1819 Francis N. Stites,1972 Capitalism Frank Solomon,2013-08 Political liberty and the free enterprise system are
intimately connected and this concept was first explored at length in Adam Smith s *The Wealth of Nations* which was
published March 9 1776 In *Capitalism* author Frank Solomon provides a detailed introduction of Smith s ideas and he
presents extensive examples of how the principles can be applied to current and future economic issues facing the modern
world both nationally and internationally Solomon shows how Smith often referred to as the father of modern economics
presented the most efficient and effective program for giving humankind the greatest degree of safety prosperity freedom
health and happiness over the long term Debunking the myths surrounding *The Wealth of Nations* Solomon s *Capitalism*
demonstrates the capacity of Smith s philosophy of enlightened self interest to encompass a broad variety of contemporary
politico economic problems including health care education the military industrial complex welfare organized crime
international trade and war Praise for *Capitalism* Solomon has a deep admiration for Adam Smith s *The Wealth of Nations*
Having written nine previous volumes of *Nations* critique he again embarks on a rapturous tour of the seminal economic
treatise He presents several useful points holding a relatively substantive discussion on the origins of the system of supply
and demand as well as peppering the text with reminders that despite Smith s call to capitalism and self interest Smith also
suggests ethical business practices can pay moral and financial dividends Kirkus Discoveries Review **ENTERTAINMENT**
