Seymour by Italian artist Maurizio Cattelan which sold for 2.4 million to New York City collector and private dealer Jose Mugrabi and recounts the story of a wooden Brillo box that sold for 722,500. The Supermodel and the Brillo Box looks at the increasing dominance of Christie's Sotheby's and a few other dealers, the hundreds of millions of new museums coming up in cities like Dubai, Abu Dhabi and Beijing, the growing importance of the digital art world and the shrinking role of the mainstream gallery.

Conceptual Revolutions in Twentieth-Century Art David W. Galenson, 2009-09-14 From Picasso's Cubism and Duchamp's readymades to Warhol's silkscreens and Smithson's earthworks, the art of the twentieth century broke completely with earlier artistic traditions. A basic change in the market for advanced art produced a heightened demand for innovation, and young conceptual innovators from Picasso and Duchamp to Rauschenberg and Warhol to Cindy Sherman and Damien Hirst responded not only by creating dozens of new forms of art but also by behaving in ways that would have been incomprehensible to their predecessors. *Conceptual Revolutions in Twentieth Century Art* presents the first systematic analysis of the reasons for this discontinuity. David W. Galenson, whose earlier research has changed our understanding of creativity, combines social scientific methods with qualitative analysis to produce a fundamentally new interpretation of modern art that will give readers a far deeper appreciation of the art of the past century and of today than is available elsewhere.

The Art of Being Unreasonable Eli Broad, 2012-05-08 Unorthodox success principles from a billionaire entrepreneur and philanthropist. Eli Broad's embrace of unreasonable thinking has helped him build two Fortune 500 companies, amass personal billions, and use his wealth to create a new approach to philanthropy. He has helped to fund scientific research institutes, K-12 education reform, and some of the world's greatest contemporary art museums. By contrast, reasonable people come up with all the reasons something new and different can't be done because after all, no one else has done it that way. This book shares the unreasonable principles from negotiating to risk-taking, from investing to hiring that have made Eli Broad such a success. Broad helped to create the Frank Gehry designed Walt Disney Concert Hall, the Museum of Contemporary Art, the Broad Contemporary Art Museum at the Los Angeles County Museum of Art, and The Broad, a new museum being built in downtown Los Angeles. His investing approach to philanthropy has led to the creation of scientific and medical research centers in the

fields of genomic medicine and stem cell research At his alma mater Michigan State University he endowed a full time M B A program and he and his wife have funded a new contemporary art museum on campus to serve the broader region Eli Broad is the founder of two Fortune 500 companies KB Home and SunAmerica If you're stuck doing what reasonable people do and not getting anywhere let Eli Broad show you how to be unreasonable and see how far your next endeavor can go *The \$12 Million Stuffed Shark* Don Thompson,2010-09-25 Why would a smart New York investment banker pay twelve million dollars for the decaying stuffed carcass of a shark By what alchemy does Jackson Pollock's drip painting No 5 1948 sell for 140 million The 12 Million Dollar Stuffed Shark is the first book to look at the economics of the modern art world and the marketing strategies that power the market to produce such astronomical prices Don Thompson talks to auction houses dealers and collectors to find out the source of Charles Saatchi's Midas touch and how far a gallery like White Cube has contributed to Damien Hirst becoming one of the highest earning artists in the world *Interviews with American Artists* David Sylvester,2001-01-01 This astounding book includes 21 interviews recorded over the past 40 years with leading American artists Together they illuminate all the great developments in American art Here are the views of David Smith Richard Serra Willem de Kooning Barnett Newman Franz Kline Philip Guston Robert Rauschenberg and others **A Woman Looking at Men Looking at Women** Siri Hustvedt,2016-12-06 A compelling radical richly explored The New York Times Book Review and insightful Vanity Fair collection of essays on art feminism neuroscience psychology and philosophy from prize winning novelist Siri Hustvedt the acclaimed author of *The Blazing World* and *What I Loved* In a trilogy of works brought together in a single volume Siri Hustvedt demonstrates the striking range and depth of her knowledge in both the humanities and the sciences Armed with passionate curiosity a sense of humor and insights from many disciplines she repeatedly upends received ideas and cultural truisms *A Woman Looking at Men Looking at Women* which provided the title of this book examines particular artworks but also human perception itself including the biases that influence how we judge art literature and the world Picasso de Kooning Louise Bourgeois Anselm Kiefer Susan Sontag Robert Mapplethorpe and Karl Ove Knausgaard all come under Hustvedt's intense scrutiny *The Delusions of Certainty* exposes how the age old unresolved mind body problem has shaped and often distorted and confused contemporary thought in neuroscience psychiatry genetics artificial intelligence and evolutionary psychology *What Are We* Lectures on the Human Condition includes a powerful reading of Kierkegaard a trenchant analysis of suicide and penetrating reflections on the mysteries of hysteria synesthesia memory and space and the philosophical dilemmas of fiction *A Woman Looking at Men Looking at Women* is an erudite Booklist wide ranging irreverent and absorbing meditation on thinking knowing and being Kirkus Reviews starred review *Head in the Cloud* William Poundstone,2016-07-19 The real world value of knowledge in the mobile device age More people know who Khloe Kardashian is than who Rene Descartes was Most can't find Delaware on a map correctly spell the word occurrence or name the largest ocean on the planet But how important is it to fill our heads with facts A few keystrokes
