Theories on Law and Ageing Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions

Frolik, 1999 A collection of 47 portions of essays articles and books addressing many of the social political and legal problems occasioned by having an increasing number of older Americans First defines and explores the emerging field of elder law then looks at such dimensions as work income and wealth housing mental capacity health care decision making long term care health care finance family and social issues abuse neglect victimization and elderly criminals and legal representation and ethical considerations Annotation copyrighted by Book News Inc Portland OR **Elder Law** Ann Numhauser-Henning, 2017-02-24 The ageing population poses a huge challenge to law and society carrying important structural and institutional implications This book portrays elder law as an emerging research discipline in the European setting in terms of both conceptual and theoretical perspectives as well as elements of the law **The Army Lawyer**, 2004-08 Ageing, Gender and Family Law Beverley Clough, Jonathan Herring, 2018-03-19 This book explores the intersecting issues relating the phenomenon of ageing to gender and family law The latter has tended to focus mainly on family life in young and middle age and indeed the issues of childhood and parenting are key in many family law texts Family life for older members has then been largely neglected addressing this neglect the current volume explores how the issues which might be important for younger people are not necessarily the same as those for older people The significance of family the nature of family life and the understanding of self in terms of one's relationships tend to change over the life course For example the state may play an increasing role in the lives of older people as access to services involvement in work and the community the ability to live independently and to form or maintain caring relationships are all impacted by law and policy This collection therefore challenges the standard models of family life and family law that have been developed within a child parent centred paradigm and which may require rethinking in the turn to family life in old age Interdisciplinary in its scope and orientation this book will appeal not just to academic family lawyers and students interested in issues around family law ageing gender and care but also to sociologists and ethicists working in these areas Malpractice and Liability in Psychiatry Peter Ash, Richard L.
