Excerpta Cypria For Today A Source On The Cyprus Problem:

Excerpta Cypria for Today Andrew Faulds, 1988 **The Cyprus Question as an Issue of Turkish Foreign Policy and Turkish-American Relations, 1959-2003** Nasuh Uslu, 2003 This book mainly focuses on the Cyprus question as a pivotal issue of Turkish foreign policy and Turkish American relations The Cyprus question was a constant factor in US Turkish relations in the past and it still conditions the Turkish American alliance which is an important element of the present international relations The period covered in this book is from 1960 1975 After experiencing a perfect honeymoon period in the 1950s the durability strength and cohesion of the US Turkish alliance were tested by severe problems between 1960 and 1975 At the core of all the problems was there the Cyprus question affecting the general tendency of the relationship between the two countries and the attitude of policy makers of both states Finally the period covering from 1974 onward up to the present is generally studied with particular emphasis on Turkish American relations and a supplementary chapter at the end of the book gives the latest developments from the Turkish point of view *The History and Politics of the Cyprus Conflict* Clement Dodd, 2010-04-21 The Cyprus conflict was for long an inactive volcano but it erupted violently in 1955 1963 and 1974 Now more of a smouldering fire its persistence is a serious obstacle on Turkey's route to EU accession Uniquely utilizing Turkish sources this book looks at how the conflict has developed since 1978 **Zeki Kuneralp and the Turkish Foreign Service** Yücel Güçlü, 2015-06-18 This book is not a conventional biography It is not only a portrait of a larger than life Turkish diplomat whose Foreign Service career spanned almost four decades from 1941 to 1979 but also offers a glimpse into the evolution of the organization of the Turkish Ministry of Foreign Affairs and provides an account of the attitudes and methods of the Ministry's officials A good biography should cast light upon its subject's times as well as his or her life upon the way things were done as much as upon the way a particular individual reacted and behaved As such in this book not only is Zeki Kuneralp the man addressed but also the great developments of his time are explored extensively The book blends biographical narrative with explorations of various aspects of the foreign policy issues with which Kuneralp was involved The book treats in detail the major problems with which Kuneralp was directly concerned at each of his postings that is meeting the right people abroad promoting Turkish interests reporting to the Ministry of Foreign Affairs subordinating local matters to the political and economic goals of Turkey and conducting diplomacy so as always to be in accord with Ankara's policy makers whose big picture he always kept in mind *The Minorities of Cyprus* Nicholas Coureas, Marina Elia, Andrekos Varnava, 2009-05-27 This book examines the various minorities living in the island of Cyprus from the early modern late Venetian and early Ottoman period down to the present day It charts their history with special emphasis on their relations with the powers ruling Cyprus and with the two dominant Christian Greek and Muslim Turkish communities The theme running through the book is that despite being significant members of Cyprus society the three historical minorities Maronites Armenians and Latins were only included in society to a certain extent by the two major communities This was

formalised in the post independence 1960 period when they were compelled to become members of either dominant community and thus they suffered internal exclusion by being regarded as religious sub groups of one of the two dominant communities rather than national minorities in their own right Within this general context the social legal and political roles customs culture and language of the various minorities are examined as they evolved through time and in response to internal and external developments affecting Cyprus in the political economic and global spheres They are discussed not as static entities but as evolving groups that have adapted with greater or lesser degrees of success to the radical and at times painful changes Cyprus has undergone especially over the last 150 years in all walks of life Finally the question of what the future holds for the minorities of the island in the light of Cyprus EU membership and the prospect of reunification are also analysed This book is a product of the conference Minorities of Cyprus Past Present and Future which was held on 24 and 25 November 2007 at the European University Cyprus Cypriot Cinemas Costas Constandinides, Yiannis

Papadakis, 2016-05-19 Cyprus the idyllic island of Aphrodite is better known as a site of conflict and division between Greek Cypriots and Turkish Cypriots rather than for its film production Constandinides and Papadakis work to rectify this dearth of information by discussing the oeuvre of filmmakers engaging with the island's traumatic legacies anti colonial struggles post colonial instability interethnic conflict external interventions and war Starting with the cinema of the 1960s when the island became a republic the collection focuses on the recent decades of filmmakers exploring issues of conflict memory identity nationalism migration and gender as well as the work of filmmakers who chose to cooperate across the ethnic divide Cypriot Cinemas utilizes a methodology that engages all necessary perspectives for an illuminating critical discussion historical theoretical and comparative Greek Cypriot and Turkish Cypriot films in relation to regional film cultures practices While the volume develops a discussion based on the reading of the political in Cypriot films it also looks at other film cultures and debates such as exploitation films and transnational cinema Peace Versus Justice I. Kollektive Nichtanerkennung illegaler Staaten Stefan Talmon, 2006 English summary The question of the legal effect of the recognition of new entities that call themselves states has been characterized for over a century by the intense debate between the constitutive and the declaratory schools of thought An examination of the American British and German state practice in the case of the internationally non recognized Turkish Republic of Northern Cyprus however shows that none of the two theories can satisfactorily explain the non recognition as a state of an entity that meets all the international legal criteria for statehood but that has been created in violation of a fundamental norm of international law Non recognition of an existing state can neither have status preventing nor status confirming effect it can only have status denying i e negatory effect Collective non recognition has been employed by the international community since the 1930s as a sanction against serious breaches of fundamental norms of international law affecting the international community as a whole Initially coordinated by the League of Nations it is now administered by the United Nations Non recognition as a state means that other states do not just withhold all optional or discretionary relations and the resulting rights and privileges from an illegal state but that they deny it all the rights powers and privileges inherent in statehood German description Mehr als 100 Jahre war die Debatte uber die Wirkung der Anerkennung von Staaten gepragt von der Auseinandersetzung zwischen der deklaratorischen und der konstitutiven Theorie Am Beispiel der international nicht anerkannten Turkischen Republik Nord Zypern zeigt Stefan Talmon dass keine der beiden Theorien die Nichtanerkennung von Wirkungseinheiten erklaren kann die die Staatskriterien erfullen aber unter Verstoß gegen das Volkerrecht entstanden sind Der Nichtanerkennung eines bestehenden Staates kommt weder statusverhindernde noch statusbestatigende sondern statusverneinende d h negatorische Wirkung zu Bei der kollektiven Nichtanerkennung handelt es sich um eine von der Staatengemeinschaft seit den 30er Jahren des 20 Jahrhunderts eingesetzte Sanktion gegen schwerwiegende die wesentlichen Interessen der Staatengemeinschaft als Ganzes verletzende

Shapiro, 2012 This edited volume seeks to propose and examine different though related critical responses to modern cultures of war among other cultural practices of statecraft Taken together these essays present a space of creative engagement with the political and draw on a broad range of cultural contexts and genres of expressions to provoke the thinking that exceeds the conventional stories and practices of international relations In contrast to a macropolitical focus on state policy and inter state hostilities the contributors to this volume treat the micropolitics of violence and dissensus that occur below besides and against the level and gaze that comprehends official map making policy making and implementation practices At a minimum the counter narratives presented in these essays disturb the functions identities and positions assigned by the nation state thereby multiplying relations between bodies the worlds where they live and the ways in which they are equipped for fitting in them Contributions deploy feature films literature photography architecture to think the political in ways that offer glimpses of realities that are fugitive within existing perspectives Bringing together a wide range of theorists from a host of geographical cultural and theoretical contexts this work explores the different ways in which an aesthetic treatment of world politics can contribute to an ethics of encounter predicated on minimal violence in encounters with people with different practices of identity This work provides a significant contribution to the field of international theory encouraging us to rethink politics and ethics in the world today
