## **Investigating Obsolescence Studies In Language Contraction And Death:**

**Investigating Obsolescence** Nancy C. Dorian,1992-09-03 This collection will certainly stimulate further and better coordinated research into a topic of direct relevance to sociolinguistics and anthropological linguistics **The Handbook of Language Contact** Raymond Hickey,2013-04-24 The Handbook of Language Contact offers systematic coverage of the major issues in this field ranging from the value of contact explanations in linguistics to the impact of immigration to dialectology combining new research from a team of globally renowned scholars with case studies of numerous languages An authoritative reference work exploring the major issues in the field of language contact the study of how language changes when speakers of distinct speech varieties interact Brings together 40 specially commissioned essays by an international team of scholars Examines language contact in societies which have significant immigration populations and includes a fascinating cross section of case studies drawing on languages across the world Accessibly structured into sections exploring the place of contact studies within linguistics as a whole the value of contact studies for research into language change and language contact in the context of work on language and society Explores a broad range of topics making it an excellent resource for both faculty and students across a variety of fields within linguistics **Language Crisis in the Ryukyus** Mark Anderson,Patrick Heinrich,2015-01-12 Long denigrated as dialects of Japanese the Ryukyuan languages are today recognized as languages in their own right However speakers of Ryukyuan languages have suffered from stigmatization oppressive language policies and domination from outside the Ryukyu Archipelago As a result the Ryukyuan languages are now severely endangered This volume depicts roughly in chronological order aspects which have led to the language crisis in the Ryukyus today Taking account of these factors is important because endangered languages can only be maintained and revitalized on the basis of a comprehensive understanding of why these languages became endangered in the first place The chapters of this book have been written by leading experts in Ryukyuan sociolinguistics and the scope encompasses the entire field It sheds light on the dark side of language modernization on a misplaced obsession with monolingualism and on Japan s difficulties in surmounting its invented self image **Language Planning and Policy** Anthony Liddicoat,Richard B. Baldauf,2008 Language problems potentially exist at all levels of human activity including the local contexts of communities institutions This volume explores the ways in which language planning works as a local activity in a wide variety of contexts around the world deals with a wide range of language planning issues **The Oxford Handbook of Language Contact** Anthony P. Grant,2020-01-10 Every language has been influenced in some way by other languages In many cases this influence is reflected in words which have been absorbed from other languages as the names for newer items or ideas such as perestroika manga or intifada from Russian Japanese and Arabic respectively In other cases the influence of other languages goes deeper and includes the addition of new sounds grammatical forms and idioms to the pre existing language For example English s structure has been shaped in such a way by the effects of Norse French Latin and Celtic though

English is not alone in its openness to these influences Any features can potentially be transferred from one language to another if the sociolinguistic and structural circumstances allow for it Further new languages pidgins creoles and mixed languages can come into being as the result of language contact In thirty three chapters The Oxford Handbook of Language Contact examines the various forms of contact induced linguistic change and the levels of language which have provided instances of these influences In addition it provides accounts of how language contact has affected some twenty languages spoken and signed from all parts of the world Chapters are written by experts and native speakers from years of research and fieldwork Ultimately this Handbook provides an authoritative account of the possibilities and products of contact induced linguistic change

**Handbücher zur Sprach- und Kommunikationswissenschaft** Hans Goebel, Herbert Ernst Wiegand, 1996 *Routledge Dictionary of Language and Linguistics* Hadumod Bussmann, 2006-02-20 The Routledge Dictionary of Language and Linguistics is a unique reference work for students and teachers of linguistics The highly regarded second edition of the Lexikon der Sprachwissenschaft by Hadumod Bussmann has been specifically adapted by a team of over thirty specialist linguists to form the most comprehensive and up to date work of its kind in the English language In over 2 500 entries the Dictionary provides an exhaustive survey of the key terminology and languages of more than 30 subdisciplines of linguistics With its term based approach and emphasis on clear analysis it complements perfectly Routledge's established range of reference material in the field of linguistics

**Africa's Endangered Languages** Jason Kandybowicz, Harold Torrence, 2017-07-10 Relatively little is known about Africa's endangered languages Unlike indigenous languages in Australia North Asia and the Americas which are predominantly threatened by colonizers African languages are threatened most immediately by other local languages As a result the threat of language extinction is perceived as lower in Africa than in other parts of the globe and a disproportionate amount of research is devoted to the study of endangered African languages when compared to any other linguistically threatened region in the world There are approximately 308 highly endangered languages spoken in Africa roughly 12% of all African languages and at least 201 extinct African languages This volume hopes to illuminate and challenge this trend Chapters offer both documentary and theoretical perspectives emphasizing the symbiotic relationship between the two approaches and its implications for the preservation of endangered languages both in the African context and more broadly Documentary oriented chapters deal with key issues in African language documentation including language preservation and revitalization community activism and data collection and dissemination methodologies among others Theoretically oriented chapters provide detailed descriptions and analyses of phonetic phonological morphological syntactic and semantic phenomena and connect these to current theoretical issues and debates Africa's Endangered Languages provides thorough coverage of a continent's neglected languages that will spur linguists and Africanists alike to work to protect them

