Exiting Nirvana:

Intelligent Love Marga Vicedo, 2021-03-23 Winner of the History of Science Society's 2022 Davis Prize How one mother challenged the medical establishment and misconceptions about autistic children and their parents In the early 1960s Massachusetts writer and homemaker Clara Park and her husband took their 3 year old daughter Jessie to a specialist after noticing that she avoided connection with others Following the conventional wisdom of the time the psychiatrist diagnosed Jessie with autism and blamed Clara for Jessie's isolation Experts claimed Clara was the prototypical refrigerator mother a cold intellectual parent who starved her children of the natural affection they needed to develop properly Refusing to accept this Clara decided to document her daughter's behaviors and the family's engagement with her In 1967 she published her groundbreaking memoir challenging the refrigerator mother theory and carefully documenting Jessie's development Clara's insights and advocacy encouraged other parents to seek education and support for their autistic children Meanwhile Jessie would work hard to expand her mother's world and ours Drawing on previously unexamined archival sources and firsthand interviews science historian Marga Vicedo illuminates the story of how Clara Park and other parents fought against medical and popular attitudes toward autism while presenting a rich account of major scientific developments in the history of autism in the US *Intelligent Love* is a fierce defense of a mother's right to love intelligently the value of parents' firsthand knowledge about their children and an individual's right to be valued by society [Exiting Nirvana](#) Clara Claiborne Park, 2009-06-27 The author of *The Siege* provides readers with what is perhaps the finest exposition of a parent's decades long experience with a child with autism Jeffrey L Geller MD MPH Psychiatric Services *Exiting Nirvana* details Clara Claiborne Park's continuing efforts to have her adult daughter Jessie develop as an artist and connect with our world Park has been both mother and anthropologist recording verbal and social breakthroughs and setbacks administering praise and succor She describes the serene insularity of the autistic's Nirvana and observes collisions between the autistic and external worlds She's urged Jessie to enter yet never entirely the extraordinary dailiness inhabited by nonautistic people In incisive often exquisite prose Park affords entry into Jessie's and her own remarkable journey between the two Publishers Weekly Beautifully written a fascinating excursion into an otherworldly mind The New York Times Park's second book on her daughter Jessie the first appeared in 1967 when Jessie was eight is a perceptive detailed and empathetic account not of autism but of the experience of autism A warm levelheaded neither overly optimistic nor overly glorified book that proves very rewarding Booklist This beautifully crafted portrait of an autistic adult artist includes color reproductions of Jessie's paintings with descriptions in her own handwriting Library Journal This beautifully written book is must reading and not only for those seeking an understanding of autism Bernard Rimland Director The Autism Research Institute [Girls Growing Up on the Autism Spectrum](#) Shana Nichols, 2009-01-15 This book covers the concerns faced by girls with ASDs and their parents from periods and puberty to friendships and fitting in Looking at these issues within the context of specific areas of difficulty for girls with

ASDs the authors provide families with the knowledge and advice they need to help the whole family through the teenage years *Chasing the Intact Mind* Amy S. F. Lutz, 2023-09-20 In *Chasing the Intact Mind* Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces historic patterns of discrimination that yoked human worth to intelligence and that it is only by making space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care *Unexpected* Alison Piepmeier, 2021-02-23 What prenatal tests and down syndrome reveal about our reproductive choices When Alison Piepmeier scholar of feminism and disability studies and mother of Maybelle an eight year old girl with Down syndrome died of cancer in August 2016 she left behind an important unfinished manuscript about motherhood prenatal testing and disability In *Unexpected* George Estreich and Rachel Adams pick up where she left off honoring the important research of their friend and colleague as well as adding new perspectives to her work Based on interviews with parents of children with Down syndrome as well as women who terminated their pregnancies because their fetus was identified as having the condition *Unexpected* paints an intimate nuanced picture of reproductive choice in today's world Piepmeier takes us inside her own daughter's life showing how Down syndrome is misunderstood stigmatized and condemned particularly in the context of prenatal testing At a time when medical technology is rapidly advancing *Unexpected* provides a much needed perspective on our complex and frequently troubling understanding of Down syndrome *With the Light... Vol. 1* Keiko Tobe, 2016-12-20 Born during the sunrise an auspicious beginning the Azuma's newborn son is named Hikaru which means light But during one play date his mother notices that her son is slightly different from the other children In the alternately heartwarming and bittersweet tale a young mother tries to cope with both the overwhelming discovery of her child's autism and the trials of raising him while keeping her family together This is a story that resonates not only for those whose families have been affected by autism but also for all past present and future parents **With the Light... Vol. 2** Keiko Tobe, 2016-12-20 Sachiko and Masato Azuma have overcome numerous obstacles in dealing with their firstborn son Hikaru's autism Having saved their marriage from ending in ruins the young couple has welcomed a healthy baby girl Kanon into their tight knit family But with the obvious differences between Hikaru's and Kanon's developmental abilities it becomes apparent that social prejudices against Hikaru's disability are never far away As Hikaru moves into fourth grade Sachiko encounters a new student Miyu whose mother has completely given up on her daughter's life and her own With the help of Hikaru's beloved teacher Aoki sensei Sachiko aims to bring hope back to Miyu's family But when Aoki sensei transfers to a different school and Hikaru's special education class is thrown into upheaval by yet another tragedy can Sachiko continue to hold on to her own hope for her son's future **Autism and Representation** Mark

