**Federal Judges - the Appointing Process** Harold W. Chase, 1972      Federal Judges: the Appointing Process Harold William Chase, 1972      Improving the Process of Appointing Federal Judges Miller Center Commission on the Selection of Federal Judges, 1996      **Federal Judges** Harold William Chase, 1972      Appointment of Judges Neil D. McFeeley, 2014-05-23

The selection of federal judges constitutes one of the more significant legacies of any president the choices of Lyndon Baines Johnson affected important social policies for decades This book explores the process of making judicial appointments examining how judges were selected during Johnson s administration and the president s own participation in the process Appointment of Judges The Johnson Presidency is the first in depth study of the judicial selection process in the Johnson years and is one of the few books that has analyzed any individual president s process Based on sources in the archives of the Lyndon Baines Johnson Library and correspondence from senators party officials Justice Department officers the American Bar Association Supreme Court justices and the candidates themselves the book is an important exploration of a significant aspect of presidential power The author shows that Johnson recognized the great impact for social and economic policy the judiciary could have in America and sought out judges who shared his vision of the Great Society More than any previous president since William Howard Taft Johnson took an active personal role in setting up the criteria for choosing judges and in many cases participated in decisions on individual nominees The president utilized the resources of the White House the Department of Justice other agencies and private individuals to identify judicial candidates who met criteria of compatible policy perspective excellent legal qualifications political or judicial experience youth and ethnic diversity The book notes how the criteria and judicial selection process evolved over time and how it operated during the transitions between Kennedy and Johnson and between Johnson and Nixon      *The Appointment Process for U.S. Circuit and District Court Nominations* Congressional Research Service, 2014-10-22

In recent decades the process for appointing judges to the U S circuit courts of appeals and the U S district courts has been of continuing Senate interest The responsibility for making these appointments is shared by the President and the Senate Pursuant to the Constitution s Appointments Clause the President nominates persons to fill federal judgeships with the appointment of each nominee also requiring Senate confirmation Although not mentioned in the Constitution an important role is also played midway in the appointment process by the Senate Judiciary Committee The need for a President to make a circuit or district court nomination typically arises when a judgeship becomes or soon will become vacant With almost no formal restrictions on whom the President may consider an informal requirement is that judicial candidates are expected to meet a high standard of professional qualification By custom candidates who the President considers for district judgeships are typically identified by home state Senators if the latter are of the President s party with such Senators however generally exerting less influence over the selection of circuit nominees Another customary expectation is that the Administration before the President selects a

nominee will consult both home state Senators regardless of their party to determine the acceptability to them of the candidate under consideration In recent Administrations the pre nomination evaluation of judicial candidates has been performed jointly by staff in the White House Counsel s Office and the Department of Justice Candidate finalists also undergo a confidential background investigation by the FBI and an independent evaluation by a committee of the American Bar Association The selection process is completed when the President approving of a candidate signs a nomination message which is then sent to the Senate Once received by the Senate the judicial nomination is referred to the Judiciary Committee where professional staff initiate their own investigation into the nominee s background and qualifications Also during this pre hearing phase the committee through its blue slip procedure seeks the assessment of home state Senators regarding whether they approve having the committee consider and take action on the nominee Next in the process is the confirmation hearing where judicial nominees engage in a question and answer session with members of the Judiciary Committee Questions from Senators may focus among other things on a nominee s qualifications understanding of how to interpret the law previous experiences and the role of judges

Supreme Court Appointment Process Congressional Service,2018-07-04 The appointment of a Supreme Court Justice is an event of major significance in American politics Each appointment is of consequence because of the enormous judicial power the Supreme Court exercises as the highest appellate court in the federal judiciary Appointments are usually infrequent as a vacancy on the nine member Court may occur only once or twice or never at all during a particular President s years in office Under the Constitution Justices on the Supreme Court receive what can amount to lifetime appointments which by constitutional design helps ensure the Court s independence from the President and Congress The procedure for appointing a Justice is provided for by the Constitution in only a few words The Appointments Clause Article II Section 2 clause 2 states that the President shall nominate and by and with the Advice and Consent of the Senate shall appoint Judges of the supreme Court The process of appointing Justices has undergone changes over two centuries but its most basic feature the sharing of power between the President and Senate has remained unchanged To receive appointment to the Court a candidate must first be nominated by the President and then confirmed by the Senate Political considerations typically play an important role in Supreme Court appointments It is often assumed for example that Presidents will be inclined to select a nominee whose political or ideological views appear compatible with their own The political nature of the appointment process becomes especially apparent when a President submits a nominee with controversial views there are sharp partisan or ideological differences between the President and the Senate or the outcome of important constitutional issues before the Court is seen to be at stake Additionally over more than two centuries a recurring theme in the Supreme Court appointment process has been the assumed need for professional excellence in a nominee During recent presidencies nominees have at the time of nomination most often served as U S appellate court judges The integrity and impartiality of an individual have also been important criteria for a President when selecting a

nominee for the Court The speed by which a President selects a nominee for a vacancy has varied during recent presidencies A President might announce his intention to nominate a particular individual within several days of when a vacancy becomes publicly known or a President might take multiple weeks or months to announce a nominee The factors affecting the speed by which a President selects a nominee include whether a President had advance notice of a Justice s plan to retire as well as when during the calendar year a Justice announces his or her departure from the Court On rare occasions Presidents also have made Court appointments without the Senate s consent when the Senate was in recess Such recess appointments however were temporary with their terms expiring at the end of the Senate s next session Recess appointments have at times been considered controversial because they bypassed the Senate and its advice and consent role The last recess appointment to the Court was made in 1958 when President Eisenhower appointed Potter Stewart as an Associate Justice Justice Stewart was confirmed by the Senate the following year

*Judicial Review of Immigration Detention in the UK, US and EU* Justine N Stefanelli, 2020-01-23 Immigration detention is considered by many states to be a necessary tool in the execution of immigration policy Despite the apparently key role it plays in immigration enforcement the law on immigration detention is often vague especially in relation to determining the circumstances under which prolonged detention remains lawful As a result the courts are frequently called upon to adjudicate these matters with scant legal tools at their disposal Though there have been some significant judgments on the legality of detention at the constitutional level the extent to which these judgments have had an impact at the lower end of the judiciary is unclear Indeed it is the lower courts which are tasked with judging the legality of detention through habeas corpus or judicial review proceedings This book examines the way this has occurred in the lower courts of two jurisdictions the UK and the US and contrasts this practice not only in those jurisdictions but with judgments rendered by the Court of Justice of the European Union a constitutional court at the other end of the judicial spectrum whose judgments are applied by courts and tribunals in the EU Member States Although these three jurisdictions use similar tests to evaluate the legality of detention case outcomes significantly differ Many factors contribute to this divergence but key among them is the role that fundamental rights protection plays in each jurisdiction Through a forensic evaluation of 191 judgments this book compares the laws on detention in the UK US and EU and makes recommendations to these jurisdictions for improvement
