Forms Of Value And Valuation Theory And Applications:

Forms of Value and Valuation Rem B. Edwards, John W. Davis, 1991 The book is written by members of the R S Hartman Institute for Formal and Applied Axiology to explain the significant advances which Hartman made in theoretical and applied axiology to forge ahead where he left problems unsolved and to develop applications of his theory of value in business investments psychology education ethics cross cultural studies and theology Contents Part I Axiological Theory Part II Applications of Axiology

Forms of Value and Valuation Rem B. Edwards, John W. Davis, 2014-12-02 Robert S Hartman died an untimely death in 1973 Since then many of his friends colleagues and former students have worked diligently on his formal theory of value and have made important advances in developing both the theory itself and practical applications of it Those familiar with his work are convinced that he made extraordinary advances in theoretical and applied axiology Bob Hartman saw the Form of the Good He laid the foundations for a science of values still being developed This book is written by members of the Robert S Hartman Institute to acquaint others better with his achievements and to forge ahead where he left many problems unresolved Robert Schirokauer escaped from Nazi Germany in 1933 on a false passport that read Robert Hartman He kept the name but later added the S He became a prominent and highly innovative philosopher who dedicated his life to resolving problems about human values as expressed in his own words I thought to myself if evil can be organized so efficiently by the Nazis why cannot good Is there any reason for efficiency to be monopolized by the forces for evil in the world Why have good people in history never seemed to have had as much power as bad people I decided I would try to find out why and devote my life to doing something about it

Beyond Perestroika Gary G. Gallop, 2009 This book investigates rapid societal change in Russia during the early 1990s The story of the anthropologist author and the people he studied reveals cultural similarities and differences between them Russians and Latvians taught the author about the Soviet Union its people and its cultures Formal axiology provides a novel way to access their changing values

Our Ways Armando Molina, 2021-11-15 This book develops a remarkable axiological characterology of healthy personality types distortions and styles of sexual attachment It synthesizes the author's profound understanding of human nature recent psychological interpretations of the ancient Enneagram and insights into connections between values and psychology drawn from Robert S Hartman's formal theory of value It shows how personalities are differentiated by the ways they manifest Hartman's three dimensions of value intrinsic extrinsic and systemic It shows how these correlate with nine personality types identified by Enneagram interpreters Human personalities differ with respect to the ways in which intrinsic extrinsic and systemic values are developed or not developed and ordered as dominant or subordinate within individuals by nature and or nurture The book shows how personality distortions are grounded in perversions of value orientation It shows how a value based approach to character disorders can be linked to moral vices and to many familiar diagnostic and therapeutic psychological categories like obsession hysteria schizophrenia neurosis and various addictions It explains the many ways in which value

orientations are expressed in sexual attitudes and relations and how value based character traits that dominate the non sexual areas of our lives are carried over into the sexual areas

A Quarter Century of Value Inquiry Richard T. Hull, 2021-11-01 This volume contains all of the presidential addresses given before the American Society for Value Inquiry since its first meeting in 1970 Contributions are by Richard Brandt Virgil Aldrich John W Davis the late Robert S Hartman James B Wilbur the late William H Werkmeister Robert E Carter the late William T Blackstone Gene James Eva Huel Cadwallader Richard T Hull Norman Bowie Stephen White Burton Leiser Abraham Edel Sidney Axinn Robert Ginsberg Patricia Werhane Lisa M Newton Thomas Magnell Sander Lee John M Abbarno Ruth Miller Lucier and Tom Regan Autobiographical sketches by all of the living contributors and one recently deceased biographical statements of the remainder together with photographic portraits of all the contributors make this volume a unique record of value inquiry during the past quarter century indicates previously unpublished or unpublished in the present form indicates substantial new material has been added The addresses cover diverse topics from broad general ones to value inquiry into literature bioethics and public policy to philosophy of mind to critical studies of other philosophers work defenses of philosophy and of applied ethics individual role and cultural relativism of values The American Society for Value Inquiry is nearing its 25th anniversary Its leadership is elected annually often with a vice president becoming president elect then president then past president a structure that serves to insure a measure of continuity Its members are drawn to the society not by a particularly credo or ideology or philosophical position but by a common interest in questions of value ranging from abstract meta value inquiry to disciplinary and trans disciplinary value inquiry For those who share this range of passions the volume will preserve collect organize and in a number of cases recover material in danger of being lost to them The Presidential Address is a unique genre resembling in some ways a sermon Indeed preparing a presidential address before a philosophical society is often an exercise in developing an exhortation to members to take up a neglected topic to embrace as important a particular viewpoint it may as well be a cautionary to avoid a particular error It is often a dramatic moment as a last act of the presidency having observed closely the trends and winds blowing through the discipline the speaker is afforded the opportunity to hold forth on a topic at once intensely personal and believed to be of wide interest While some societies publish presidential addresses in newsletters or informal proceedings and occasionally in professional bulletins or journals rarely have a substantial bloc of a society s presidential addresses been collected and published under one cover Too often the presidential address is delivered discussed by those present perhaps summarized in a paragraph in a newsletter to members and filed as a fond memory of a moment of honor in the papers of the author sometimes to be forgotten lost discarded or otherwise removed from availability to scholars of the history of philosophy This volume inaugurates a series aiming at preserving presidential and other major addresses before philosophical societies It seeks to be a historical record not only of the address but also of the reflections and recollections of the author It seeks to preserve as a part of the

