Odún Cristina Boscolo,2009-01-01 A poetic voice scans the rhythm of academic research telling of the encounter with od n then the voice falls silent What is then raised is the dust of a forgotten academic debate on the nature of theatre and drama and the following divergent standpoints of critical discourses bent on empowering their own vision and defining themselves rather as counterdiscourses This the first part of the book a metacritical discourse on the geopolitics the inherent power imbalances of academic writing and its effects on od n the performances dedicated to the gods ancestors and heroes of Yor b history But od n where is it and what is it And the voice The many critical discourses have not really answered these questions In effect od n is many things To enable the reader to see these the study proceeds with an intermezzo a frame of reference that sets od n the festival in its own historico cultural ecoenvironment identifying the strategies that inform the performance and constitute its aesthetic It is a classical yet for od n an innovative procedure This interdisciplinary background equips the reader with the knowledge necessary to watch the performance to witness its beauty and to understand the half words od n utters And now the performance can begin The voice emerges one last time to introduce the second section which presents two case studies The reader is led day by day through the celebrations od n ed Mor mi s story and its realization in performance then confrontation by the masks of the ancestors duing od n eg ng n particularly as held in Ibadan The meaning of od n becomes clearer and clearer Od n is poetry dances masks food prayer It is play er and belief gb gb It is interaction between the players both performers and spectators It is also politics and power It contains secrets and sacrifices It is a reality with its own dimension and above all as the quintessential site of knowledge it possesses the power to transform In short it is a challenge a challenge that the present book and its voices take up Public Management and Sustainable Development in Nigeria Robert Dibie,2018-02-06 This title was first published in 2003 How was public policy and economic development in Nigeria affected under the period of military control between 1966 and 1999 What is the nature and scale of change that Nigeria will have to undergo in order to achieve its current development goals Initially providing a history of Nigeria along with a framework for understanding the nature scope and magnitude of the military and public management problems within the country this timely and rewarding book addresses both of these questions It analyzes the institutions that make and implement public policy in the Nigerian political arena and examines the route that Nigeria could take in order to enhance its public management capacities Although the specific focus is on Nigeria the mode of analysis used is transferable to a wide variety of developing nations The book will foster an understanding among scholars development planners military officers and policy makers of the tasks and challenges facing Nigeria and many sub Saharan African nations in the twenty first century **Current Catalog** National Library of Medicine (U.S.),1979 First multi year cumulation covers six years 1965 70 *The Who's Who of Nobel Prize Winners, 1901-2000* Louise S. nationalism to knowledge from the anti colonial movement to the present day This book is about how African intellectuals influenced primarily by nationalism have addressed the inter related issues of power identity politics self assertion and autonomy for themselves and their continent from the mid nineteenth century onward Their major goal was to create a better Africa by connecting nationalism to knowledge The results have been mixed from the glorious euphoria of the success of anti colonial movements to the depressing circumstances of the African condition as we enter a new millennium As the intellectual elite is a creation of the Western formal school system the ideas it generated are also connected to the larger world of scholarship This world is in turn shaped by European contacts with Africa from the fifteenth century onward the politics of the Cold War and the subsequent collapse of the Soviet Union In essence Africa and its elite cannot be fully understood without also considering the West and changing global politics Neither can the academic and media contributions by non Africans be ignored as these also affect the ways that Africans think about themselves and their continent Nationalism and African Intellectuals examines intellectuals ambivalent relationships with the colonial apparatus and subsequent nation state formations the contradictions manifested within pan Africanism and nationalism and the relation of academic institutions and intellectual production to the state during the nationalism period and beyond Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin

Making of an African Giant Dan Mou, 2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that such character defects may indeed exist in some of Nigerian leaders However these are not the main reasons for their dismal performance regarding the welfare of the citizens The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groups local and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensify Nigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant

National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does

not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use

National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria *Nigeria in the Twenty-first Century* Emmanuel Ike Udogu, 2005 Political stability and peaceful coexistence among Nigeria s diverse nationalities are imperative for development and democratic consolidation and could serve as a model for the region and Africa as a whole This volume put together by leading Nigerian scholars addresses strategies for taming the military to avoid
