Democracy in Eastern Asia Edmund S. K. Fung,Steven Drakeley,2013-11-20 With the Asian Century now upon us bringing with it many profound economic and political changes to the world order it is very timely to assess the state of democracy in the Asian region Focusing on Eastern Asia this book

provides such a review highlighting lines of connections between the states and peoples of this complex and dynamic region. Featuring chapters on China, Japan, Taiwan, South Korea, Hong Kong, Indonesia, Malaysia, Singapore, Thailand, the Philippines, Cambodia, and Myanmar, this book provides a detailed analysis of the state of democracy in each country or territory and shows how each is different and distinctive whilst simultaneously drawing out important similarities. Further, it provides up to date analysis of political changes in the region relating to the processes of democratization and in some cases to the ongoing quest for democracy. Critically examining the current state of political development in the region, the chapters explore the issues and problems that challenge the region's governments in terms of democratic transition, democratic consolidation, democratic improvement and good governance. With contributions from leading international scholars, this book will be of great interest to students and scholars interested in Asian politics and politics and democratization studies more broadly.

Japan's Quiet Transformation Jeff Kingston, 2004-08-02. The 1990s have been termed as Japan's lost decade to describe how the phenomenal growth in the Japanese economy ground to a halt and the country was crippled by enormous and ongoing political, economic and social problems. In responding to these unprecedented difficulties, wide ranging reforms have been adopted including NPO information disclosure and judicial reform legislation. Controversially, this book argues that such reforms are creating a more robust civil society and demonstrate that Japan is far more dynamic than is generally recognized.

Women and Political Inequality in Japan Mikiko Eto, 2020-12-17. Why are there so few Japanese women involved in the political system? In 2019, Japanese women made up 10% of the national Lower House, 21% of the Upper House and 14% of local assemblies. According to the Inter Parliamentary Union, this places Japan 164th out of 193 countries when it comes to women's representation in the legislature. The percentage of women in the Lower House has only increased by fewer than two percentage points since women gained full suffrage and the right to stand for election in Japan in 1946. Eto analyses the various factors that have led to women's low presence in the Japanese legislature. She evaluates ways in which it might be possible for Japan to catch up and in doing so examines how Japanese society continues to perpetuate gender rigid expectations of people. This text is a valuable study for scholars of Japanese politics and society and for readers with an interest in the broader issue of the representation of women in politics.

Japanese Phoenix Richard Katz, 2002-11-26 Japan will recover When its economic achievements once again earn the world's admiration its per capita GDP will grow faster and its Information Technology revolution will prove even greater than in the United States As Japan brings its inefficient industries up to world benchmarks sustained annual growth of 3 percent perhaps more will be within reach This is the confident forecast that begins Japanese Phoenix The Long Road to Economic Revival by the author of Japan The System That Soured which several years ago accurately predicted Japan's current travails at a time when others were prematurely pronouncing full recovery Katz warns however that there is bad news to go with the good It will take at least ten more years to reach this promised land And the road will be very bumpy So deep seated are Japan's dysfunctions that even if it did everything right today it would take five years for truly vibrant growth to take hold But Japan will not do everything right today Opposition to reform is equally deep seated and a myriad of vested interests and millions of jobs are at stake Still he notes there is little doubt that reform will eventually succeed Katz concludes that while so far for every step forward there have been two steps back this is just the second round in a 15 round fight Japan is a great nation currently trapped in obsolete institutions As it has before Japan will find a way to surmount its problems and regain its forward progress
