Deception Ziyad Marar, 2014-12-05 Most of us think we are about 15 per cent cleverer nicer more attractive and better drivers than others think we are It seems deception begins at home After all the most convincing liars convince themselves first Sellers and buyers parents and children friends and lovers must conceal from each other the unutterable truth that they don't believe or want the same things In this book Ziyad Marar throws a revealing light on the many ways deception is woven into the texture of human life our wiring leaves us easily suckered by persuasive illusions while our contradictory desires for sex and honesty money and kindness for cake and losing weight force us to cook up self-serving stories We manage flattering impressions with effortless skill while pretending our sins and self-indulgences are beyond our control Drawing on insights from philosophy psychology and literature Marar explores the implications for living well in the shadow of Kant's humbling thought that out of the crooked timber of humanity no straight thing was ever made

The Aurovingian E. R. Odhomi, 2012-02 In the ancient world of the Inner Realm a young slave blacksmith named Aurovin in servitude of an evil empire is chosen by the slave leaders of his people to escape and embark on a perilous journey to find new lands where they can live as a free tribe But Aurovin's journey is greatly hindered by a brewing rift between the great powers of the Inner Realm This rift escalates after king Pavros overlord of the Muldovene Empire barely escapes a botched assassination on his life The Muldovene king sets his eyes on the empire's arch enemy as the primary culprit the Warrior King Sapien and the kingdom of Arencia Aurovin's journey and perils are gradually intertwined into the numerous events and conflicts that will inevitably lead to the Great War During his journey Aurovin encounters several characters such as Belciender and Zaadu two young adventurers from Arencia who are on a mission on behalf of their king to the kingdom of Traccia to unravel a growing conspiracy that may further threaten the sovereignty of the Arencian realm He also meets Janus a burly jester whom Aurovin saves while escaping the clutches of a powerful enemy from a dungeon All four eventually join forces together to battle an evil order bent on attaining absolute power over the Inner Realm Unfortunately as Aurovin makes new friends and acquaintances the young blacksmith makes just as many enemies on his lone quest most notably the handmaster the devious and diabolic master of the order of the Dark Hand who searches for an ancient power that will grant the holder control over the most unstoppable army ever assembled one even more powerful than the empire's These

villainous characters such as king Pavros the handmaster along with many others will undoubtedly reshape Aurovin's perspective of the cultures and politics of the Inner Realm beyond the confines of his humble home and people and this forces him to doubt if there really is a better world for his people outside the empire. This climatic struggle between good and evil will finally culminate on the battlefield between the armies of the all-powerful empire and its allies against the legendary warrior king Sapien and his undefeated Arencian army. Aurovin's journey is filled with death, betrayal, deception, superstition, mythology, and love in a world where only the wisest and the most cunning will be strong enough to attain ultimate power and the weak and cowardly will be forced into servitude. Only time will tell if the blacksmith attains victory and finally finds the Promise Land that was prophesied by the oracle of his people.

Deception: An Interdisciplinary Exploration Emma Williams, Iman Sheeha, 2019-01-04 This volume was first published by Interdisciplinary Press in 2015. The topic of deception is an area of study that has fascinated researchers and readers alike for generations. From infamous tales of espionage and conspiracy to the targeted deception of illusionists and magicians, and notorious examples of deceptive statements and actions in public life, the concept of deception is widely recognised by the general public. The pervasive nature of deception and deceit permeating all facets of life from the annals of history to the present day means that it is an area of research that benefits substantially from an approach that crosses conventional academic and research boundaries. This collection represents an interdisciplinary exploration of the concept of deception, expanding the reader's awareness and understanding of a range of areas including the portrayal of deception in literature and spy fiction, the existence and success of literary hoaxes, deception and illusion in visual art, and the use of deception in both strategic and interpersonal contexts.

From his vantage point atop the husk of the Sydney Opera House, Dr. Eos Davies watched the dying sun paint the cracked sky with its farewell. Beneath him, the skeletal city choked on its own dust, an echo of the metropolis it once was.
