## **Gender Equity An Integrated Theory Of Stability And Change:**

*Gender Equity* Janet Saltzman Chafetz,1990      *Conflict and Catholic Social Ethics* Taylor J. Ott,2024-11-01 This book focuses on the question of how to understand conflict and its place in Catholic and Christian social ethics The author examines Catholic social teaching CST for its explicit mentions of conflict or contention and analyzes the way that CST addresses the subjects of peace labor and environment While CST offers precedent to think about conflict within the frame of Catholic ethics its lack of explicit engagement remains a major obstacle to a full rich and concrete understanding of the fabric of society and the work of social justice Any social ethic that is not informed by the presence of conflict misses a major dynamic in society and therefore leads to ethical judgements that are at best inadequate and at worst actively harmful Building upon the insight of respected thinkers within Catholic social thought this study is based on an interdisciplinary method that engages sociology political theory postcolonial theory and intersectional feminist ethics The book will be of particular interest to theological ethicists and those who work with modern CST      **Handbook of the Sociology of Gender** Janet Saltzman Chafetz,2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapyschic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on socio logical theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines      *The Social Lens* Kenneth Allan,2013-05-13 This fully updated Third Edition of Kenneth Allan s acclaimed *The Social Lens* emphasizes the diversity of classical and contemporary theory critical thinking and the importance of historical context Chosen for the diversity of their perspectives and their suitability for introducing students to contemporary social thought a wide variety of theorists appear in the text with their individual voices vividly intact The author engages students in the historic and contemporary changes that have spawned diverse social theories and invites them to see theory as an element within a broader range of critical thinking skills that can be applied to

**Gender and Agency** Lois McNay,2013-05-29 This book reassesses theories of agency and gender identity against the backdrop of changing relations between men and women in contemporary societies McNay argues that recent thought on the formation of the modern subject offers a one sided or negative account of agency which underplays the creative dimension present in the responses of individuals to changing social relations An understanding of this creative element is central to a theory of autonomous agency and also to an explanation of the ways in which women and men negotiate changes within gender relations In exploring the implications of this idea of agency for a theory of gender identity McNay brings together the work of leading feminist theorists such as Judith Butler and Nancy Fraser with the work of key continental social theorists In particular she examines the work of Pierre Bourdieu Paul Ricoeur and Cornelius Castoriadis each of whom has explored different aspects of the idea of the creativity of action McNay argues that their thought has interesting implications for feminist ideas of gender but these have been relatively neglected partly because of the huge influence of the work of Michel Foucault and Jacques Lacan in this area She argues that despite its suggestive nature feminist theory must move away from the ideas of Foucault and Lacan if a more substantive account of agency is to be introduced into ideas of gender identity This book will appeal to students and scholars in the areas of social theory gender studies and feminist theory

**Feminist Foundations** Kristen A. Myers, Cynthia D. Anderson, Barbara J. Risman, 1998-03-10 There can be no doubt that feminism and its influence on the academy has wrought enormous changes on the social sciences in general and sociology in particular This edited volume is an outgrowth of a discussion that began on the Sociologists for Women in Society Listserv in which participants were asked to talk about key pieces in feminist scholarship that had particularly influenced their sociological thinking Editors Kristen A Myers Cynthia D Anderson and Barbara J Risman have chosen articles that fall into what they consider the intellectual genres that compose feminist sociology This collection differs from others because the editors avoid organizing material by substantive specialty areas i e family race and ethnicity criminology or methods Their vision instead sees sociology as an integrated discipline where feminist contributions have systematically influenced the shape of the whole by similarly influencing the distinct parts In addition to simply compiling a comprehensive list of important articles from the last two decades the editors have invited major feminist scholars to comment and reflect on the articles in each section of the book These reflections help provide the historical and social context in which feminist scholarship has taken place This book will be of obvious appeal to feminist scholars and gender sociologists Yet as feminist thought rightfully takes its place away from the margins and toward the center of the discipline this book stands as a rich and useful resource for any contemporary theory course

**Gender and Power** Mino Vianello, Mary Hawkesworth, 2016-09-23 Despite explicit commitments to gender equality women experience complex modes of disadvantage and discrimination in all nations of the world Offering

sophisticated insights into the persistence of gendered differences in opportunities roles power and rights in societies across the globe this volume investigates factors that both enable and constrain women s advancement From intimate relations within families to social norms relations ideologies and structures of power to political institutions electoral systems and public policies the chapters analyze possibilities for and obstacles to inclusive democratic practices and identify interventions essential to enable democratic values to take root Contributors from Africa Asia Europe Latin America and the USA provide detailed assessments of the social economic and political condition of women their mobilizations to produce transform gendered power and authority in diverse nations and their efforts to enhance the quality of their lives their communities and democratic governance

