Information Guide is an annotated bibliography concerning both the nature of primary sources related to the composer and the scope and significance of the secondary sources which deal with him his compositions and his influence as a composer and performer The second edition includes research published since the publication of the first edition and provide electronic resources Franz Liszt was born on 22 October 1811 at Raiding today located in Austria s Burgenland He received his first piano lessons from his father Adam Liszt an employee of the celebrated Eszterh zy family Young Franz was quickly acclaimed a prodigy and in 1820 a group of Hungarian magnates offered to underwrite his musical education Shortly thereafter the Liszts moved to Vienna where Franz studied piano and composition with Carl Czerny and Anton Salieri Performances there earned Liszt local fame even Beethoven expressed interest in him Deep Refrains Michael Gallope, 2017-11-16 We often say that music is ineffable that it does not refer to anything outside of itself But if music in all its sensuous flux does not mean anything in particular might it still have a special kind of philosophical significance In Deep Refrains Michael Gallope draws

together the writings of Arthur Schopenhauer Friedrich Nietzsche Ernst Bloch Theodor Adorno Vladimir Jankl vitch Gilles Deleuze and Félix Guattari in order to revisit the age old question of music's ineffability from a modern perspective For these nineteenth and twentieth century European philosophers music's ineffability is a complex phenomenon that engenders an intellectually productive sense of perplexity Through careful examination of their historical contexts and philosophical orientations close attention to their use of language and new interpretations of musical compositions that proved influential for their work Deep Refrains forges the first panoptic view of their writings on music Gallope concludes that music's ineffability is neither a conservative phenomenon nor a pious call to silence Instead these philosophers ask us to think through the ways in which music's stunning force might address in an ethical fashion intricate philosophical questions specific to the modern world

The Oxford Handbook of Western Music and Philosophy Tomás McAuley, Nanette Nielsen, Jerrold Levinson, Ariana Phillips-Hutton, 2021 The Oxford Handbook of Western Music and Philosophy celebrates the ways in which musicians have historically called upon philosophy as a source of inspiration and encouragement and scholars of music through the ages have turned to philosophy for insight into music and into the worlds that sustain it

In Search of Opera Carolyn Abbate, 2014-12-25 In her new book Carolyn Abbate considers the nature of operatic performance and the acoustic images of performance present in operas from Monteverdi to Ravel Paying tribute to music's realization by musicians and singers she argues that operatic works are indelibly bound to the contingency of live singing playing and staging She seeks a middle ground between operas as abstractions and performance as the phenomenon that brings opera into being Weaving between opera's facts of life and a series of works including *The Magic Flute* *Parsifal* and *Pell* as Abbate explores a spectrum of attitudes towards musical performance which range from euphoric visions of singers as creators to uncanny images of musicians as lifeless objects that have been resuscitated by scripts In doing so she touches upon several critical issues the Wagner problem coloratura virtuosity and their critics the implications of disembodied voice in opera and film mechanical music the mortality of musical sound and opera's predilection for scenes positing mysterious unheard music An intersection between transcendence and intense physical grounding she asserts is a quintessential element of the genre one source of the rapture that operas and their singers can engender in listeners In *In Search of Opera* mediates between an experience of opera that can be passionate and intuitive and an intellectual engagement with opera as a complicated aesthetic phenomenon Marrying philosophical speculation to historical detail Abbate contemplates a central dilemma the ineffability of music and the diverse means by which a fugitive art is best expressed in words All serious devotees of opera will want to read this imaginative book by a music critical virtuoso

L'épuisement du biographique? Vincent Broqua, Guillaume Marche, 2010-10-12 Pourquoi penser le biographique N'est-il pas puisé Le siècle passé semble l'avoir vidé de son contenu et de sa substance et l'a réduit à un état d'affaiblissement presque complet dans le domaine des sciences sociales comme dans celui de la critique littéraire L'enjeu de cet ouvrage est d'affirmer que le biographique déborde la biographie et

de considérer le biographique comme une condition du retour de la biographie au moyen de son dépasement Cet ouvrage rassemble des travaux abondants *The Musician as Philosopher* Michael Gallope, 2024-03-15 An insightful look at how avant garde musicians of the postwar period in New York explored the philosophical dimensions of music's ineffability *The Musician as Philosopher* explores the philosophical thought of avant garde musicians in postwar New York David Tudor Ornette Coleman the Velvet Underground Alice Coltrane Patti Smith and Richard Hell It contends that these musicians all of whom are understudied and none of whom are traditionally taken to be composers not only challenged the rules by which music is written and practiced but also confounded and reconfigured gendered and racialized expectations for what critics took to be legitimate forms of musical sound From a broad historical perspective their arresting music electrified a widely recognized social tendency of the 1960s a simultaneous affirmation and crisis of the modern self *The Gypsy Caravan* David Malvinni, 2004-05 A formidable challenge to the study of Roma Gypsy music is the muddle of fact and fiction in determining identity This book investigates Gypsy music as a marked and marketable exotic substance and as a site of active cultural negotiation and appropriation between the real Roma and the idealized Gypsies of the Western imagination David Malvinni studies specific composers including Liszt Brahms Rachmaninov Janacek and Bartók whose work takes up contested and varied configurations of Gypsy music The music of these composers is considered alongside contemporary debates over popular music and film as Malvinni argues that Gypsiness remains impervious to empirical revelations about the real Roma

