## **Foundations Of Systematic Theology:**

**Foundations of Systematic Theology** Thomas G. Guarino, 2005-05-01 Guarino argues in this book that the doctrinal form of the Christian faith in its essential characteristics calls for certain theoretical exigencies. This is to say that the proportion and beauty of the form is not served or illuminated by simply any presuppositions. Rather, a determinate understanding of first philosophy of the nature of truth of hermeneutical theory of the predication of language and mutual correlation is required if Christian faith and doctrine are to maintain a recognizable and suitably mediative form. Failing to adduce specific principles will lead either to a simple assertion of Christian truth in which case the form of Christianity becomes less intelligible and attractive or one will substitute a radically changed form which is itself inappropriate for displaying the fundamental revelatory narrative of faith. The house of Christian faith possesses a certain proportion of structure; the form will sag badly if one removes an undergirding item or if one beam is replaced with another of variable shape or size. The form's beauty will either be obscured no longer clearly visible or the form will become something quite different no longer architectonically related to what was originally the case. The intention of this book is to discuss those doctrinal characteristics considered fundamental to the Christian faith as protective of its revelatory form and concomitantly to examine the theoretical principles required if such form is to remain both intelligible and beautiful. *Foundations: An Overview of Systematic Theology* Ligonier Ministries, 1999-09 Teaching Outline Study Guide for Foundations *Foundations* Ligonier Ministries, 2018-06-05 Study guide for Foundations. It is written from a Reformed and Baptist perspective. **The Shaking of the Foundations** Paul Tillich, 2012-05-16 Author Biography Paul Tillich 1886-1965 an early critic of Hitler was barred from teaching in Germany in 1933. He emigrated to the United States holding teaching positions at Union Theological Seminary New York 1933-1955, Harvard Divinity School 1955-1962, and the University of Chicago Divinity School 1962-1965. Among his many books are *Theology of Culture*, *Dynamics of Faith*, and the three volumes of *Systematic Theology*. **The Foundations of Philosophy** Michael Polanyi, 2025-06-03 This work is about philosophy and what makes a philosophy distinctively Christian in character, arguing that it is indeed possible for philosophy to be conceived of as first Christian and not just philosophy done by people that happen to be Christians. Christian philosophy is epistemologically self-conscious philosophy conducted in a manner honoring to the revelation of the Hebrew and Christian scriptures. It is

argued that philosophy should be transformative rather than just therapeutic or elucidatory. The author examines competing philosophical and scientific accounts from both the empiricist and rationalist schools, arguing they are coherent and successful only to the degree that they have imported consciously or unconsciously Christian transcendentals. He then applies this insight to explore the character and practice of a Christian political philosophy.

**Theology in Search of Foundations** Randal Rauser, 2009-08-20. In the history of Western thought, Christian theology was once considered to be the Queen of Sciences. Today it has been marginalised by a prevailing scepticism. Randal Rauser confronts the problem of developing a public voice for the theologian as engaged in true theological science while not compromising the commitment to the Christian community of faith. This book posits a viable account of theological rationality, justification and knowledge that avoids the twin pitfalls of modern rationalism and postmodern irrationalism. Theology is freshly understood as a rigorous and rational truth-seeking discipline that seeks theoretical understanding of divine reality. Throughout the modern era, the predominant epistemological position has been classical foundationalism, a position now widely rejected by philosophers and theologians alike. Philosophers recognize that it fails to achieve a plausible account of rationality, justification or knowledge, while theologians recognize the extent to which classical foundationalist strictures have distorted Christian doctrine. In its place, many philosophers and theologians alike have adopted a nonfoundationalist epistemology which is in turn often associated with a problematic alethic and metaphysical antirealism. Engaging with the ideas of key thinkers from Descartes, Locke and Kant to Bruce Marshall and Alvin Plantinga, Rauser provides an accessible and provocative survey of the theological terrain of the modern and postmodern era, arguing in favour of a return to a moderate foundationalism.

The Controversies of Modern Christianity Where Do You Stand Cracks in the Foundation Controversies in Christianity presents fresh insight on the hottest topics in modern religious debate such as Biblical Creation versus scientific evidence and evil and suffering in God's world as well as other issues Many of today's Christians struggle with issues rising from the Bible's relation to modern science from rational thought and from mixed messages within the Bible itself The Bible if read literally says God created heaven and earth 6000 years ago and created humanity on the sixth day But modern science says the universe came into being 14 billion years ago and humanity evolved over millions of years from lower life forms Others struggle with the prevalence of evil in God's world and with contradictory biblical statements concerning predestination versus free will Contradictions like these pose problems for people who think carefully about their beliefs Indeed many younger people are now looking elsewhere for answers and

the number of Americans professing Christianity has recently dropped from 78% to 70% However thoughtful and inquisitive believers can now find an extremely valuable resource in *Cracks in the Foundation* This book presents a wealth of fresh insights and perspectives on twelve of the hottest topics in modern Christian debate A central theme is that many of the apparent contradictions are not as severe as they appear We find in many cases that Bible science and rational thought are amenable to reconciliation and even mutual enrichment

**Exploring the World's Foundation in Christ** Kevin A.

McMahon,2024-05-22 This volume the first of its kind provides both an introduction to a theologian who many in the field consider to be one of the very finest of his generation and a compendium of selections each with an explanatory preface from his prolific writings that ultimately touch upon every aspect of Catholic thought Making use of a method that is deeply rooted in the prayer life and sacred Scripture of the Church Donald Keefe pursued a decades long reflection on the significance of the central assertion of faith that Jesus Christ is Lord the author of a world that is centered on personal hence free life and that Jesus the Lord is Christ the Savior in whom broken freedom is made whole and then transformed through union with his own freedom and his own life that is at once human and divine Union with Christ then is not only the destiny of the world but also its beginning And this work of life which is the integrating work of creation has as its vanguard the Eucharist the sacramental life of Christ that is born of a free priesthood acting in Christ consecrating the free self offering of the Church The Eucharistic dynamism of creation reveals so Keefe argues the innermost structure of the real shedding light on any human question The many and far reaching topics that Keefe addressed are arranged in the book under a series of chapter headings that are intended to provide an overview of the content of Catholic theology from Christology to Mariology to ecclesiology The result will be to convey the rich and varied fruit of a gifted mind but also it is hoped some sense of the man himself

**A Philosophy of Prayer** George Pattison,2024-07-02

Exploring the silence of prayer in Post Kantian philosophy and traditional spirituality A Philosophy of Prayer explores prayer within the perspective of post Kantian philosophy Against a background of traditional sources including Augustine The Cloud of Unknowing and the seventeenth century French school of spirituality the book uses Schleiermacher Kierkegaard Dostoevsky Heidegger Berdyaev Tillich Marcel Simone Weil Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in

tension with modernity's commitment to strong versions of autonomy. However, the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self. **The Two Latin Cultures and the Foundation of Renaissance Humanism in Medieval Italy** Ronald G. Witt, 2012-03-19. Traces the intellectual life of Italy where humanism began a century before it influenced the rest of Europe.
