## **From The Lab Into The World A Pill For People Pets And Bugs:**

This Man's Pill Carl Djerassi, 2003 Carl Djerassi was responsible for the chemical synthesis of the first steroid oral contraceptive he is widely referred to as the father of the Pill In This Man's Pill Djerassi reflects on the impact the invention of the oral contraceptive pill has had on the world and on Djerassi himself The SciArtist Walter Grünzweig, 2012 This title presents criticism commentaries and creative responses to Carl Djerassi's literary texts taking the author's achievements far beyond the Pill *The Bourbaki Gambit* Carl Djerassi, 1996-10-01 A beautifully ingenious funny brilliantly intelligent and moving tale of very human scientists A splendid novel Iris Murdoch At the age of 68 distinguished Princeton science professor Max Weiss is bribed into taking an early retirement Frustratingly aware that his best years are not yet behind him Weiss devises an inventive revenge in the form of Dr Diana Skordylis a pseudonym for a partnership among Weiss and three aging colleagues each with an axe to grind against the scientific community What the Skordylis group doesn't anticipate however is the unbridled success of their venture the discovery of PCR one of the most important breakthroughs in contemporary biomedical science Professional jealousy soon threatens Diana Skordylis's life As the force of ego tests the bonds of collaboration the reader is treated to a fascinating glimpse inside the worlds of academia and scientific enterprise A subtle meditation on scientific personality An odd blend of literature philosophy and science writing as creative as any organic potpourri that Djerassi might have mixed up in his laboratory The Washington Post This is a novel of ideas quite literally yet it flashes with wit and is often quite charming thanks to well drawn characters at ease with mind boggling concepts who talk about them in a down to earth way San Francisco Chronicle **Four Jews on Parnassus** Carl Djerassi, 2008 Four men Four wives One angel by Paul Klee Four Jews Benjamin's grip *No* Carl Djerassi, 2000-11-01 A compelling novel based on the high stakes biotech industry and the science behind Viagra from the internationally known Father of the Pill The fourth installment of Carl Djerassi's pioneering science in fiction tetralogy tells the story of a husband and wife team who devise new solutions to problems associated with sex and reproduction Renu Krishnan is an Indian born American educated scientist who discovers how NO nitric oxide can help men with erectile dysfunction the scientific rationale behind Viagra At the same time her husband Israeli scientist Jepthah Cohn develops a new approach to ovulation prediction which is also based on factual research When Wall street gets wind of their discoveries the couple catapults in the fast paced world of lawyers and IPOs where scientists are now a hot commodity Deftly exploring the demanding worlds of academia and high finance Djerassi brings back many characters from his three earlier novels for a satisfying conclusion An Immaculate Misconception Carl Djerassi, 2000-06-21 One of the most challenging issues of the 21st century is the impending separation of sex in bed and reproduction under the microscope as a result of recent advances in contraception and assisted reproduction Many of the ethical and societal issues associated with these new reproductive technologies notably intracytoplasmic sperm injection ICSI are raised in an unusual format namely in dialogic form which is both

entertaining and pedagogically informative a      **Medical Firsts** Robert E. Adler, 2008-04-21 An exploration of medical discoveries from the ancient Greeks to the present Always help or at least do no harm Following this simple yet revolutionary idea Hippocrates laid the foundation for modern medicine over two millennia ago From the Hippocratic Oath to the human genome from Pasteur's germ theory to the worldwide eradication of smallpox Medical Firsts brings to life 2 500 years of medical advances and discoveries Organized chronologically the book describes each milestone in a vivid capsule history making it a fascinating and wonderfully readable resource for anyone interested in medicine's past progress and future promise Robert E Adler PhD Santa Rosa CA has worked as a psychologist and science journalist He writes about a wide variety of scientific and medical topics for New Scientist Nature and other publications and is the author of Science Firsts 0 471 40174 9      **Science and Technology in a Developing World** T. Shinn, J. Spaapen, V.V. Krishna, 2013-04-17 block possible Soviet expansion by mobilizing European democracies the policy soon extended to some developing countries in Asia and Latin America In response the USSR gradually initiated development programs for newly independent nations in Asia and Africa In this context super power rivalry operated in the South to i expand spheres of influence and control ii guard Southern nations from the influence and incursions launched by the opposed camp iii stimulate indigenous development With few exceptions Southern nations provided little input to the definition and execution of North South dynamics during this period In the case of Africa and to some extent Asia the acquisition of independence was so recent and often sudden that there was little time to reflect on the kind of policies and measures needed to build balanced relations with the former mother country In Latin America the Monroe Doctrine had long insured that the region was a virtual captive of the US Aid for development was contingent on conformity to US political and economic interests The cognitive component of South North dealings strongly reflected the two above mentioned dispositions The relative lack of political experience in the South and the dearth of an organized and sizable intellectual academic community meant that there were few cognitive and human resources for undertaking careful study and analysis of the conditions and needs of development from a Southern perspective influential exceptions existed though such as Raul Prebisch in Latin America or Gandhi in India      **Cantor's Dilemma** Carl Djerassi, 1991-03-01 When Professor Isidore Cantor reveals his latest breakthrough in cancer research the scientific community is galvanized Cantor's most promising research fellow Dr Jeremiah Stafford has only to conduct the experiment that will prove the brilliant hypothesis and win Cantor the Nobel Prize But how far will the young assistant go to guarantee the results Carl Djerassi draws from his long career as a world famous scientist to describe the fierce competition driving scientific super stars in this gripping and suspenseful novel A brilliant tale of the morals and politics of contemporary science Exciting moving and brilliantly written Iris Murdoch A fly on the lab wall look at the way big time science is practiced today The Washington Post Book World      **Introduction to Green Chemistry** Albert Matlack, 2010-04-05 The book covers traditional green chemistry topics including catalysis benign solvents and alternative feedstocks It also discusses relevant but

**Chemistry In Theatre: Insufficiency, Phallacy Or Both** Carl Djerassi, 2012-03-21 This book examines the questions What can science do for the theatre and What can the theatre do for science which raise challenges for both theatre professionals and scientists Unusually this book deals with plays first and foremost as reading material as texts to be read alone or in dramatic readings rather than emphasizing performances on the stage Concrete examples are given to demonstrate the potential pedagogic value of using the dialogic style and plot structure of plays in science with a special focus on chemistry Very few books have dealt with the subject of science in theatre and virtually none with chemistry in theatre Texts of the author's two recent plays Insufficiency and Phallacy are included in their entirety to offer concrete examples of plays dealing with actual rather than invented chemistry Insufficiency represents an example from the field of beer and champagne bubbles where the topics of academic tenure and fashion in chemistry are analyzed whereas in Phallacy a case history of the similarities and differences between science and art is presented for debate

*Introduction to Green Chemistry* John Andraos, Albert S. Matlack, 2022-03-10 Interest in green chemistry and clean processes has grown so much in recent years that topics such as fluorous biphasic catalysis metal organic frameworks and process intensification which were barely mentioned in the First Edition have become major areas of research In addition government funding has ramped up the development of fuel cells and biofuels This reflects the evolving focus from pollution remediation to pollution prevention Copiously illustrated with more than 800 figures the Third Edition provides an update from the frontiers of the field It features supplementary exercises at the end of each chapter relevant to the chemical examples introduced in each chapter Particular attention is paid to a new concluding chapter on the use of green metrics as an objective tool to demonstrate proof of synthesis plan efficiency and to identify where further improvements can be made through fully worked examples relevant