The Oxford Handbook of the New Cultural History of Music Jane F. Fulcher, 2013-11-01 As the field of Cultural History grows in prominence in the academic world an understanding of the history of culture has become vital to scholars across disciplines *The Oxford Handbook of the New Cultural History of Music* cultivates a return to the fundamental premises of cultural history in the cutting edge work of musicologists concerned with cultural history and historians who deal with music In this volume noted academics from both of these disciplines illustrate the continuing endeavor of cultural history to grasp the realms of human experience understanding and communication as they are manifest or expressed symbolically through various layers of culture and in many forms of art *The Oxford Handbook of the New Cultural History of Music* fosters and reflects a sustained dialogue about their shared goals and techniques rejuvenating their work with new insights into the field itself *Quand le geste fait sens* Aa. Vv., 2016-06-09 T00:00:00+02:00 Ces dernières années un vibrant débat s'est développé autour de la valeur esthétique du geste envisagé dans son double aspect performatif explicite et poétique et communicatif C'est dans ce contexte que s'inscrit ce livre qui pose une question la fois simple et redoutable par quoi un geste fait-il sens pour celui qui l'exécute le performeur comme pour celui qui l'interprète le spectateur L'intérêt des contributions rassemblées ici réside dans le fait qu'elles abordent directement cette question partir d'une réflexion approfondie sur les arts performatifs visuels sonores et littéraires L'interrogation se déploie travers ces différents champs Mais qu'il s'agisse de la danse de la musique de la peinture de la philosophie ou de la littérature c'est chaque fois l'énigme d'un sens qui affleure même

un mouvement ou d'un mouvement qui est signifiant par sa dynamique propre qui est repensée et posée comme un nouveau défi. Dans ses conclusions le présent recueil conduit à formuler deux hypothèses encore peu explorées jusqu'à présent. Selon la première la signification immanente au geste par lequel il fait sens aussi bien pour celui qui l'exécute que pour celui qui le regarde s'ancre essentiellement dans le rythme c'est-à-dire plus précisément dans la durée intérieure qu'il symbolise et qu'il nous transmet. Selon la deuxième hypothèse cette signification immanente au geste permet de thématiser trois formes principales d'empathie : l'empathie aperceptive générale pour les formes linéaires et les formes sonores ; l'empathie dite intersubjective pour l'apparence sensible des êtres humains et notamment pour leurs expressions ; enfin l'empathie pour les œuvres d'art qui son tour inclut l'empathie esthétique et l'empathie pratique.

En dialogue avec Vladimir Jankélévitch Enrica Lisciani-Petrini, 2014-04-29T00:00:00+02:00 Modéliser une pensée capable d'entrevoir la réalité dans son dépliement fugace en une multiplicité d'éléments singuliers en vitant les paradigmes universalistes traditionnels telle est la question qui traverse de part en part notre temps. Vladimir Jankélévitch a su relever la hauteur d'un tel enjeu. Tout son travail situé au croisement de divers langages de la philosophie, la musique, de l'anthropologie, l'ethique vise à entrevoir le caractère insaisissable et paradoxal des choses. Sans jamais donner dans un minimalisme facile mais en restant au contraire fidèle à l'exigence d'une plus grande vigilance de la pensée et ce jusqu'à l'intransigeance précisément raison de la complexité difficile du réel. Le présent volume qui rassemble outre les interventions du colloque qui s'est tenu à Rome l'occasion du centenaire de la naissance de Vladimir Jankélévitch des contributions nouvelles ainsi que deux textes du philosophe met en évidence la vitalité d'une telle perspective en nouant avec elle en provenance de nombreux spécialistes venus de divers horizons un dialogue serré et stimulant.

Visiones desafinadas. Prácticas y representaciones de la guitarra en Madrid y en Andalucía (1883-1922) Trancart, Vinciane, 2019-12-17 Durante la Restauración se alude a menudo a la guitarra como instrumento nacional en Madrid y Andalucía. Este lugar común aparece como un símbolo paradigmático de una identidad en debate: el cliché simplifica la realidad mientras que las prácticas de la guitarra popular clásica y flamenca se diversifican. Las cada vez más numerosas representaciones literarias y plásticas no reflejan esas mutaciones sino que impregnan el imaginario colectivo influenciando la recepción de un instrumento desconocido o incluso rechazado según criterios sociomorales. Pese a las críticas la guitarra posee una dimensión simbólica propia del nacionalismo banal y manifiesta a través de la emoción que suscita.