Osteen,2010-04-26 This volume the first scholarly book on autism and the humanities brings scholars from several different disciplines together with adults on the autism spectrum to investigate the diverse ways that autism has been represented in novels poems autobiographies films and clinical discourses and to explore the connections and demarcations between autistic and normal creative expression *The Politics of Autism* Dr. Bryna Siegel,2018-08-01 The Politics of Autism investigates the truths and fictions of public understanding about autism questioning apparent realities too sensitive or impolitic to challenge Is there really more autism How has the count expanded by diagnosing autism over other conditions Have scientific methods in autism diagnosis gone hand in hand with autism increases Are mild autism cases really a disorder rather than personality variant Can autism be quiescent in childhood but truly first recognizable in adulthood Why does popular media often portray people with autism as odd geniuses ignoring the kind of autism most have Siegel tackles thorny issues and perennial questions How do we weigh likely treatment gains with treatment costs Why does our autism education persist in teaching academic subjects some never master Why do we fail to plan realistically for autistic adulthood Which parents get caught up in non mainstream treatments and fear of vaccines Readers will see an insider s view of controversies in autism research Siegel s views sometimes iconoclastic always frank and informed challenge broad unexamined assumptions about our understanding of autism Each chapter addresses different issues data and social policy recommendations A chapter by chapter bibliography with URLs provides both popular media and scientific references Voices of Mental Health Martin Halliwell,2017-10-02 This dynamic and richly layered account of mental health in the late twentieth century interweaves three important stories the rising political prominence of mental health in the United States since 1970 the shifting medical diagnostics of mental health at a time when health activists advocacy groups and public figures were all speaking out about the needs and rights of patients and the concept of voice in literature film memoir journalism and medical case study that connects the health experiences of individuals to shared stories Together these three dimensions bring into conversation a diverse cast of late century writers filmmakers actors physicians politicians policy makers and social critics In doing so Martin Halliwell s *Voices of Mental Health* breaks new ground in deepening our understanding of the place politics and trajectory of mental health from the moon landing to the millennium **Different Kinds of Minds** Temple Grandin, Ph.D.,2023-11-28 Albert Einstein Steve Jobs Elon Musk Katharine Johnson These geniuses are all visual thinkers Are you Do you like puzzles coding and taking things apart Do you write stories act in plays slay at Wordle The things you are good at are clues to how your brain works Are you good at math Working with your hands Are you a neat freak or a big mess With her knack for making science easy to understand Temple Grandin explains different types of thinkers verbal thinkers who are good with language and visual thinkers who think in pictures and patterns You will discover all kinds of minds and how we need to work together to create solutions to help solve real world problems Contemplating Dis/Ability in Schools and Society David J. Connor,2018-07-15 This book chronicles the professional life of a career long inclusive educator in New York

City through eight different stages in special and general education Developing a new approach to research as part of qualitative methodology David J Connor merges the academic genre of autoethnography with memoir to create a narrative that engages the reader through stories of personal experiences within the professional world that politicized him as an educator After each chapter s narrative a systematic analytic commentary follows that focuses on teaching and learning in schools and universities the influence of educational laws specific models of disability and how influence educators and educational researchers and educational structures and systems including their impact on social political and cultural experiences of people with disabilities This autoethnographic memoir documents over three decades the relationship between special and general education the growth of the inclusion movement and the challenge of special education as a discrete academic field As part of a national group of critical special educators Connor describes the growth of counter theory through the inception and subsequent growth of DSE as a viable academic field and the importance of rethinking human differences in new ways

Pre-Schoolers with Autism Avril Brereton, Bruce Tonge, 2005-01-15 This training programme has been developed in response to a real need for evidence based early interventions for very young autistic children It is designed to reduce the severity of emotional behavioural difficulties by managing a child s particular problems and encouraging effective collaboration between professionals and parents

Contesting Illness Katherine Anne Teghtsoonian, Pamela Moss, 2008-01-01 Contesting Illness offers valuable insights into the assumptions practices and interactions that shape illness in the twenty first century

