**Linguistics And Literary Theory:**

    **Linguistics and Literary Theory** Karl D. Uitti,1969    **Linguistic Perspectives on Literature** Marvin K.L. Ching,Michael C. Haley,Ronald F. Lunsford,2014-01-10 Although linguistics is often a technical and increasingly abstruse discipline many linguists retain a concern for the way in which linguistics can shed light on literature and literary problems In their introductory chapter the editors of this collection of essays by linguists on either side of the Atlantic enunciate a bold stance that defines the theoretical relationship between linguistics and literature delimits what should be considered a linguistic analysis of literature and explains how such an analysis is related to current theories of readership and literary criticism The editors theory of the relationship between linguistic and literary studies stipulates an eclectic rather than a holistic approach and the essays they have gathered together reflect this belief The contributions include such varied approaches as transformational grammar text grammar and speech act theory and the topics analysed include many that are at the heart of literature such as topicalization imagery figurative language ambiguity and the play on words through puns The anthology as a whole illustrates how linguistic theory illuminates the very nature of literary language It also gives evidence of the new insights into literature that have arisen from a close analysis of the language in which the literature is encoded    <u>Linguistic and Literary Theories in Reading</u> Feryal Cubukcu,Leyla Harputlu,2015 Reading is multi faceted and shaped by contexts participants and technologies Because of its multi faceted nature many theories of reading which tackle different perspectives to texts have been proposed The purpose of this book is to grapple with issues on linguistic and literary theories in reading    **The Language of Criticism** Jacqueline Margaret Henkel,1996 Jacqueline M Henkel explores the impact of linguistics and ordinary language philosophy on literary theory over the past four decades Her readings of key texts relocate the principal literary issues raised by the interaction between these fields She shows how various linguistic models among them Saussurean and Prague School linguistics generative grammar and speech act theory have affected such major movements in literary criticism as stylistics Jakobsonian structuralism narratology reader oriented criticism and deconstruction and its offshoots Among the major figures she discusses in addition to Saussure and Jakobson are Chomsky Derrida Austin and Searle    *Theoretical Inquiry* Austin E. Quigley,2008-10-01 div In the aftermath of debate about the death of literary theory Austin E Quigley asks whether theory has failed us or we have failed literary theory Theory can thrive he argues only if we understand how it can be strategically deployed to reveal what it does not presuppose This involves the repositioning of theoretical inquiry relative to historical and critical inquiry and the repositioning of theories relative to each other What follows is a thought provoking reexamination of the controversial claims of pluralism in literary studies The book explores the related roles of literary history criticism and theory by tracing the fascinating history of linguistics as an intellectual problem in the twentieth century Quigley s approach clarifies the pluralistic nature of literary inquiry the viability and life cycles of theories the controversial status of canonicity and the polemical nature of the culture wars by positioning

them all in the context of recurring debates about language that have their earliest exemplifications in classical times DIV

   Language, Literature & Meaning John Odmark,1980-01-01 The essays in this two volume anthology provide the reader with an overview of current Czech Polish and Hungarian research in language literature and meaning as well as some new perspectives on the major theoretical contributions of Roman Ingarden Georg Luk cs and Jan Muka ovsk For the most part the emphasis is on Poetics and Literary Theory however in some of the essays the focus shifts to such related disciplines as Aesthetics Linguistics and Semiotics The heterogeneity of this collection reflects the broad spectrum of interests and approaches to problems of theory being pursued at present in Poland Hungary and Czechoslovakia Much of the work being done in these countries remains relatively unknown outside of Eastern Europe This anthology is an attempt to rectify this situation and make better known the nature and extent of research which promises new insights into a whole range of phenomena in language literature and culture     *Linguistic Criticism* Roger Fowler,1986 A particularly fruitful development in literary studies has been the application of ideas drawn from linguistics Precise analytical methods help the practical criticism of texts while at the same time the theory of language has illuminated literary theory Linguistic Criticism is an accessible introduction to this often confusing subject Fowler sets out clearly and simply a variety of analytical techniques whose application he demonstrates in discussions of a wide range of texts drawn from fiction poetry and drama He concentrates on structures that relate literature to ordinary language stressing the importance of the reader s everyday language skills This second edition has clarified and expanded sections on the role of the reader in literary criticism and includes more twentieth century texts and examples     *Linguistics and Literary History* Anita Auer,Victorina González-Díaz,Jane Hodson,Violeta Sotirova,2016-10-20 Linguistics and Literary History systematically explores the advantages of an inter disciplinary approach within the broad area of English studies It brings together stylistics literary theory and diachronic linguistics in order to explore their interaction at various methodological descriptive and interpretative levels This unique combination makes this volume on historical stylistics an important work for international scholars and postgraduate students working on the interface between literary history and language change both from corpus based and qualitative perspectives The chapters written by leading scholars in these various fields are an appropriate reference work for teaching and research purposes in the areas of stylistics historical linguistics English language and literature corpus linguistics and literary history     Speech Acts and Literary Theory Sandy Petrey,2016-08-19 This book first published in 1990 combines an introduction to speech act theory as developed by J L Austin with a survey of critical essays that have adapted Austin s thought for literary analysis Speech act theory emphasizes the social reality created when speakers agree that their language is performative Austin s term for utterances like we hereby declare or I promise that produce rather than describe what they name In contrast to formal linguistics speech act theory insists on language s active prominence in the organization of collective life The first section of the text concentrates on Austin s determination to situate language in

