Federal Taxation of Income, Estates, and Gifts Boris I. Bittker, Lawrence Lokken, 2006 Vol 3 also issued as rev 3rd ed rev 3rd edition of other vols not planned *Federal Tax Compliance Manual* CCH Incorporated, 2007-12 CCH's Federal Tax Compliance Manual formerly published under title CCH Federal Tax Manual is a comprehensive source for explanations practical examples filled in tax return forms key tax facts federal tax tables and other information that will assist practitioners in accurately complete federal tax returns This convenient and authoritative resource covers the preparation of tax returns and tax compliance providing helpful guidance on the basic federal tax rules and forms affecting individuals and businesses The rules applied to everyday business and personal income tax decisions are thoroughly discussed with special emphasis on how these issues should be handled on the return Among the topics covered are Individuals Corporations Pass Through Entities Income Deductions and Credits Tax Accounting Rules Dividends Interest Rents and Royalties Retirement Plans and Distributions Depreciation Sales and Exchanges Justice, Equality and Tax Law Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is

created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic

provide a strong and diverse foundation for this dialogue to flourish *Income from International Private Employment* F. P. G.