A Parent's Guide to High-Functioning Autism Spectrum Disorder, Second Edition Sally Ozonoff, Geraldine Dawson, James C. McPartland, 2014-11-13 Packed with real life stories and everyday problem solving ideas this book has given many tens of thousands of parents the facts they need about high functioning autism spectrum disorder ASD including Asperger syndrome The authors are leading experts who describe ways to work with these kids unique impairments and capabilities so they can grow into happy self sufficient adults Parents learn practical strategies for helping their son or daughter relate more comfortably to peers learn the rules of appropriate behavior and succeed in school The book also discusses what scientists currently know about ASD and how it is diagnosed as well as what treatments and educational supports have been shown to work Updated with the latest research resources and clinical strategies the second edition clearly explains the diagnostic changes in DSM 5

Visual Thinking Temple Grandin, Ph.D., 2023-10-10 INSTANT NEW YORK TIMES BESTSELLER WINNER OF THE NAUTILUS GOLD AWARD A powerful and provocative testament to the diverse coalition of minds we ll need to face the mounting challenges of the twenty first century Steve Silberman An absolute eye opener Frans de Waal A landmark book that reveals celebrates and advocates for the special minds and contributions of visual thinkers A quarter of a century after her memoir Thinking in Pictures forever changed how the world understood autism Temple Grandin an anthropologist on Mars as Oliver Sacks dubbed her transforms our awareness of the different ways our brains are wired Do you have a keen sense of direction a love of puzzles the ability to

assemble furniture without crying You are likely a visual thinker With her genius for demystifying science Grandin draws on cutting edge research to take us inside visual thinking Visual thinkers constitute a far greater proportion of the population than previously believed she reveals and a more varied one from the photo realistic object visualizers like Grandin herself with their intuitive knack for design and problem solving to the abstract mathematically inclined visual spatial thinkers who excel in pattern recognition and systemic thinking She also makes us understand how a world increasingly geared to the verbal tends to sideline visual thinkers screening them out at school and passing over them in the workplace Rather than continuing to waste their singular gifts driving a collective loss in productivity and innovation Grandin proposes new approaches to educating parenting employing and collaborating with visual thinkers In a highly competitive world this important book helps us see we need every mind on board

Ordinary Families, Special Children, Third Edition Milton Seligman, Rosalyn Benjamin Darling, 2009-02-23 This popular clinical reference and text provides a multisystems perspective on childhood disability and its effects on family life The volume examines how child family ecological and sociocultural variables intertwine to shape the ways families respond to disability and how professionals can promote coping adaptation and empowerment Accessible and engaging the book integrates theory and research with vignettes and firsthand reflections from family members

Willard and Spackman's Occupational Therapy Barbara A. Schell, Glen Gillen, Marjorie Scaffa, Ellen S. Cohn, 2013-03-08 Willard and Spackman's Occupational Therapy Twelfth Edition continues in the tradition of excellent coverage of critical concepts and practices that have long made this text the leading resource for Occupational Therapy students Students using this text will learn how to apply client centered occupational evidence based approach across the full spectrum of practice settings Peppered with first person narratives which offer a unique perspective on the lives of those living with disease this new edition has been fully updated with a visually enticing full color design and even more photos and illustrations Vital pedagogical features including case studies Practice Dilemmas and Provocative questions help position students in the real world of occupational therapy practice to help prepare them to react appropriately

The Comprehensive Autism Planning System (CAPS) Shawn Henry, Brenda Smith Myles, 2024-08-06 The Comprehensive Autism Planning System for Individuals CAPS is a reflection of its creator In his role as a state and national leader Shawn Henry serves as an advocate for autistic individuals Shawn and co author Brenda Smith Myles clearly describe each element of the CAPS model in a well organized text Throughout the book the authors and expert contributors highlight a variety of evidence based strategies that correspond to each area of the CAPS The CAPS model illustrates their ability to create meaningful change through realistic and practical means It's a simple yet powerful system This innovative approach helps teachers and educational teams plan and implement a student's education across the school including the Individualized Education Program IEP and the curriculum relevant to the student It takes the team through the process of planning out the goals objectives to be targeted in each activity of the day the modifications and accommodations that should be provided to

support the student in each activity the sensory supports needed to help the student stay engaged and the communication and social supports for successful learning It shows the type of data to collect for each area and helps to note what reinforcers have been shown to be successful While this system was developed for use with individuals on the autism spectrum it can also be an essential tool for any student regardless of the types of supports and needs they have There are also vocational and transitional formats that are available for students making the transition to work The CAPS has been updated to address current trends in special education instruction and research In this edition emphasis is placed on Inclusion Successful practices that support learning for autistic students Updated evidence based practices and case studies that apply the CAPS system to post secondary education and employment Through the CAPS autistic individuals have access to meaningful instruction that will allow them to reach their potential
