Tragedy in Aurora Tom Diaz, 2019-10-31 Tragedy in Aurora is about the 2012 murder of budding sports journalist Jessica Jessi Redfield Ghawi in a public mass shooting and the widening circle of pain it inflicted on her family friends police medical first responders and others The book is at the same time a deep examination of the causes and potential cures of the quintessential 21st century American sickness public mass shootings At the heart of that examination is an unpacking of America s deep polarization and political gridlock It addresses head on the question of why Why is American gun violence so different from other countries Why does nothing seem to change The Parkland kids inspired hope of change But the ultimate questions stubbornly remain what should what can and what will Americans do to reduce gun violence Tragedy in Aurora argues that the answer lies in a conscious cultural redefinition of American civic order Over recent decades America has defined a cultural new normal about guns and gun violence Americans express formalistic dismay after every public mass shooting But many accept gun violence as an inevitable even necessary and to some laudable part of what it means to be American Although Americans claim to be shocked with each new outrage so far they have failed to coalesce around an effective way to reduce gun death and injury The debate is bogged down in polarized and profoundly ideological political and cultural argument Meanwhile America continues to lead the globe in its pandemic levels of gun deaths and injuries Combined with the cynical learned helplessness of its politicians the result is gridlock and a growing roll of victims of carnage Is there a path out of this cultural and political gridlock Tragedy in Aurora argues that if America is to reduce gun violence it must expand the debate and confront the fundamental question of who are we Tom Diaz gives a new understanding of American culture and the potential for change offered by the growing number and ongoing organization of victims and survivors of gun violence Without conscious cultural change the book argues there is little prospect of effective laws or public policy to reduce gun violence in general and public mass shootings in particular Police Use of Excessive Force against African Americans Ray Von Robertson, Cassandra D. Chaney, 2019-08-27 Robertson and Chaney examine how the early antecedents of police brutality like plantation overseers the lynching of African American males early race riots the Rodney King incident and the Los Angeles Rampart Scandal have directly impacted the current relationship between communities of color and police Using a phenomenological framework they analyze how African American college students perceive police to determine how race gender and education create different realities among a demographic Based on their qualitative and quantitative findings Robertson and Chaney offer recommended policies and strategies for police and communities to improve relationships and Mediating the National Marcia Butzel, Ana Lopez, 1994 First Published in 1994 Routledge is perceptions between the two
