Food Combining for Spring Summer Autumn Winter](#) Roumianka Lazarova, 2018-03-29 Every member of our family strives to be healthy energetic and complete both at work and at school and at home Unfortunately this is not always easy with a magic wand We strive to achieve our healthy lifestyle by incorporating less of the generally accepted recommendations Naturally this begins with nutrition walks stress reduction more emotions that are positive and enough sleep Because all we are predisposed to gaining weight we are especially careful about nutrition issues We tried different diets It is quite difficult to reach a consensus on how to feed all together and to feel good Because believe

me it is very exhausting to cook different food for any according to taste and whim A few years ago we united our understanding We began to eat by following the most general principles of separate eating Of course we do not fall into extremes but we all feel great Healthy energetic and quite successful I decided to share a small portion of the recipes that we prepare for our meal according to the basic principles of food combining nutrition for a period of 1 month in the book Weight loss 4 weeks meal plan to lose 17 lbs Food combining recipes This book enjoys a success The results really are impressive The interest in the proposed menus is quite large This provoked me and encouraged me to continue to share my experience of preparing homemade delicious food of course following the general principles of food combining Now the recipes are not for one month but for each season for the whole year Almost every person sometimes happens to let go and then seek a way to be on the track again That s why it s good to have the opportunity in all seasons to start something new or to go on with something good that we have forgotten That s why I made this selection of 323 of my recipes for food combining in Spring Summer Autumn and Winter For each season suitable combinations for lunch and dinner are prepared In some of the cases the offer is for main dish and soup main course and salad soup and salad etc The main menus are 220 of which 110 for lunch and 110 for dinner All recipes in this book are suitable not only for overweight people who want to lose weight but also for all who want to change their diet be healthy and energetic Each recipe complies with the principles of food combining Each menu offered also takes into account the combination of both meals The products incorporated in the recipes are the healthy quantities for four servings You do not have to follow strictly any combination of dishes in the menus You can only eat one of the meal in the menu offered For example only soup only salad or just a dish After each recipe there is advice about what to eat or how to combine Serve with or Combines with You can comfortably make your combinations but be careful to combine the products during one meal Better eat one larger dish if you are very hungry than start chaotically getting everything you have in the refrigerator or in the closet
