[Sexual Life in Ancient China](#) R.H. van Gulik, 2021-10-01 In 1961 Robert van Gulik published his pioneering overview of Sexual Life in Ancient China This edition of the work is preceded by an elaborate introduction by Paul Rakita Goldin assessing the value of Van Gulik s volume the subject itself and its author The introduction is followed by an extensive and up to date bibliography on the subject which guides the modern reader in the literature on the field which appeared after the publication of Van Gulik s volume One of the criticisms in 1961 regarded the Latin translations of passages deemed too explicit by Van Gulik In this 2002 edition all Latin has for the first time been translated into unambiguous English thus making the full text widely available to an academic audience

Maitreya Buddha in I-Kuan Tao Joseph J. F. Chen, 2014-10-21 Maitreya Buddha in I kuan Tao is a comprehensive account of how the Early Buddhist concept of Bodhisattva Maitreya residing in Tusita heaven

abiding time to descend to earth to become the next Buddha developed and evolved to be the second most important deity of I kuan Tao It has been purposely written to answer questions raised by my reader and audiences on the importance of Maitreya Buddha in I kuan Tao It traces how Maitreya Buddha gained this most prestigious position through over two millennia of history in Theravada Mahayana and Vajrayana traditions utilizing the major literary works and objects of Buddhist Art of India Sri Lanka China Korea Japan Vietnam Tibet Ladakh Nepal Indonesia and Thailand The book ends with a brief summary of the beliefs and principles of I kuan Tao Hankow William T. Rowe,1992-12-01 This is the second volume of a two volume social history of nineteenth century Hankow a city of over one million inhabitants and the commercial hub of central China In the first volume Hankow Commerce and Society in a Chinese City 1796 1889 1984 the author emphasized the dynamism of late imperial commerce the relation of the metropolis to its hinterland and the corporate institutions of the city notably its guilds which assumed a number of functions we normally attribute to a municipal government In this volume the focus is on the people of Hankow in all their ethnic diversity occupational variety and constant mobility and on the social bonds that enabled this mass of people to live and work in a crowded city with much less disruptive social conflict than occurred in Hankow s counterparts in early modern Europe Built into the argument of the book is a running comparison nineteenth century Hankow with such cities as London and Paris in the somewhat earlier period when they too were experiencing the growing pains of nascent preindustrial capitalism How are we to account for the fact that the cities of early modern Europe were so much more prone to protest and social upheaval than Hankow was in a comparable stage of development The author finds the answer in the cultural hegemony of an activist elite that fostered moral consensus social harmony and an aura of solicitude for the well being of residents at every social level exemplified in such service institutions as poor relief firefighting and public security Toward the end of the nineteenth century however the social bonds that had held Hankow together were beginning to fragment as social polarization and growing class consciousness fostered an atmosphere of increasing unrest **Taiwan Country Study Guide Volume 1 Strategic Information and Developments** IBP USA,2012-03-03 Taiwan Country Study Guide Strategic Information and Developments Volume 1 Strategic Information and Developments *Revolution and Tradition in Tientsin, 1949-1952* Kenneth Lieberthal,1980 A Stanford University Press classic *I-kuan Tao and the New World Culture* ,1998 *The Transformation of Yiguan Dao in Taiwan* Yunfeng Lu,2008-02-25 The most influential sect in the Chinese mainland in the 1940s Yiguan Dao was largely destroyed in mainland China in 1953 Yiguan Dao not only survived however but developed into the largest sect in Taiwan despite its suppression by the Kuomintang state In 1987 through relentless efforts the sect finally gained legal status in Taiwan Today Yiguan Dao not only thrives in Chinese societies but has also become a world wide religion which has spread to more than sixty countries This book based on fieldwork conducted in 2002 in Taiwan is the first English language scholarly study exclusively focusing on Yiguan Dao Lu includes a history of Yiguan Dao in mainland China but focuses on the sect s evolution in Taiwan in the

past few decades Specifically he probes the operation of Yiguan Dao under suppression in the past twenty years and examines the relationship between Yiguan Dao and its rivals in Taiwan s religious market The Transformation of Yiguan Dao in Taiwan develops the religious economy model by extending it to Chinese societies *New Religious Movements in Modern Asian History* David W. Kim,2020-09-30 This book provides evidence that the emergence of Asian new religious movements NRMs was predominantly the result of anti colonial ideology from local religious groups or individuals The contributors argue that when traditional religions were powerless to maintain their cultural heritage the leadership of NRMs adduced alternative principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs The contributors argue that as a whole the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions Religious Experience in Contemporary Taiwan and China 陈国治,2013-12-01 Religious Experience in Contemporary Taiwan and China helps social scientists and all religion scholars to rediscover the importance of religious experiences for multiple world religions Combining a diverse array of survey items with thousands of candid narratives conducted in Taiwan the authors provide a depth and breadth that can t be matched by previous work The nationally representative surveys for Taiwan and China offer a broad overview of how religion is experienced in the culture how these experiences vary for each of the many religious and even non religious groups and how they vary between China and Taiwan From the Preface by Roger Finke **In the Name of Harmony and Prosperity** Anru Lee,2004-05-26 Since the 1980s Taiwan has grown into a global manufacturing powerhouse a model of success that has inspired emulation throughout the developing world Yet at the very peak of this expansion Taiwan began to feel squeezed by changes both domestically and internationally In the Name of Harmony and Prosperity examines Taiwan s economic restructuring since the late 1980s Anru Lee discusses the latest phase of Taiwan s socio economic development most importantly the dialectical relationship between its export oriented industrialization change in production processes and discourse on work ethics including the subject formation of women workers as it relates to conditions in the global economy At the center of this study is the process by which labor capital relations become fair and legitimate and how they contribute to our understanding of Asian capitalism and its role in the world economy Investigation of Illegal Or Improper Activities in Connection with 1996 Federal Election Campaign United States. Security Act and Other Internal Security Laws,1970 Historical Dictionary of New Religious Movements George D. Chryssides,2012 New religious movements commonly known as cults are defined as organizations that have arisen within the last 200 years Most treatments of these movements have typically resorted to sensationalism rather than objectivity and New religious movements tend to receive negative media publicity Despite their unfavorable portrayal in popular culture however new religious movements are a global phenomenon and much remains to be studied about these movements In this newly updated second edition of the Historical Dictionary of New Religious Movements George D Chryssides traces the rise and development of new religious movements throughout the world An updated introduction summarizes the phenomenon of new religious movements and lays out the changes to the dictionary since the 2001 edition while the main body of the dictionary consists of close to 600 cross referenced entries on key figures ideas themes and places related to various new religious movements An index organizes the information in the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about new religious movements **Japanese Studies of Modern China since 1953** Noriko Kamachi,John K.
