

Exercises in Modern English Grammar

A. C. Саакян

От автора

Предлагаемая Вашему вниманию книга "Exercises in Modern English Grammar" представляет собой учебное пособие по систематическому курсу грамматики современного английского языка. Идея написания книги возникла в связи с теми ностальгическими чувствами, которые испытывают многие преподаватели английского языка при упоминании учебника "Exercises in Modern English Grammar", авторами которого являлись Ю.А. Крутиков, И.С. Кузьмина, Х.В. Рабинович и на котором выросло не одно поколение учителей английского языка в России.

Данное учебное пособие предназначено для старшеклассников, желающих повторить, закрепить и расширить те базовые знания в английской грамматике, которые они получили в средней школе. Оно может быть успешно использовано студентами второго и третьего курсов факультетов английского языка. Большую помощь книга может оказать также учителям средних школ, гимназий и колледжей, различных подготовительных курсов. Не будучи увязанным ни с одним учебником, пособие может гибко сочетаться с любым базисным курсом английского языка, используемым в учебном процессе. Учебное пособие состоит из двух разделов — Морфологии и Синтаксиса, включающих в себя упражнения аналитического, тренировочного и творческого характера. Большое число коммуникативно ориентированных заданий дает учащимся возможность вывести в речь полученные знания и навыки. Особое внимание уделяется упражнениям сопоставительного характера, позволяющим вскрыть существенные различия в употреблении ряда грамматических явлений в английском и русском языках. В учебнике отражены новейшие явления и тенденции, возникающие в системе английского языка на рубеже тысячелетий. Каждый раздел завершается рядом тестовых заданий, дающих возможность проверить уровень знаний. В пособии даны ключи к тестовым заданиям, так как их наличие даёт возможность осуществить самоконтроль и само коррекцию полученных знаний. Данное учебное пособие имеет современное звучание, так как построено на основе фактического материала, представляющего собой литературный и разговорный язык Великобритании и США конца XX и начала XXI века.

Надеемся, что работа по предлагаемому учебному пособию будет для Вас полезной и приятной.

Exercises In Contemporary English:

Exercises in Contemporary English John Algeo, 1974 These exercises have been designed to accompany A CONCISE GRAMMAR OF CONTEMPORARY ENGLISH CGCE by Randolph Quirk and Sidney Greenbaum with each exercise keyed to a section of that book The exercises fall into several groups Some provide practice in using the grammatical categories and terms of CGCE by asking students to apply them in the analysis of sentences Some increase students awareness of the structure of English and its grammatical flexibility Others call students attention to usage problems or provide the basis for a discussion of nuances between alternate grammatical forms Throughout the exercises grammar book English has been avoided in favor of natural often colloquial sentences While these exercises are compatible with transformational or other approaches to grammar they view English primarily from the standpoint of an enlightened traditionalism
