End Of An Epoch Reflections On Contempor:

The End of an Epoch Alfred Leslie Rowse,1947 The End of an Epoch. Reflections on Contemporary History Alfred Leslie Rowse,1947 *War and Social Change in Modern Europe* Sandra Halperin,2004 This book focuses on the interrelationship of social forces industrial expansion and conflict in Europe between 1789 and 1945 **Marxism and the Global Financial Crisis** Hillel Ticktin,2013-09-13 The book discusses the nature of Marxist theory of crisis and applies it to the global financial crisis which began in 2007 Is the contemporary crisis simply the usual periodic upturn and downturn or is there something more fundamental Is there a structural crisis of capitalism from which there is no immediate solution Is capitalism managed and does it have a strategy Is the financial crisis representative of a failure in capitalism itself to subject banks and other financial institutions to the overall economy The book discusses Marx s view on crises as well as ideas on money and finance It considers the different modern Marxist ideas on the causes of crises falling rate of profit disproportionality and underconsumption It goes into detail as to the nature of the present crisis its course and causes in a spirited and independent manner Apart from the United States it considers the situation in the two countries in which protests erupted Iran and Greece They are taken as examples of the effect of the crisis on the country the society and the economy as well as its politics This book was originally published as a special issue of Critique The Diplomats, 1919-1939 Gordon A. Craig,Felix Gilbert,2021-05-11 This classic account of interwar diplomacy examines the curious fate of the diplomat the honest man sent to lie abroad for the good of his country in the capitals of a darkening Europe These men ambassadors in the field and officials in the Foreign Office worked against time in a world that witnessed the complete reorganization of the European system amid the onslaught of totalitarianism Leading experts investigate the diplomatic history of these years through the eyes of those entrusted with the extraordinarily delicate task of conducting the fateful negotiations that effect national policy Drawing on government archives European memoirs and diplomatic studies this book is both an absorbing history of twenty years of crisis and a searching analysis of the role of diplomacy in the modern age

Monthly Bulletin San Francisco Public Library,1919 *Churchill* John Lukacs,2002-09-10 Lukacs convincingly portrays a leader of an empire in irreversible decline and a towering if flawed hero of our time Publishers Weekly In previous works John Lukacs told the story of Winston Churchill s titanic struggle with Adolf Hitler in the early days of World War II Now he turns his attention to the man himself the workings of his historical imagination and his successes and failures as a visionary statesman Chapter by chapter Lukacs assesses Churchill s vital relationships with Stalin Roosevelt and Eisenhower his complex farsighted political vision concerning the coming of WWII and the Cold War his abilities as a historian looking backward into the origins of the conflicts of which he was so much a part and the often contradictory ways in which he has been perceived by critics and admirers alike In addition Lukacs describes his three days spent in London attending Churchill s funeral in 1965 Superb a tour de force Foreign Affairs Lukacs ability to meld the scholarly with the popular is much in

evidence here Booklist **Political Intellectuals and Public Identities in Britain Since 1850** Julia Stapleton, 2001 Political intellectuals and public identities in Britain since 1850 will be of interest to scholars and advanced undergraduates in the fields of political thought and British intellectual and cultural history It will also be of interest to a wider community of writers and commentators on the politics of English and British national identity BOOK JACKET Contested Social Orders and International Politics David Skidmore, 1997 Political scientists historians economists and sociologists who are concerned with international relations will find this a challenging and welcome addition to the theoretical literature that will shed new light on many longstanding debates within the field Secular Foundations of the Liberal State in Victorian Britain William C. Lubenow, 2024 Examines the entanglement of secularity and liberality in the foundation of the modern state in Britain Modern Britain emerged from the outcome of the French Revolution and the Napoleonic Wars The rather standard Whig account of the long nineteenth century is one of growing stability progress and improvement And yet nothing was preordained or inevitable about the period s stability Ruling elites felt the constant anxieties of revolutionary terrorism As Lubenow argues it was a period of disorganization seeking organization The great nineteenth century reform acts against religious monopoly were aspects of this process of political organization While religion did not disappear these political actions gradually changed the constitutional position of religion As a result a political vacuum was created which was then filled by a secular clerisy These fit and proper persons educated in the reformed universities qualified by success in competitive examinations began to fill positions in the Civil Service and in the professions The effect was to replace the eighteenth century system of confessional loyalties with a liberal political culture based on merit Lubenow s latest study examines the work of these intertwining nineteenth century secular liberal processes Steeped deeply in archival research this book considers biographical characteristics such as education political connections and social associations but it is equally conceptually guided by categories such as liberalism and secularism It fills an important gap in the political history of nineteenth century British liberalism by taking up the question of entanglement of secularity and liberality in the foundation of the modern state **The Labour Party, Nationalism and Internationalism, 1939-1951** R. M. Douglas, 2004 The Second World War was a watershed moment in foreign policy for the Labour Party in Britain Before the war British socialists had held that nationalism was becoming obsolete and that humanity was steadily evolving towards the ideal of a single world government The collapse of the League of Nations destroyed this optimistic vision compelling Labour to undertake a fundamental review of its entire approach to foreign affairs during a period of unprecedented global crisis This book traces the controversy that ensued as the British democratic left set about the task of defining the principles of a radically new international system for the postwar world The schemes proposed by Labour policymakers during these years encompassed a wide variety of political institutions aiming at the restraint or supersession of the sovereign nation state What they shared in common however was a reconceptualization of British identity in which the hyper patriotism of the wartime period blended

