Regenerative agroubanism R. France, 2023-08-14 The core activities of urban agriculture are involved with producing processing marketing distributing and consuming food Urban agriculture also provides services and outcomes through transforming neglected or damaged landscapes lives and livelihoods This book focuses on the so called ancillary benefits of urban agriculture in terms of healing economies connections aesthetics heritage and sites and societies in short what might

be referred to in an holistic sense as the emerging paradigm of agroubanism More than seventy case studies from around the world are reviewed through the social ecological lens of regenerative landscape design Many of these cases have never before been discussed in the literature Topics examined include entrepreneurship gastro tourism food literacy foodscaping heritage and social and societal wellbeing The methodological approach undertaken is layered narrative scholarship based on the phenomenology of experiencing landscapes and is facilitated through a linked website containing photo essays documenting the site visits Robert L France is a world renowned scientist in the Faculty of Agriculture at Dalhousie University where he teaches courses on urban agriculture ecohydrology watershed management conservation biology and environmental restoration For more than a decade he taught and conducted research on landscape architecture land use planning and urban design at the Harvard Design School Dr France is the author or editor of twenty two books and more than two hundred journal articles on a wide range of environmental subjects which together have been cited more than ten thousand times in the professional literature In 2010 he organized the first international academic conference on urban agriculture in Canada which led to the publication of the edited volume Integrated Urban Agriculture Precedents Practices Prospects His previous book with Wageningen Academic Publishers is about the pre plastic environmental history of fishery bycatch Disentangled Ethnozoology and Environmental Explanation of the Gloucester Sea Serpent *Backpacker*, 2007-09 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured *Handbook of Rural Studies* Paul Cloke, Terry Marsden, Patrick Mooney, 2006-01-05 This book raises the theoretical level of rural studies to new heights the Handbook of Rural Studies will likely become a key resource on the bookshelves of the next generation of graduate students Gary Paul Green University of Wisconsin Madison This Handbook powerfully demonstrates that rural spaces rural societies and rural natures are at the very forefront of critical social science endeavour Read this book become a rural social scientist Henry Buller University of Exeter An outstandingly comprehensive review of theory research and the study of rural questions an essential reference for students scholars politicians developers and rural activists Imre Kovach Institute for Political Sciences Budapest This collection is an essential addition to any rural scholar s library and will be a critical resource for both established rural scholars and rising graduate students interested in rural research topics Peter B Nelson Middlebury College The Handbook of Rural Studies is a tour de force on changing rural people and places in a rapidly urbanizing global economy the most comprehensive interdisciplinary treatment of rural available anywhere This is absolutely must reading for social scientists concerned about finding a prominent place for rural in scholarly discourse institutional analysis and public policy debates on

the political economy of space Daniel T Lichter Policy Analysis and Management Cornell University The Handbook represents the vitality and theoretical innovation at work in rural studies It shows how political economy and the cultural turn have led to very significant new thinking in the cultural representations of rurality nature sustainability new economies power and rurality new consumerism and exclusion and rurality It is organized in three sections approaches to rural studies rural research key theoretical coordinates and new rural relations In a rich and textured discussion the Handbook of Rural Studies explains the key moments in which the theorization of culture nature politics agency and space in rural contexts have transmitted ideas back into wider social science Farmers' Cooperatives and Sustainable Food Systems in Europe Raquel

Ajates Gonzalez,2018-06-13 Farmers cooperatives are very prevalent in the European Union where they account for approximately half of agricultural trade and thus are key to articulating rural realities and in shaping the sustainability credentials of European food and farming This book analyses to what extent farmers cooperatives are working to benefit their members are showing concern for their communities and are promoting cooperative economies It offers a multilevel set of theoretical disciplinary methodological empirical and social perspectives using the UK and Spain as contrasting examples and analyses whether agricultural cooperatives contribute to achieving sustainable food systems The book presents empirical data from diverse and rich case studies from large international cooperatives to small multi stakeholder initiatives This provides an alternative viewpoint to that of economics which tends to dominate the study of agricultural cooperatives The author presents a new theoretical framework that provides a novel lens to study farmers cooperatives as organisations deeply embedded in power dynamics of the food system and agricultural policy that shape and constraint their potential to adopt cooperative and sustainable practices The book is a major addition to the study of agricultural cooperatives and their impact in the development of fairer and more sustainable food systems and it is one of the first detailed accounts of multi stakeholder food and farming cooperatives in Europe It is a valuable resource for all scholars working on cooperatives as well as for students studying agricultural and food policy environmental justice and rural sociology **Agricultural**
