web oct 20 2012 introduction to automatic street light control using ldr microcontroller project the main objective of this paper is to provide a better solution to minimize the electrical wastage in operating street lights in this electronic era human became restless and he is not in a position to regulate the manual operations in any field a rapid

*automatic control of street light using ldr ppt slideshare* - Apr 01 2023

web jan 4 2015 it will automatically turn on street light in the way of leds or bulb coupled with relay working this circuit is very much easy and also the power consumed by the circuit is very low because of the very few components used in the circuit devang loharikar ldr is a device whose sensitivity depends upon the intensity of light falling on it

**doc report on automatic street light control system with ldr** - Sep 06 2023

web 21 automatic switching of street lights by using ldr and relay we decided to use an light dependent resistor here in this circuit ldr has low resistance in brightness only few ohms and very high resistance in complete darkness nearly 1m ohm so the transistor q1 becomes on in day times and q2 becomes off and hence the relay remains in nc
