in the series Each paper was refereed by at least ve and often more committee members In order to maintain the high standards of the c ference the committee took a stringent view on quality this has meant that in some cases a paper was rejected even though there was a basis for a good c ference or journal paper but the submitted paper did not meet the committee s required standards In a few cases a good paper was rejected on the grounds that it did not t within the scope of the conference     Applied Semantics Gilles Barthe,Peter Dybjer,Luis Pinto,João Saraiva,2003-08-02 This book is based on material presented at the international summer school on Applied Semantics that took place in Caminha Portugal in September 2000 We aim to present some recent developments in programming language research both in semantic theory and in implementation in a series of graduate level lectures The school was sponsored by the ESPRIT Working Group 26142 on Applied Semantics APPSEM whichoperatedbetweenApril1998andMarch2002 The purpose of this working group was to bring together leading reseachers both in semantic theory and in implementation with the speci c aim of improving the communication between theoreticians and practitioners