*Reconstructing Grammar* Spike Gildea, 2000-07-15 Comparative linguistics and grammaticalization theory both belong to the broader category of historical linguistics yet few linguists

practice both The methods and goals of each group seem largely distinct comparative linguists have by and large avoided reconstructing grammar while grammaticalization theoreticians have either focused on explaining attested historical change or used internal reconstruction to formulate hypotheses about processes of change In this collection some of the leading voices in grammaticalization theory apply their methods to comparative data largely drawn from indigenous languages of the Americas showing not only that grammar can be reconstructed but that the process of reconstructing grammar can yield interesting theoretical and typological insights Linguistic Borrowing in Bilingual Contexts Fredric Field,2002-12-13 A number of previous approaches to linguistic borrowing and contact phenomena in general have concluded that there are no formal boundaries whatsoever to the kinds of material that can pass from one language into another At the same time various hierarchies illustrate that some things are indeed more likely to be borrowed than others Linguistic Borrowing in Bilingual Contexts addresses both by examining claims of no absolute limits and synthesizing various hierarchies It observes that all contact phenomena are systematic and borrowing is no exception Regarding forms the determining factors lie in the nature of the morphological systems in contact and how they relate to one another Two principles are proposed to determine the nature of the systematicity and interaction the Principle of System Compatibility PSC and its corollary the Principle of System Incompatibility PSI Together these principles provide a consistent account of the possibilities and limits to borrowing The Decay of a Language Silvia Dal Negro,2004 Dal Negro linguistics U del Piemonte Orientale explores the complex structural changes a language undergoes as it recedes and dies taking as a case study the German dialect spoken in the Alpine village of Formazza Piedmont in the northwest of Italy Within the sociolinguistic context of progressive language death she focuses on phenomena of linguistic variation change and reduction at the level of morphosyntax Her study is based on a large body of spoken material collected during three years and on interviews with informants She does not provide a subject index Annotation 2004 Book News Inc Portland OR booknews com **The Handbook of Historical Linguistics, Volume II** Richard D. Janda,Brian D. Joseph,Barbara S. Vance,2020-09-15 An entirely new follow up volume providing a detailed account of numerous additional issues methods and results that characterize current work in historical linguistics This brand new second volume of The Handbook of Historical Linguistics is a complement to the well established first volume first published in 2003 It includes extended content allowing uniquely comprehensive coverage of the study of language s over time Though it adds fresh perspectives on several topics previously treated in the first volume this Handbook focuses on extensions of diachronic linguistics beyond those key issues This Handbook provides readers with studies of language change whose perspectives range from comparisons of large open vs small closed corpora via creolistics and linguistic contact in general to obsolescence and endangerment of languages Written by leading scholars in their respective fields new chapters are offered on matters such as the origin of language evidence from language for reconstructing human prehistory invocations of language present in studies of language past benefits of linguistic fieldwork for historical investigation ways in

which not only biological evolution but also field biology can serve as heuristics for research into the rise and spread of linguistic innovations and more Moreover it offers novel and broadened content complementing the earlier volume so as to provide the fullest available overview of a wholly engrossing field includes 23 all new contributed chapters treating some familiar themes from fresh perspectives but mostly covering entirely new topics features expanded discussion of material from language families other than Indo European provides a multiplicity of views from numerous specialists in linguistic diachrony The Handbook of Historical Linguistics Volume II is an ideal book for undergraduate and graduate students in linguistics researchers and professional linguists as well as all those interested in the history of particular languages and the history of language more generally

**Talking in Context** Anne Goodfellow, 2005 A unique study of the relationship between language and the erosion of a language and cultural identity in heritage language communities

**Developing Cultural Identity in the Balkans** Raymond Detrez, Pieter Plas, 2005 The fundamental contrast between convergent and divergent tendencies in the development of Balkan cultural identity can be seen as an important determinative both in the contradictory self images of people in the Balkans and in the often biased perceptions of Balkan societies held by external observers past and present In bringing together case studies from such heterogeneous lines of research as linguistics anthropology political literary and cultural history each presenting insightful analyses of micro as well as macro level aspects of identity construction in the Balkans this collection of essays provides a forum for the elucidation and critical evaluation of an intriguing paradox which continues to characterize the cultural situation in the Balkans and which moreover is of undeniable relevance for our understanding of recent political developments As such it also provides a window into the actual state of scholarly interest in the rich interdisciplinary field of Balkan studies This book contains a selection of papers presented at the international conference Developing Cultural Identity in the Balkans Convergence vs Divergence organized by the Center for Southeast European Studies at Ghent University on 12 and 13 December 2003 in Ghent
