Founding A Nation Historical Reader:

The Patriot's History Reader Larry Schweikart, Michael Allen, Dave Dougherty, 2011-06-28 An original collection of the most influential documents in American history from the bestselling author of *A Patriot's History of the United States* Since 2005 *A Patriot's History of the United States* has become a modern classic for its defense of America as a unique country founded on principles of justice equality and freedom for all The Patriot's History Reader continues this tradition by going back to the original sources the documents speeches and legal decisions that shaped our country into what it is today The authors explore both oft cited documents the Declaration of Independence Emancipation Proclamation and *Roe v Wade* as well as those that are less famous Among these are George Washington's letter to Alexander Hamilton which essentially outline America's military strategy for the next 150 years and Herbert Hoover's speech on business ethics which examines the government's role in regulating private enterprise By helping readers explore history at its source this book sheds new light on the principles and personalities that have made America great

Reading the Bible with the Founding Fathers Daniel L. Dreisbach, 2017 No book was more accessible or familiar to the American founders than the Bible and no book was more frequently alluded to or quoted from in the political discourse of the age How and for what purposes did the founding generation use the Bible How did the Bible influence their political culture Shedding new light on some of the most familiar rhetoric of the founding era Daniel Dreisbach analyzes the founders' diverse use of scripture ranging from the literary to the theological He shows that they looked to the Bible for insights on human nature civic virtue political authority and the rights and duties of citizens as well as for political and legal models to emulate They quoted scripture to authorize civil resistance to invoke divine blessings for righteous nations and to provide the language of liberty that would be appropriated by patriotic Americans *Reading the Bible with the Founding Fathers* broaches the perennial question of whether the American founding was to some extent informed by religious specifically Christian ideas In the sense that the founding generation were members of a biblically literate society that placed the Bible at the center of culture and discourse the answer to that question is clearly yes Ignoring the Bible's influence on the founders Dreisbach warns produces a distorted image of the American political experiment and of the concept of self government on which America is built
