long voyages became acute Malnourishment and crowded conditions bred disease but they also carried epidemics that decimated the indigenous populations they encountered and brought back new diseases like syphilis As navies developed the well being of crews became a dominant factor in the success of naval operations so it is no surprise that the Royal Navy led the way in shipboard medical provision and sponsored many of the advances in diet and hygiene which by the Napoleonic Wars gave its fleets a significant advantage over all its enemies

These improvements trickled down to the merchant service but the book also looks at two particularly harsh maritime environments the slave trade and emigrant ships both of which required special medical arrangements Eventually the struggle to improve the fitness of seamen became a national concern manifest in a series of far reaching and sometimes bizarre public health measures generally directed against the effects of drunkenness and the pox In this way as in many others an attempt to address the specific needs of the seafarer developed wider implications for society as a whole It also produced scientific breakthroughs that were a universal benefit so far from being a narrow study of medicine at sea this book provides a fascinating picture of social improvement The topics are intriguing the research is thorough and the book is a captivating read Nautical Research Journal *Principles and Agents* David Richardson, 2022-01-01 A new history of the abolition of the British slave trade Easily the most scholarly clear and persuasive analysis yet published of the rise to dominance of the British in the Atlantic slave trade as well as the implementation of abolition when that dominance was its peak David Eltis coauthor of *Atlas of the Transatlantic Slave Trade* Parliament's decision in 1807 to outlaw British slaving was a key moment in modern world history In this magisterial work historian David Richardson challenges claims that this event was largely due to the actions of particular individuals and emphasizes instead that abolition of the British slave trade relied on the power of ordinary people to change the world British slaving and opposition to it grew in parallel through the 1760s and then increasingly came into conflict both in the public imagination and in political discourse Looking at the ideological tensions between Britons sense of themselves as free people and their willingness to enslave Africans abroad Richardson shows that from the 1770s those simmering tensions became politicized even as British slaving activities reached unprecedented levels mobilizing public opinion to coerce Parliament to confront and begin to resolve the issue between 1788 and 1807 **English MPs** Michael W. McCahill, 2023-01-26 What was the role of elected legislators Was it to represent the opinions of constituents or to vote according to their informed opinions reflecting the needs of the kingdom Most authorities have accepted Edmund Burke's depiction of 18th century MPs insisting it was their right to form their opinions without reference to the instructions of constituents This study provides answers to these important questions and in doing so reveals that Burke's vision does not represent how the House of Commons functioned during the last two decades of the 18th century Rather than focusing on specific issues or demographic groups English MPs brings to the fore the legislative activity of a broad segment of late 18th century English MPs This book shows they were diligent legislators who attended to the needs of constituents in the process developing strong connections with them It demonstrates that these connections did not rest on shared beliefs in reformist ideologies except in and around the metropolis Instead they grew out of the members timely and effective tending session after session to the host of measures brought forward by constituents and neighbours McCahill explores in fascinating detail the consequences of this bond In this book McCahill draws from an impressive array of primary sources and secondary literature to combine a structural analysis with broad surveys and detailed case studies

The result is an illuminating and a comprehensive account of the House of Commons between 1760 and 1790 *Spouses, Church, and State* Saskia Lettmaier ,2025-03-24 *Genius in Bondage* Vincent Carretta,Philip Gould,2014-10-17 Until fairly recently critical studies and anthologies of African American literature generally began with the 1830s and 1840s Yet there was an active and lively transatlantic black literary tradition as early as the 1760s *Genius in Bondage* situates this literature in its own historical terms rather than treating it as a sort of prologue to later African American writings The contributors address the shifting meanings of race and gender during this period explore how black identity was cultivated within a capitalist economy discuss the impact of Christian religion and the Enlightenment on definitions of freedom and liberty and identify ways in which black literature both engaged with and rebelled against Anglo American culture **The Journal of the House of Commons** David Menhennet,1971 Sessional Papers of the Eighteenth Century Great Britain. Parliament. House of Commons,1975 **The Manuscripts of the House of Lords** Great Britain. Parliament. House of Lords,1887
