**The Politics of Empire** James Petras, 2014-10-01 This book provides a unique conception of US empire building linking overseas expansion with 1 the growth of a police state and declining living standards 2 advanced technologically driven global spying on adversaries and allies with declining economic competitiveness and military defeats 3 large scale long term commitments of economic and military resources to wars in the Middle East to the detriment of major corporate interests but for the benefit of a pariah state Israel and 4 the power of a foreign state Israel over US policy via its domestic pro Zionist power configuration The interplay of these four specific features of US empire building has no past or present precedent among imperial states Because of Israeli Zionist influence on US imperial policy the main targets and objectives of imperial wars are located in the Middle East The objectives of Israeli and Zionist influenced US policy in the Middle East is to enhance Israeli regional power and the dispossession of the Palestinian people The trillion dollar cost of US wars for Israel however has alienated the vast majority of US society and driven a wedge between the political elite backing new wars for Israel and the public prioritizing of domestic economic welfare This study highlights how the domestic foundations of empire building have deteriorated and forced the imperial presidency to modify its approach seeking diplomatic negotiations over new military interventions specifically in the cases of Syria and Iran Imperial politics is viewed as a multi sided power struggle between military and economic elites Israel and the Zionist power configuration overseas resistance movements and nationalist regimes and the US public The resolution of this power struggle is more than an academic question it will

determine whether the US will become a full blown police state ruled by the pawns of a racist colonial state engaged in endless wars or return to its roots as an independent democratic republic free of foreign entanglements **Disconnected Operation in a Distributed File System** James J. Kistler,1995-12-13 This book is based on the author s PhD thesis which was selected during the 1993 ACM Doctoral Dissertation Competition as one of the three best submissions The focus of this work is on the issue of availability in distributed file systems It presents the important new technique called disconnected operation in which clients mask failures and voluntary network detachments by emulating the functionality of servers where actual server oriented solutions are inadequate This permits client operation even under complete isolation from the server the clean integration of mobile computers into the system is an important side effect of the new technique The design and implementation of disconnected file service in a working system the Coda file system is described in detail **Expanding Earth (A Novella) and Genesis as Metaphor (An Essay)** Norman Nathan,2015-09-04 Expanding Earth a novella Family members recall Dr Nathan talking about the works futuristic vision of planet earths biosphere being so burdened with the densest ever human population that conditions require most people to live a subterranean existence There simply is insufficient above ground dry land capacity to accommodate all members of the species at ground level Dr Nathan believed that the story could support an engaging entertaining and provocative movie given its context set in an earth that is more overpopulated than imagined in any other book The novella was intended as a satirical warning of Malthusian eventualities if humans continue to fail to take control of their potential fate In a 2004 letter Dr Nathan described the book as dealing with a problem that is worldwide The writing is plot driven and contains a wide variety of characters Many readers will find in it an underlying satire of current events Genesis as Metaphor an essay Dr Nathan enjoyed teaching a university and life long learning course titled The Bible as Literature He had observed that most authors writing about the Bible appeared to be bound by a particular religious belief system and were much less interested in the Bible as a literary tome than as religious doctrine He was sympathetic to presenting Catholic Jewish Protestant Islamic and Fundamentalist interpretations as part of the course but he insisted they be treated only as particular interpretations The Genesis as Metaphor essay exemplifies his approach to this subject area **Expanding Frontiers in South Asian and World History** Richard M.
