If Not For Desire:

Complete Works Richard Sibbes,1862 **Socratic Ignorance and Platonic Knowledge in the Dialogues of Plato**

Sara Ahbel-Rappe,2018-04-25 In this highly original and provocative book Sara Ahbel Rappe argues that the Platonic dialogues contain an esoteric Socrates who signifies a profound commitment to self knowledge and whose appearances in the dialogues are meant to foster the practice of self inquiry According to Ahbel Rappe the elenchus or inner examination and the thesis that virtue is knowledge are tools for a contemplative practice that teaches us how to investigate the mind and its objects directly In other words the Socratic persona of the dialogues represents wisdom which is distinct from and serves as the larger space in which Platonic knowledge ethics epistemology and metaphysics is constructed Ahbel Rappe offers complete readings of the Apology Charmides Alcibiades I Euthyphro Lysis Phaedrus Theaetetus and Parmenides as well as parts of the Republic Her interpretation challenges two common approaches to the figure of Socrates the thesis that the dialogues represent an early Plato who later disavows his reliance on Socratic wisdom and the thesis that Socratic ethics can best be expressed by the construct of eudaimonism or egoism **Nicomachean Ethics** Aristotle,2011-12-14 Focus

Philosophical Library s edition of Aristotle s Nicomachean Ethics is a lucid and useful translation of one of Aristotle s major works for the student of undergraduate philosophy as well as for the general reader interested in the major works of western civilization This edition includes notes and a glossary intending to provide the reader with some sense of the terms and the concepts as they were understood by Aristotle s immediate audience Focus Philosophical Library books are distinguished by their commitment to faithful clear and consistent translations of texts and the rich world part and parcel of those texts

From Valuing to Value David Sobel,2016-11-03 Subjective accounts of well being and reasons for action have a remarkable pedigree The idea that normativity flows from what an agent cares about that something is valuable because it is valued has appealed to a wide range of great thinkers But at the same time this idea has seemed to many of the best minds in ethics to be outrageous or worse not least because it seems to threaten the status of morality Mutual incomprehension looms over the discussion From Valuing to Value written by an influential former critic of subjectivism owns up to the problematic features to which critics have pointed while arguing that such criticisms can be blunted and the overall view rendered defensible In this collection of his essays David Sobel does not shrink from acknowledging the real tension between subjective views of reasons and morality yet argues that such a tension does not undermine subjectivism In this volume the fundamental commitments of subjectivism are clarified and revealed to be rather plausible and well motivated while the most influential criticisms of subjectivism are straightforwardly addressed and found wanting *The Fortnightly* ,1901

Psychoanalysis, Monotheism and Morality Wolfgang Müller-Funk,Inge Scholz-Strasser,Herman Westerink,Daniela Finzi,2013 In this volume renowned experts in psychoanalysis reflect on the relationship between psychoanalysis and religion in particular presenting various controversial interpretations of the question if and to what extent monotheism semantically

and structurally fits psychoanalytic insights Some essays augment traditional religious critiques of Freudianism with later religio philosophical theories on for example femininity Others explore the relation between psychopathology and morality from the Freudian premise that psychopathology shows in an excessive way aspects or mechanisms of the human psyche that constitute our subjectivity moral capacities and behavior Contributors Andreas De Block KU Leuven University of Leuven Fethi Benslama University of Paris Diderot Sergio Benvenuto ISTC Rome Gohar Homayounpour Shahid Beheshti University Tehran Felix de Mendelssohn Sigmund Freud University Vienna Julia Kristeva University of Paris Diderot Lode Lauwaert KU Leuven University of Leuven Siamak Movahedi University of Massachusetts Wolfgang Muller Funk University of Vienna Gilles Ribault University of Paris Diderot C line Surprenant University of Sussex Inge Scholz Strasser Sigmund Freud Foundation Herman Westerink University of Vienna Joel Whitebook Columbia University Moshe Zuckermann Tel Aviv University

Becomings Elizabeth Grosz,1999 This volume explores the ontological epistemic and political implications of rethinking time as a dynamic and irreversible force Its authors seek to stimulate research in the sciences and humanities which highlight the temporal foundations

Free Will İlham Dilman,1999 What is the place of human free will in our lives if all our actions are the result of some other cause Does our processing unconscious beliefs or desires make us less free Is our free will necessarily restricted if we do not choose our own beliefs The debate between free will and its opposing doctrine determinism is one of the key issues in philosophy Free Will An historical and philosophical introduction provides a comprehensive introduction to this highly important question and examines the contributions made by sixteen of the most outstanding thinkers from the time of early Greece to the twentieth century Homer Sophocles Platto Aristotle St Augustine St Thomas Aquinas Descaartes Spinoza Hume Kant Schopehauer Freud Sartre Weil Wittgenstein Moore İlham Dilman brings together all the dimensions of the problem of free will with examples from literature ethics and psychoanalysis Drawing out valuable insights from both sides of the free will determinism divide and he provides an accessible and highly readable introduction to this perennial problem

Aristotle on Prescription Francesca Alesse,2018-10-22 The focus of Aristotle on Prescription is Aristotle s reflections on rule making It is widely believed that Aristotle was only concerned with decision making understood as a deliberative process enabling a person to arrive at particular contingent decisions However rule making is fundamental to Aristotle s ethical texts Establishing rules means indicating patterns for action that are sufficiently specific to meet situational difficulties and

sufficiently constant in time to provide us with a code of behaviour to be used in similar situations When we prescribe rules we demonstrate the ability to direct not only our own life but also other people s lives Alesse s book explores Aristotle s deep reflections on the nature and functions of prescription and on the relationship between rules and individual decisions

Evolution F. B. Jevons, 2022-09-16 In *Evolution* F B Jevons embarks on a profound exploration of the intersection between philosophy science and economics examining how evolutionary theory influences various aspects of human experience Written in the late 19th century during a period marked by rapid scientific advancements and intellectual ferment Jevons employs a clear and analytical style that synthesizes complex ideas into accessible prose The text delves into the implications of Darwinian thought not merely as a biological principle but as a framework that encompasses social and economic evolution positioning it within the broader discourse of progress and human development F B Jevons was a noted economist and philosopher whose works significantly contributed to the fields of utility and marginalism His background in both the sciences and the humanities informed his multidisciplinary approach as he sought to integrate insights from various domains into his economic theories This holistic perspective paired with his keen observations of societal shifts motivated him to articulate a vision of evolution that resonated with contemporary intellectual currents while anticipating future debates around the concepts of change and adaptation *Evolution* is essential reading for anyone interested in the philosophical underpinnings of modern thought Jevons insights not only illuminate the prevailing ideas of his time but also challenge readers to consider the ongoing relevance of evolutionary frameworks in understanding contemporary issues This text is a valuable resource for scholars and enthusiasts alike promising to enrich one s understanding of the intricate relationship between evolution society and economics

On God J. KRISHNAMURTI, *On God* is one of a series of theme books put together from the talks and writings of J Krishnamurti The book contemplates our search for the sacred Sometimes you think life is mechanical and at other times when there is sorrow and confusion you revert to faith looking to a supreme being for guidance and help Krishnamurti explores fully the futility of seeking knowledge of the unknowable and shows that it is only when we have ceased seeking with our intellects that we may be radically free to experience Reality Truth or bliss He presents the religious mind as one that directly perceives the sacred rather than adhering to religious dogma
