Gender Composition Values Preferences And Behaviour:

Gender Composition Reena Singh,2001 In the Indian context *Gender Composition* Reena Singh,2001 In the Indian context *Culture, Gender and Gender Discrimination* Ramesh P. Mohanty,Durgesh Nandini Biswal,2007 Study conducted at Sundargarh a tribal dominated District and Khordha a Hindu dominated District of Orissa India *Development and Gender Disparity in Haryana: The Nature and Extent* Monu Kumar, **Lateral Preferences and Human Behavior** Clare Porac,Stanley Coren,2012-12-06 Lateral preferences are strange puzzling and on the surface not particularly adaptive aspects of behavior Why one chooses habitually to write or to brush the teeth with the right hand while a friend or family member habitually uses the left hand might be interesting enough to elicit some conversation over dinner or a drink but certainly does not seem to warrant serious scientific study Yet when one looks at human behaviors more carefully one becomes aware that asymmetrical behaviors favoring one side or the other are actually a fairly universal characteristic of human beings In the same way that we are right or left handed we are also right or left footed eyed and eared As a species we are quite lopsided in our behavioral coordinations furthermore the vast majority of us are right sided Considering that we are looking at a sizable number of behaviors and at a set of biases that seem to be systematic and show a predictable skew in the population the problem takes on greater significance The most obvious form of lateral preference is of course handedness When studying behavioral asymmetries this is the issue with which most investigators start Actually we entered this research area through a much different route Around 1971 we became interested in the problem of eye dominance or eye preference This is a behavior where the input to one eye seems to be preferred over that to the other in certain binocular viewing situations INNOVATION AND CHALLENGES IN MATERNAL AND NEWBORN CARE DR. USHA UKANDE,DR. SUDHARANI B BANAPPAGOUDAR,2024-01-31 Perinatal bereavement care encompasses holistic support and services offered by healthcare professionals addressing physical psychological emotional and spiritual needs of bereaved parents which is ignored most often in clinical settings This hospital based descriptive study aimed to assess knowledge attitudes and factors associated with attitude regarding perinatal bereavement care among nursing personnel in a tertiary care hospital in central India A total of 207 nursing personnel participated in the study selected through non probability convenient sampling Data was collected using a structured questionnaire 5 point Likert scale and dichotomous scale The study revealed that 78 3% of nursing personnel possessed average knowledge while 73 4% exhibited a positive attitude towards perinatal bereavement care Personal perinatal grieving experiences history of other grieving experiences existing hospital policies regular training and Continuing Nursing Education and traditional beliefs and values were identified as highly influencing factors associated with attitude of nursing personnel regarding Perinatal Bereavement Care Furthermore the research highlighted a positive correlation between the knowledge and attitude of nursing personnel regarding perinatal bereavement care Significant associations were observed between knowledge scores attitudes and demographic variables such as age

total work experience years of experience in maternity wards personal loss experiences and past experience in handling grieving parents among nursing personnel In conclusion the study underscores the importance of perinatal bereavement care in providing support to grieving parents Gender Linda L. Lindsey, 2020-12-17 A landmark publication in the social sciences Linda Lindsey's *Gender* is the most comprehensive textbook to explore gender sociologically as a critical and fundamental dimension of a person's identity interactions development and role and status in society Ranging in scope from the everyday lived experiences of individuals to the complex patterns and structures of gender that are produced by institutions in our global society the book reveals how understandings of gender vary across time and place and shift along the intersecting lines of race ethnicity culture sexuality class and religion Arriving at a time of enormous social change the new seventh edition extends its rigorous theoretical approach to reflect on recent events and issues with insights that challenge conventional thought about the gender binary and the stereotypes that result Recent and emerging topics that are investigated include the MeToo and LGBTQ rights movements political misogyny in the Trump era norms of masculinity marriage and family formation resurgent feminist activism and praxis the gendered workplace and profound consequences of neoliberal globalization Enriching its sociological approach with interdisciplinary insight from feminist biological psychological historical and anthropological perspectives the new edition of *Gender* provides a balanced and broad approach with readable dynamic content that furthers student understanding both of the importance of gender and how it shapes individual trajectories and social processes in the U S and across the globe *Journal of Regional History* , 2004

