## House That Vanished:

**Sonic Thinking** Bernd Herzogenrath, 2017-02-23 Sonic Thinking attempts to extend the burgeoning field of media philosophy which so far is defined by a strong focus on cinema to the field of sound. The contributors urge readers to re-adjust their ideas of Sound Studies by attempting to think not only about sound by external criteria such as cultural meaning but to think with and through sound. Series editor Bernd Herzogenrath's collection serves two interconnected purposes in developing an alternative philosophy of music that takes music serious as a form of thinking and in bringing this approach into a fertile symbiosis with the concepts and practices of artistic research, art philosophy and science as heterogeneous yet coequal forms of thinking and researching. Including contributions by both established figures and younger scholars working on cutting edge material and weaving artistic responses and interventions in between the more theoretical texts, Herzogenrath's collection provides a lively introduction to a fresh debate.

**Uncontrollable Beauty** David Shapiro, 2001-10-01 In this acclaimed art anthology a prestigious group of artists, critics and literati offer their incisive reflections on the questions of beauty past, present and future and how it has become a domain of multiple perspectives. Here is Meyer Schapiro's skeptical argument on perfection, contributions from artists as profound as Louise Bourgeois and Agnes Martin and reflections of critics, curators and philosophers on the problems of beauty and relativism. Readers will find fascinating insights from such art theorists and critics as Dave Hickey, Jeremy Gilbert Rolfe, Donald Kuspit, Carter Ratcliff and dozens more.

***The Athenaeum***, 1896 **Cosmos and Pornografia** Witold Gombrowicz, 1985 Here are two major works by the famed Polish novelist and dramatist Witold Gombrowicz. The first *Cosmos*, a metaphysical thriller, revolves around an absurd investigation. It is set in provincial Poland and narrated by a seedy, pathetic and witty student who is charming and appalling by turns and whose voice is dense with the richly palpable description that characterizes Gombrowicz's writing. The second *Pornografia* explores the sinister effect the young can have on the old. To serve their own secret eroticism, two aging intellectuals encourage a young couple to commit murder. Although the adolescents are the weapons used to commit the crime, the four become conspirators before the deed is done.