**Why Women are Oppressed** Anna G. Jónasdóttir, 1994 A feminist of international standing strives toward a theory about the web of relations between the sexes

**Gender, Family and Economy** Rae Lesser Blumberg, 1991 The triple overlap refers to the link between gender stratification the household and economic variables In this volume leading sociologists examine this overlap as a totality providing theoretical concepts and new research on how the triple overlap works both inside the family and within the broader context of society Their competing conceptions of the interrelationship of gender family and economy are bolstered by empirical papers which raise questions of culture class and race within the contexts of both the developed and developing worlds Six of the articles in this volume were previously published as a Special Issue of Journal of Family Issues

*A Primer in Social and Sociological Theory* Kenneth Allan, 2010-04-14 A fascinating guide to thinking theoretically about the social world Organized around the discourses of modernity democracy and citizenship *A Primer in Social and Sociological Theory Toward a Sociology of Citizenship* helps readers to develop skills in critical thinking and theory analysis as they explore nine central ideas of thought modernity society self religion capitalism power gender race and globalization Each chapter concludes with a section that discusses the craft of citizenship as it relates to the chapter content

**What's Wrong With Sociology?** Stephen Cole, A collection of 16 essays by sociologists who believe that their discipline faces very serious problems which must be overcome if it is to prosper The contributors represent diverse views and there is substantial disagreement among them over what the problems are and their remedies

**Schooling Girls, Queuing Women** Helen A. Moore, 2015-11-17 Focusing on the schooling of diverse girls and women in the United States this book highlights topics of gendered curricula racialized experiences of standardized testing and dominant cultural socialization By weaving critical education theories with sociological analyses of race class and gender Moore provides historical and contemporary illustrations of hostile hallways for students and the devaluation of teaching as a profession In suggesting feminist and anti racist pedagogical models of empowerment *Schooling Girls Queuing Women* presents several potential solutions to the problem of classroom inequality for diverse women and girls

**Feminization of the Clergy in America** Paula D. Nesbitt, 1997 Recent years have seen the entry of large numbers of women into the ordained clergy of Protestant churches Nesbitt here analyzes the extent to which the large scale entry of

women into the ministry has affected the occupation *Women, Politics, and Power* Pamela Paxton, Melanie M. Hughes, Tiffany D. Barnes, 2020-03-17 *Women Politics and Power* provides a clear and detailed introduction to women's political participation and representation across all branches of government and a wide range of countries and regions Using broad statistical overviews and detailed case study accounts authors Pamela Paxton Melanie M Hughes and Tiffany Barnes document both historical trends and the contemporary state of women's political strength across diverse countries The text considers experiences of women from a range of marginalized groups including racial ethnic and religious minorities indigenous peoples and those that face discrimination based on their sexual orientation and gender identity Readers will learn about cultural structural political and international influences on women's access to political power about the old and new barriers women continue to face like violence and about the difference women make once in political office Dedicated chapters on six geographic regions highlight distinct influences and patterns in different parts of the world There is simply no other book that offers such a thorough and multidisciplinary synthesis of research on women's political power around the world

*Ethnic Women* Vasilikie Demos, 1994 This book introduces the study of ethnic women and contributes to our understanding of the relationships among gender race ethnicity and social class The social scientific study of gender has grown exponentially for more than two decades Until recently however little attention has been paid to the diversity among women The social scientific literature on ethnicity has experienced a revival in the same decades yet women have frequently been overlooked or misrepresented in that literature When ethnic women do appear they are typically depicted as selfless wives and mothers or passive victims These twenty original essays challenge myths and stereotypes The authors social scientists social service professionals and other scholars explore a broad range of racial ethnic and social class circumstances Communities represented include the Hmong in Wisconsin Cuban Jews in Florida and Samoans in Hawaii Patterns of immigration and social mobility communal institutions and maintenance of ethnic traditions are among the topics which reflect the multiple status reality of ethnic women

*Human Institutions* Jonathan H. Turner, 2003 In recent years the New Institutionalism has focused more on organizations in their social and cultural environments than on societal level institutional systems Thus missing from these studies has been a larger sociological analysis of institutions per se In his newest book leading social theorist Jonathan H Turner offers a creative richly grounded reinterpretation of social evolution He resurrects a level of analysis undertaken by earlier functionalist theorists but with a new found emphasis that of discovering the larger forces driving the formation of human institutional systems Only by exploring the larger macro dynamics can the institutions of economy kinship religion polity law and education be fully understood as Turner persuasively shows in this magisterial explication of twenty millennia of human social life

*Radical Interventions* Suzanne de Castell, Mary Bryson, 1997-08-28 Minority scholars offer a critical and often radical rethinking of fundamental questions concerning identity politics and difference s as these inform educational theory and practice
