religion of the Igbo people of West Africa In approaching this task this special study pursues some major aims In the first place it engages itself in the clarification of some basic issues Are the religious experiences which are phenomenologically found in all religions including the Igbo religion only mere human fabrications or do they originate from a revelation of God Secondly this publication working with the innovative analysis of the theophoral personal names provides some profound factual information about the concrete contents of the Igbo religion on God Thirdly the author tries to find out whether there could be a basic agreement between the understanding of God in Igbo religion and the biblical revelation In this work the fundamental agreement is found in the conviction that God in traditional Igbo religion Chukwu and the God of the Bible is the God of life The purpose of this book therefore is to bring back the question of God to the centre of existential Christian life it is to make the theme of God the motivation and criterion for the whole Christian life and spirituality both individually and communally The theme of the God of life introduces God into life and connects the problems and questions of men and women of today to the theme of God

Africa's Social and Religious Quest Randee Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa's social and religious quest Beyond split explanations of external versus internal factors e.g. colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis-à-vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans quest today
