Excursion to Tindari Andrea Camilleri, **Excursion to Tindari** Andrea Camilleri (Schriftsteller, Regisseur), 2006 **The Shadow of the Precursor** Nena Bierbaum, 2011-10-18 A shadow in its most literal sense is the projection of a silhouette against a surface and the obstruction of direct light from hitting that surface For writers and artists the shadows cast by their precursors can be either a welcome influence one consciously evoked in textual production via homage or bricolage or can manifest as an intrusive haunting prohibitive presence one which threatens to engulf the successor Many writers and artists are affected by an anxious and ambiguous relationship with their precursors while others are energised by this relationship The role that intertextuality plays in creative production invites interrogation and this publication explores a range of conscious and unconscious influences informing relations between texts and contexts between predecessors and successors The chapters revolve around intertextual influence ranging from conscious imitation and intentional allusion to Julia Kristeva s idea of intertextuality Do all texts contain references to and even quotations from other texts Do such references help shape how we read This multidisciplinary work includes chapters on the long shadows cast by Shakespeare Dante Scott Virgil and Ovid the shadows of colonial precursors on postcolonial successors the shadows cast over Kipling and Murdoch and chapters on other writers dramatists and filmmakers and their relationships with precursor figures With its focus on intertextual relationships this book contributes to the thriving fields of adaptation studies and studies of intertextuality

Sicilian Elements in Andrea Camilleri's Narrative Language Cinzia Russi, 2020-10-14 Sicilian Elements in Andrea Camilleri's Narrative Language examines Camilleri's unique linguistic repertoire and techniques over his career as a novelist. It focuses on the intensification of Sicilian linguistic features in Camilleri's narrative works in particular features pertaining to the domains of sounds and grammar since these have been marginalized in linguistic centered research on the evolution of Camilleri's narrative language and remain overall understudied. Through a systematic comparative analysis of the distribution patterns of selected Sicilian features in a selection of Camilleri's historical novels and novels of the Montalbano series the author identifies the individual features that have become most widespread and the lexical items that are targeted with highest frequency and consistency. The results of the analysis show that in the earlier novels Sicilian features are rather sparse and can be attributed to linguistic situational functionality that is they function as indices of salient distinctive aspects of topics settings events situations and characters. Conversely in the latest novels Sicilian elements pervade the entire novels and the texts are written almost entirely in Camilleri's own Sicilian *vigatese* so that Sicilian is stripped of any linguistic situational functionality.

The Importance of Place in Contemporary Italian Crime Fiction Barbara Pezzotti, 2012-09-20 An analysis of the relationship between detective fiction and its setting this book is the most wide ranging examination of the way in which Italian detective fiction in the last 20 years has become a means to articulate the changes in the social landscape of the country.

Italian Crime Fiction Giuliana Pieri, 2011-10-15 The present volume is the first study in the English language to focus specifically on Italian crime fiction weaving together a historical perspective and a thematic approach with a particular focus on the representation of space especially city space gender and the tradition of *impegno* the social and political engagement which characterised the Italian cultural and literary scene in the postwar period. The 8 chapters in this volume explore the distinctive features of the Italian tradition from the 1930s to the present by focusing on a wide range of detective and crime novels by selected Italian writers some of whom have an established international reputation such as C. E. Gadda, L. Sciascia and U. Eco whilst others may be relatively unknown such as the new generation of crime writers of the Bologna school and Italian women crime writers. Each chapter examines a specific period movement or group of writers as well as engaging with broader debates over the contribution crime fiction makes more generally to contemporary Italian and European culture. The editor and contributors of this volume argue strongly in favour of reinstating crime fiction within the canon of Italian modern literature by presenting this once marginalised literary genre as a body of works which when viewed without the artificial distinction between high and popular literature shows a remarkable insight into Italy's postwar history tracking its societal and political troubles and changes as well as often also engaging with metaphorical and philosophical notions of right or wrong evil redemption and the search of the self.
