Adolph focuses on how women's relationships to food (cooking, eating, serving) are used to locate women's embodiment within the everyday and also reveal the writers' commitment to portraying a unified female subject. For example, using food and food consumption as a lens highlights how women writers have used food as a trope that illustrates the interconnectedness of sex and gender with issues of sexuality, social class, and subjectivity—all aspects that fall along a continuum of experience in which the intellect and the physical body are mutually complicit. Historically grounded in representations of women in periodicals, housekeeping and cooking manuals, and health and beauty books, Adolph's theoretically informed study complicates our understanding of how women's social and cultural roles are intricately connected to issues of food and food consumption.

Dale Salwak,1987-06-18 **A Grain of Faith** Allan Hepburn,2018-11-22 During and after the Second World War there was a concerted thinking about religion in Britain Not only were leading international thinkers of the day theologians Ronald Niebuhr Paul Tillich Jacques Maritain but leading writers contributed to discussions about religion Graham Greene Muriel Spark and Barbara Pym incorporated miracles evil and church going into their novels while Louis MacNeice T S Eliot and C S Lewis gave radio broadcasts about the role of Christianity in contemporary society Certainly the war revived interest in aspects of Christian life Salvation and redemption were on many people s minds The Ministry of Information used images of bombed churches to stoke patriotic fervour and King George VI led a series of Days of National Prayer that coincided with

crucial events in the Allied campaign After the war and throughout the 1950s approximately 14 million Britons converted to Roman Catholicism as a way of expressing their spiritual ambitions and solidarity with humanity on a world wide scale Religion provided one way for writers to answer the question what is man It also afforded ways to think about social obligation and ethical engagement Moreover the mid century turn to religion offered ways to articulate statehood not from the perspective of nationhood and politics but from the perspective of moral action and social improvement Instead of being a retreat into seclusion and solitude the mid century turn to religion is a call to responsibility

*The Subversion of Romance in the Novels of Barbara Pym* Ellen M. Tsagaris, 1998 Points out how British novelist Pym 1913-80 parodied the conventions of romance novels by deflating characters hyperbole and exaggeration or emphasizing meticulously the mundane elements of everyday life Shows how she used food clothes heroin and hero characterizations and marriage customs to portray her characters and perhaps her own skepticism about the whole business Paper edition 764 0 18 95 Annotation copyrighted by Book News Inc Portland OR
