Feminism And Linguistic Theory

Frederick J. Newmeyer

Feminism And Linguistic Theory:

Feminism and Linguistic Theory Deborah Cameron, 1985 Feminism as a movement for social change has always recognized the significance of language in both theory and practice In the new feminist scholarship of the past two decades theories about language have played an important part in attempts to understand and transform women s lives Feminism and Linguistic Theory is a critical but comprehensive and accessible introduction to recent work in this area It ranges over a wide and varied field not only does it review work in linguistics and other mainstream disciplines but the alternative currents of radical feminist Lacanian and postmodernist linguistic thought are given detailed consideration **Feminism and**

Linguistic Theory Deborah Cameron, 1992-09-30 An introduction to theories about language in attempts to understand and transform women s lives This evolving body of work encompasses linguistics anthropology literary and cultural theory psychoanalysis and postmodern philosophy **Feminism and Linguistic Theory** Claudia Lange, 1988 Corpus

Linguistics and Linguistic Theory Christian Mair, Marianne Hundt, 2000 From being the occupation of a marginal and frequently marginalised group of researchers the linguistic analysis of machine readable language corpora has moved to the mainstream of research on the English language In this process an impressive body of results has accumulated which over and above the intrinsic descriptive interest it holds for students of the English language forces a major and systematic rethinking of foundational issues in linguistic theory Corpus linguistics and linguistic theory was accordingly chosen as the motto for the twentieth annual gathering of ICAME the International Computer Archive of Modern Medieval English which was hosted by the University of Freiburg Germany in 1999 The present volume which presents selected papers from this conference thus builds on previous successful work in the computer aided description of English and at the same time represents an attempt at stock taking and methodological reflection in a linguistic subdiscipline that has clearly come of age Contributions cover all levels of linguistic description from phonology prosody through grammar and semantics to discourse analytical issues such as genre or gender specific linguistic usage They are united by a desire to further the dialogue between the corpus linguistic community and researchers working in other traditions Thereby the atmosphere ranges from undisguised skepticism as expressed by Noam Chomsky in an interview which is part of the opening contribution by Bas Aarts to empirically substantiated optimism as for example in Bernadette Vine s significantly titled contribution Getting things done **The Routledge Language and Cultural Theory Reader** Lucy Burke, Tony Crowley, Alan Girvin, 2000 This
