Excursions into Modernism Joyce Kelley, 2017-05-15 Positioned at a crossroads between feminist geographies and modernist studies *Excursions into Modernism* considers transnational modernist fiction in tandem with more rarely explored travel narratives by women of the period who felt increasingly free to journey abroad and redefine themselves through travel In an era when Western artists writers and musicians sought primitive ideas for artistic renewal Joyce E Kelley locates a key similarity between fiction and travel writing in the way women authors use foreign experiences to inspire innovations with written expression and self articulation She focuses on the pairing of outward journeys with more inward introspective ones made possible through reconceptualizing and mobilizing elements of women s traditional corporeal and domestic geographies the skin the ill body the womb and the piano In texts ranging from Jean Rhys s *Voyage in the Dark* to Virginia Woolf s *The Voyage Out* and from Evelyn Scott s *Escapade* to Dorothy Richardson s *Pilgrimage* Kelley explores how interactions between geographic movement identity formation and imaginative excursions produce modernist experimentation Drawing on fascinating supplementary and archival materials such as letters diaries newspaper articles photographs and unpublished drafts Kelley s book cuts across national and geographic borders to offer rich and often revisionary interpretations of both canonical and lesser known works

Excursions with Thoreau Edward F. Mooney, 2015-10-22 *Excursions with Thoreau* is a major new exploration of Thoreau s writing and thought that is philosophical yet sensitive to the literary and religious Edward F Mooney s excursions through passages from *Walden* *Cape Cod* and his late essay *Walking* reveal Thoreau as a miraculous writer artist and religious adept Of course Thoreau remains the familiar political activist and environmental philosopher but in these fifteen excursions we discover new terrain Among the notable themes that emerge are Thoreau s grappling with underlying affliction his pursuit of wonder as ameliorating affliction his use of the enigmatic image of a child of the mist his exalting sympathy with intelligence over plain knowledge and his preferring befitting reverie not argument as the way to be carried to better cleaner perceptions of reality Mooney s aim is bring alive Thoreau s moments of reverie and insight and to frame his philosophy as poetic and episodic rather than discursive and systematic
