Pacific Cooperation John Ravenhill, Vinod Aggarwal, Paul M Evans, Pauline Kerr, 2019-06-20 Long divided by cultural, economic and political differences, the Asia-Pacific region has little history of multilateral cooperation. Alliances that once linked individual countries with one or the other superpower fostered deep mistrust among neighbouring states. The end of the Cold War, however, has created new opportunities for multilateral cooperation.

Nationalism and Power Politics in Japan's Relations with China Yew Meng Lai, 2013-08-22 Despite flourishing economic interactions and deepening interdependence, the current political and diplomatic relationship between Japan and China remains lukewarm at best. Indeed, bilateral relations reached an unprecedented nadir during the spring of 2005 and again more recently in autumn 2012 as massive anti-Japanese demonstrations across Chinese cities elicited corresponding incidents of popular anti-Chinese reprisal in Japan. This book systematically explores the complex dynamics that shape contemporary Japanese-Chinese relations. In particular, it analyses the so-called revival of nationalism in post-Cold War Japan, its causality in redefining Japan's external policy orientations and its impact on the atmosphere of the bilateral relationship. Further, by adopting a neoclassical realist model of state behaviour and preferences, Lai Yew Meng examines two highly visible bilateral case studies: the Japanese-Chinese debacle over prime ministerial visits to Yasukuni Shrine and the multi-dimensional dispute in the East China Sea which comprises the Senkaku/Diaoyu/dao territorial row, alleged Chinese maritime incursions and bilateral competition for energy resources. Through these examples, this book explores whether nationalism really matters, when and under what circumstances nationalism becomes most salient and the extent to which the emotional dimensions of nationalism manifest most profoundly in Japanese state elites' policy decision making. This timely book will be of great interest to students and scholars of both Japanese and Chinese politics as well as those interested in international relations, nationalism, foreign policy and security studies more broadly.

Japan's Relations with Southeast Asia Peng Er Lam, 2012-09-10. The Fukuda Doctrine has been the official blueprint to Japan's foreign policy towards Southeast Asia since 1977. This book examines the Fukuda Doctrine in the context of Japan-Southeast Asia relations and discusses the possibility of a non-realist approach in the imagining and conduct of international relations in East Asia. The collapse of 54 years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo's policy and behaviour towards Southeast Asia. Looking at its origins and norms amidst three decades of change, the book argues that the Fukuda Doctrine is still relevant to Japan-Southeast Asian relations and should be extended to relations between China and Japan if an East Asian Community is to be built. The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia, including the revitalization of Japan's security role. By providing a detailed understanding of a non-western perspective of Japan's relationship with Southeast Asia, this book is a useful contribution for students and scholars of Asian Studies, Politics, and International Relations.

Oxford Handbook of the International Relations of Asia Saadia M. Pekkanen, John Ravenhill, Rosemary Foot, 2014. This Handbook examines the theory and practice of international relations in Asia. Building on an investigation of how various theoretical approaches to international relations can elucidate Asia's empirical realities, authors examine the foreign relations and policies of major countries or sets of countries.
