## **Four Graves To Jericho:**

*Four Graves to Jericho* Orlando Rigoni, 1974      Judaism in Late Antiquity 5. The Judaism of Qumran: A Systemic Reading of the Dead Sea Scrolls Alan Avery-Peck, Jacob Neusner, Bruce D. Chilton, 2015-11-02 The authors have asked of the documents of the Dead Sea Library found at Qumran a simple question how does each participate in a single Judaic religious system They propose a reading of the Scrolls from the hypothesis that all of them in one way or another rest upon one authoritative Judaism Their analysis of the Dead Sea Scrolls describes how diverse writings hold together to make a single coherent statement to stand for a religious system possessed of integrity and wisdom This account of the world view of Judaism covers principal questions addressed to any Judaic religious system the doctrine of God the Torah and matters of history wisdom and mysticism When it comes to the way of life they include the evidence of the material culture of the community as well as practical matters of religious conduct How the community's world view comes to realization is suggested by its treatment of the calendar by its provision of laws that concern women by questions of cultic and secular purity by its piety and forms of worship and views of Temple sacrifice and the like Finally with the community's definition of Israel and of itself in relationship to Israel inclusive of Israelites excluded from this Israel an account is gained of the theory of who and what is Israel that animates the particular Judaism represented in these writings      Children in the Ancient Near Eastern Household Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child's gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child's becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in Classical Antiquity      *Catalog of Copyright Entries. Today archaeology plays an ever growing role in Qumran studies Fifteen papers presented in 2002 at Brown University provide the necessary data to break new ground in the recent debate about the character of Qumran Section I discusses material from old and new excavations that help assess the validity of the traditional Qumran Essene hypothesis Part II discusses various aspects of the main settlement such as division of space the character of period III the date of the cave scroll deposits and the use of food Part III deals with the Qumran cemetery and a similar graveyard at Khirbet Qazone Part IV places Qumran into a wider regional context concentrating on local agriculture and ceramic production The articles strongly call for a new awareness for archaeological detail and in their various ways instigate a renewed debate about how to bring texts and material culture into a meaningful dialogue