Handbook of Value Tobias Brosch, David Sander, 2015-10-29 What is value Where does it come from How does it impact our emotions motivations decisions and experiences Value is involved in practically every aspect of human life whether we decide whom to marry or which political candidate to elect whether we choose between consumer goods whether we ask ourselves what is morally right or beautiful or sacred value plays a crucial role Today the investigation of value is central to many disciplines interested in human thinking feeling and behavior such as economics neuroscience philosophy psychology or sociology Interestingly while these disciplines all investigate value they use different definitions and focus on different aspects of the phenomenon The *Handbook of Value* combines the forces of the many disciplines involved in value research by integrating the perspectives of distinguished scholars from the different disciplines To allow for a high degree of interdisciplinarity the editors assembled a panel of eminent associate editors representing the different disciplines Professor Ernst Fehr economics Professor Patrik Vuilleumier neuroscience Professor Julien Deonna philosophy and Professor Fabrice Clement sociology Contributions cover conceptual issues such as definitions of value psychological and neurological mechanisms underlying value computation and representation types and taxonomies of value interindividual and intercultural value differences the role of value in emotion moral judgment decision making and behavior as well as case studies of individual varieties of value The volume contributes to an interdisciplinary dialogue and integration by providing a common

reference point that will serve as a resource for disciplinary excellence and interdisciplinary cross fertilization At the same time the volume provides an excellent overview of the academic state of the art for more practically oriented readers for example from a business background who want to understand the determinants of value

Renegotiating Patriarchy Naila Kabeer,2024-09-26 The idea of the Bangladesh paradox describes the unexpected social progress that Bangladesh has made in recent decades that has been both pro poor and gender equitable This began at a time when the country was characterised by extreme levels of poverty poor quality governance an oppressive patriarchy and rising Islamic orthodoxy This paradox has evoked a great deal of interest within the international development community because Bangladesh had been dubbed an international basket case at the time of its independence in 1971 seemingly trapped in a development impasse Previous attempts to explain this paradox have generally taken a top down approach focusing on the role of leading institutional actors donors government NGOs and the private sector In Renegotiating Patriarchy Gender Agency and the Bangladesh Paradox Naila Kabeer starts with the rationale that policy actions taken at the top are unlikely to materialise into actual changes if they are not acted on by the mass of ordinary women and men But what led these women and men to act And why did they

act in ways that modified some of the more oppressive aspects of patriarchy in the country That is what this book sets out to investigate It describes the history of the Bengal delta and the forces that gave rise to the kind of society that Bangladesh was at the time of its independence It considers the policy and politics that characterised post independence Bangladesh and how these contributed to the progress captured in the idea of the Bangladesh paradox But the key argument of the book is that much of this progress reflected the agency exercised by ordinary often very poor women in the course of their everyday lives Their agency helped to translate institutional actions into concrete changes on the ground To explore why and how this happened the book draws on a rich body of ethnographic qualitative and quantitative research on social change in Bangladesh including studies by the author herself The book is therefore about how norms and practices can change in progressive ways despite unpropitious circumstances as a result of the efforts of poor women in Bangladesh to renegotiate what had been described as one of the most non negotiable patriarchies in the world , **Gender as a Political**

Instrument Forming New Boundaries by Ethnic and Religious Diasporas in European Union Konstantin S.

Sharov,2022-03-19 This book considers gender as a convenient tool for making new boundaries within the European Union It offers a political analysis based on sociological surveys conveyed by the author in 2008 2021 It emphasises the utmost necessity of a proper understanding of specific gender political technologies applied in ethnic and religious diasporas within the EU borders by EU ruling elites to avoid ideological collapse in relations with diaspora political groups and general members The book demonstrates that uncritical application of EU gender equality programs within diasporas may transform gender to a dangerous political force destabilising the European Union The monograph will be of interest for political science researchers legislators and administrators that work with political dimension of gender **New Books on Women and**

Endendijk,2023-01-05 **Family Demography in Asia** Stuart Gietel-Basten,John Casterline,Minja Kim Choe,2018-11-30

The demographic future of Asia is a global issue As the biggest driver of population growth an understanding of patterns and trends in fertility throughout Asia is critical to understand our shared demographic future This is the first book to comprehensively and systematically analyse fertility across the continent through the perspective of individuals themselves rather than as a consequence of top down government policies **Handbook of Cross-cultural Psychology: Theory and**

method John W. Berry,Ype H. Poortinga,Janak Pandey,1997 Part of a set containing the contributions of authors from a variety of nations cultures traditions and perspectives this volume offers an up to date assessment of theoretical

developments and methodological issues in the rapidly evolving area of cross cultural psychology Policies and Strategies in Sexual and Reproductive Health Juan Miguel Martínez Galiano,Miguel Delgado-Rodríguez,2021-05-11 The topics covered

in the book cover different aspects of sexual and reproductive health This book provides novel research results that may be

essential as a basis for the development of health policies and strategies in sexual and reproductive health. These policies are necessary to achieve greater health protection. Among other issues as important as the increase in STIs, their risk factors, vulnerable situations and populations as well as the issue of priority in reproductive health such as the care that must be provided during pregnancy and childbirth in order to guarantee healthy women and children are developed in the book. There is no doubt that women should be the preferential recipients of these health policies and strategies and therefore pathologies that have an impact on their quality of life as well as the situations of gender violence that these women experience also occupy a place within the content of this book. In this book you can find interesting results allowing researchers to take into account in proposing new lines of research, students and academics to receive and transmit the most current and relevant knowledge, political leaders to develop adequate and efficient health policies and strategies and clinical health professionals to work in clinical practice with the best available scientific evidence.