historical record a photograph of the author And with the personal character of an autobiographical statement it seeks to humanize and render lively and real the professi

Dictionary Of Modern American Philosophers John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of

presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

What Caused the Big Bang? Rem B. Edwards, 2021-07-26 This book critically explores answers to the big question What produced our universe around fifteen billion years ago in a Big Bang It critiques contemporary atheistic cosmologies including Steady State Oscillationism Big Fizz Big Divide and Big Accident that affirm the eternity and self sufficiency of the universe without God This study defends and revises Process Theology and arguments for God's existence from the universe's life supporting order and contingent existence

The Intrinsic Value of Nature Leena Vilkkä, 2021-11-15 What is intrinsic value What is the origin of value Are people always superior to nature This book is a philosophical analysis of the human relationship to the non human world It is a pioneering study of the philosophy of nature conservation in relation to the discussion of intrinsic value Vilkkä develops a naturalistic or naturocentric theory of value that is based on ethical extensionism and pluralism Vilkkä analyzes natural values and environmental attitudes zoocentrism biocentrism and ecocentrism This book forms a taxonomy for nature having intrinsic value The theory of intrinsic value is based on naturocentric and naturogenic values The book questions the thesis of weak anthropocentrism that denies the existence of naturogenic values In Vilkkä's theory animals and nature are the origin of value She defends the existence of zoogenic and biogenic values in the non human world and discusses the possibility of ecogenic value nature as a whole having value independent of human or animal minds Vilkkä analyzes the goodness and rights of nature the problem of priorities and ecological humanism A naturocentric recommendation is that the well being of animals and nature should have priority over human values at least in some real decision contexts Ecological humanism recommends an attitude of respect for people animals and nature The book includes an extensive glossary index and bibliography

Designing for Inclusion Patrick Langdon, Jonathan Lazar, Ann Heylighen, Hua Dong, 2020-04-16 This proceedings book presents papers from the 10th Cambridge Workshops on Universal Access and Assistive Technology The CWUAAT series of workshops have celebrated a long history of interdisciplinarity including design disciplines computer scientists engineers architects ergonomists ethnographers ethicists policymakers practitioners and user communities This reflects the wider increasing realisation over the long duration of the series that design for inclusion is not limited to technology engineering disciplines and computer science but instead requires an interdisciplinary approach The key to this is providing a platform upon which the different disciplines can engage and see each other's antecedents methods and point of view This proceedings book of the 10th CWUAAT conference presents papers in a variety of topics including Reconciling usability accessibility and inclusive design Designing inclusive assistive and rehabilitation systems Designing cognitive interaction with emerging technologies Designing inclusive architecture Data mining and visualising inclusion Legislation standards and policy in inclusive design Situational inclusive interfaces and The historical perspective 20 years of CWUAAT CWUAAT has always aimed to be

inclusive in the fields that it invites to the workshop We must include social science psychologies anthropologies economists politics governance and business This requirement is now energised by imminent new challenges arising from techno social change In particular artificial intelligence wireless technologies and the Internet of Things generate a pressing need for more socially integrated projects with operational consequences on individuals in the built environment and at all levels of design and society Business cases and urgent environmental issues such as sustainability and transportation should now be a focus point for inclusion in an increasingly challenging world This proceedings book continues the goal of designing for inclusion as set out by the CWUAAT when it first started