with the left's traditional internationalism. This new muscular internationalism was to have a major impact upon the evolution of entities as diverse as the United Nations Organization, the British Commonwealth and the accelerating campaign in favor of European unity after Labour assumed the reins of government in 1945. Breaking with the traditional accounts that place Cold War tensions at the centre of the Attlee government's activities in the immediate postwar years, R. M. Douglas's book provides an entirely new framework for reassessing British foreign policy and left wing concepts of national identity during the most turbulent moment of Britain's modern history. This book will be essential reading for all students and researchers of British foreign policy, the Labour Party and international relations.

International Relations and the Labour Party Lucian Ashworth, 2007-11-28. PLEASE NOTE THIS IS AN NJR AND BLURB SHOULD NOT BE USED IN ITS RAW FORM. From 1918 to 1945 the British Labour Party worked closely with some of the biggest names in international relations IR scholarship. Through such structures as the Advisory Committee on International Questions, IR scholars were instrumental in the construction of Labour foreign policy and the experience of working closely with Labour's leadership influenced the approach to IR taken by these scholars. One of the major effects of the collaboration of Labour with IR experts was a wealth of memoranda, reports and pamphlets written by IR scholars for the Party. This material, despite its relevance to the history of the discipline of IR, has received scant attention in modern IR scholarship. This study has three major goals. The first is to add to the literature on the study of Labour foreign policy by examining the crucial role played by IR theorists and writers. The Advisory Committee and its intellectual members did much to shape the foreign policy of the Party, giving it a coherent approach to international problems. The second is to put the international theories of five key writers, Leonard Woolf, H. N. Brailsford, Philip Noel Baker, Norman Angell and David Mitrany, into the context of both the development of Labour's international policy and the evolution of the international environment between the wars. Although all five writers are acknowledged as key thinkers in this period, the memoranda on foreign affairs that they did for the Labour Party are little known within IR. The final goal is to demonstrate the inadequacy of the current interpretation within IR of the inter-war period. The obsession with the anachronistic division between realism and idealism, terms that had different connotations before the Second World War, masks both the very different debates that were going on at the time and the changing international landscape of the inter-war period itself.

The Diplomats, 1919-1939 Gordon Alexander Craig, Felix Gilbert, 1965. *Alfred Goldsworthy Bailey* Harriet Irving Library. Reference Department, 1978. **Postmodernity** Barry Smart, 2016-09-01. At last, a short and authoritative critical introduction to one of the most talked about and most misunderstood concepts of current times. Barry Smart provides a clear and readable discussion for students which also manages to be a shrewd and stimulating contribution to the debate about modernity and postmodernity. Brightly observed and totally true.

The Cultural Legacy of the British Occupation in Germany Alan Bance, 1997. **Interventions in Contemporary Thought** Gabriel Rockhill, 2016-06-01. With a critical eye, Gabriel Rockhill guides you through complex

debates in history politics and aesthetics giving you an overview of key issues and central figures including Foucault Derrida Castoriadis Badiou and Ranciere Rockhill also engages in a nuanced exploration of recent work that calls into question the stereotype of prominent figures and intellectual movements Far from hiding behind towering figures of the intellectual world Rockhill stakes out positions in relationship to them and formulates precise arguments in favour of a new understanding of the historical relationship between art and politics