society by demonstrating the social conventions manifest in language The second and third parts of the book discuss literary critics responses to speech act theory s socialisation of language which have both opened new understandings of textuality in general and stimulated new interpretations of individual works This book will be of interest to students of linguistics and literary theory **Literature and the New Interdisciplinarity** Roger D. Sell,Peter Verdonk,1994 In recent years there has been an increasing realization that language and literature are so to speak socioculturally consubstantial Accordingly literary scholars and linguists now often define their interests in sociohistorical terms and the lang lit divide is giving way to shared concerns which are interdisciplinary between the three poles poetics linguistics society To illustrate and consolidate this new interdisciplinarity the editors of this volume have collected a number of articles specially written by an international team of scholars including figures of the highest international distinction Key interdisciplinary terms such as contextualization addressivity and convention are subjected to critical scrutiny and applied to particular texts Some of the most widely canvassed theories of communication and literature particularly Sperber and Wilson s relevance theory and Bakhtin s sociolinguistic poetics are carefully assessed and extended to new areas And there are contextualizing approaches to phenomena such as genre historical genre modulation irony metaphor Modernist impersonality unreliable narration informal style and literary gossip The book s argument is carefully structured An extensive introduction outlines the general background of ideas and the thirteen articles are grouped into four main sections linked together by a clear line of questioning and discussion which is made explicit in sectional introductions The book is addressed to established scholars postgraduate students and advanced undergraduates who are interested in linguistics literary theory literary criticism and sociocultural history and searching for ways of bringing these branches of learning into synergetic relation with each other

Literary Theory and Criticism Patricia Waugh,2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions

Linguistic Perspectives on Literature Marvin K.L. Ching,Michael C. Haley,Ronald F. Lunsford,2014-01-10 Although linguistics is often a technical and increasingly abstruse discipline many linguists retain a concern for the way in which linguistics can shed light on literature and literary problems In their introductory chapter the editors of this collection of essays by linguists on either side of the Atlantic enunciate a bold stance that defines the theoretical relationship between linguistics and literature delimits what should be considered a linguistic analysis of literature and explains how such an

analysis is related to current theories of readership and literary criticism The editors theory of the relationship between linguistic and literary studies stipulates an eclectic rather than a holistic approach and the essays they have gathered together reflect this belief The contributions include such varied approaches as transformational grammar text grammar and speech act theory and the topics analysed include many that are at the heart of literature such as topicalization imagery figurative language ambiguity and the play on words through puns The anthology as a whole illustrates how linguistic theory illuminates the very nature of literary language It also gives evidence of the new insights into literature that have arisen from a close analysis of the language in which the literature is encoded **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk,1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture **The Language and Literature Reader** Ronald Carter,Peter Stockwell,2020-08-19 The Language and Literature Reader is an invaluable resource for students of English literature language and linguistics Bringing together the most significant work in the field with integrated editorial material this Reader is a structured and accessible tool for the student and scholar Divided into three sections Foundations Developments and New Directions the Reader provides an overview of the discipline from the early stages in the 1960s and 70s through the new theories and practices of the 1980s and 90s to the most recent and contemporary work in the field Each article contains a brief introduction by the editors situating it in the context of developing work in the discipline and glossing it in terms of the section and of the book as a whole The final section concludes with a history and manifesto written by the editors which places developments in the area of stylistics within a brief history of the field and offers a polemical perspective on the future of a growing and influential discipline **Language and Literary Structure** Nigel Fabb,2002 Fabb offers a new linguistic approach to how metre and rhythm

work in poetry based on pragmatic theory providing a pragmatic explanation of formal ambiguity and indeterminacy and their aesthetic effects He also uses linguistics to examine the experience of poetry Language and Literary Structure will be welcomed by students and researchers in linguistics literary theory and stylistics Jacket **The Theory of Literary Criticism** John M.
