Fine Meshwork Dan O'Brien, 2020-02-28 In a 1984 interview with longtime friend Edna O'Brien Philip Roth describes her writing as a piece of fine meshwork a net of perfectly observed sensuous details that enables you to contain all the longing and pain and remorse that surge through the fiction The phrase fine meshwork can apply not only to O'Brien's writing but also to the connective threads that bind her work to others including most illuminatingly Roth's Since the publication of their first controversial novels in the 1950s and 1960s Roth and O'Brien have always argued against the isolation of mind from body autobiography from fiction life from art and self from nation In *Fine Meshwork* Dan O'Brien investigates the shared concerns of these two authors now regarded as literary icons in their home countries He traces their fifty year literary friendship and the striking parallels in their books and reception bringing together what at first glance seem to be quite disparate milieus the largely feminist and Irish scholarship on O'Brien with Jewish and American perspectives on Roth In doing so and in considering them in a transnational context he argues that the intertwined nature of their writing symbolizes the far ranging symbiosis between Irish literature and its American particularly Jewish American counterpart *Edna O'Brien and the Art of Fiction* Maureen O'Connor, 2021-10-15 *Edna O'Brien and the Art of Fiction* provides an urgent retrospective consideration of one of the English speaking world's best selling and most prolific contemporary authors This study considers the pioneering ways O'Brien represents women's experience family relationships the natural world sex creativity and death and her work's long anticipation of movements such as *metoo* *House Splendid Isolation 24 X Dump* Edna O'Brien, 1995-04-03 **Irish Women Writers** Alexander G. Ecocriticism of the Global South Scott Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2015-03-24 The vast majority of existing ecocritical studies even those which espouse the postcolonial ecocritical perspective operate within a first world sensibility speaking on behalf of subalternized human communities and degraded landscapes without actually eliciting the voices of the impacted communities Ecocriticism of the Global South seeks to allow scholars from or intimately familiar with underrepresented regions to write back to the world's centers of political and military and economic power expressing views of the intersections of nature and culture from the perspective of developing countries This approach highlights what activist and writer Vandana Shiva has described as the relationship between ecology and the politics of survival showing both commonalities and local idiosyncrasies by juxtaposing such countries as China and Northern Ireland New Zealand and Cameroon Much like Ecoambiguity Community and Development this new book is devoted to representing diverse and innovative ecocritical voices from throughout the world particularly from developing nations The two volumes complement each other by pointing out the need for further cultivation of the environmental humanities in regions of the world that are essentially the front line of the human struggle to invent sustainable and just civilizations on an imperiled planet

Crafting Infinity Rory T. Cornish,Marguerite

Quintelli-Neary,2013-01-14 Crafting Infinity is a multi disciplinary collection of essays that investigates how aspects of traditional Irish culture have been revised retooled and repackaged in the interest of maintaining the integrity of Irish myth tales artistic values spiritual foundations and historic icons From perspectives on early Irish Christianity to national mythology traditional Irish music Irish history represented in film literary inventiveness and evidence of the Irish diaspora this study examines how artists writers theorists and emigrants from Ireland re interpreted and reshaped Irish traditions often invoking Ireland s relationship with other nations before it acquired independence Because with each retelling of legend reworking of musical styles and recreating of historic events there has been inventiveness and alterations inconsistencies affirm that the continuators of Irish tradition both preserve and alter their source materials and reshape iconic figures The end product of these endeavors is tantamount to infinity for just as Standish O Grady William Butler Yeats James Joyce Elizabeth Bowen Jennifer Johnston and Edna O Brien craft fiction or rewrite folklore with Irish characters and

themes while borrowing from other cultural wellsprings such as Orientalism or French design so exporters of Irish art forms and dispositions towards musical style nationalism and spirituality necessarily reconfigure the original as no tradition can remain pure indefinitely Each facet of Irish culture takes on the quality of a Celtic knot artistically infinite in its circular design and indestructible in its universal presence and recognition In *Crafting Infinity* each contributor dismantles a quality of Irish history culture or the arts revealing how a multiplicity of interpretations can be applied to Irish traditions

Revolutionary Damnation Sheldon Brivic, 2017-05-11 In Irish fiction the most famous example of the embrace of damnation in order to gain freedom politically religiously and creatively is Joyce's Stephen Dedalus His non serviam though is not just the profound rebellion of one frustrated young man but as Brivic demonstrates in this sweeping account of twentieth century Irish fiction the emblematic and necessary standpoint for any artist wishing to envision something truly new Revolutionary fervor is what allowed a country with a population lower than that of Connecticut to produce so many of the greatest writers of the twentieth century Because Irish culture was largely dictated by the Catholic Church and its conservatism the most ambitious Irish writers like Joyce Beckett and the ten others Brivic presents here saw the advantages of damnation and seized them rejecting powerful norms of church state and culture as well as of literary form voice and character to produce some of the most radical work of the twentieth century Brivic links the work of writers such as Flann O'Brien Patrick McCabe and Anne Enright to the theories of Alain Badiou His mathematical procedure for distinguishing what is truly innovative informs the progressive political and philosophical thrust that these writers at their best carry on from Joyce and Beckett to unfold a fierce tradition that extends into the twenty first century
