John Macmurray Selected Philosophical Writings:

John Macmurray John Macmurray, 2004 No further information has been provided for this title **John Macmurray** Esther McIntosh, 2012-03-15 The philosophy of John Macmurray is only now receiving the attention it deserves It is in the contemporary climate of dissatisfaction with individualism that Macmurray's emphasis on the relations of persons has come to the fore Moreover Macmurray's recognition of the central importance of acknowledging human embodiment is being favourably received by a wide range of fields which includes philosophers theologians and psychologists Macmurray's overriding concern is to present an adequate account of the person and of personal relationships Nevertheless he is an eclectic writer whose work addresses concerns in education science and art which all stem from his understanding of human agency In addition this leads Macmurray into a discussion of the ethics of personal and political relations and a critique of otherworldly religion Hence Macmurray's philosophy is informed by fairly unconventional religious beliefs **John Macmurray's Religious Philosophy** Esther McIntosh, 2016-05-06 Recent dissatisfaction with individualism and the problems of religious pluralism make this an opportune time to reassess the way in which we define ourselves and conduct our relationships with others The philosophical writings of John Macmurray are a useful resource for performing this examination and recent interest in Macmurray's work has been growing steadily A full scale critical examination of Macmurray's religious philosophy has not been published and this work fills this gap sharing his insistence that we define ourselves through action and through person to person relationships while critiquing his account of the ensuing political and religious issues The key themes in this work are the concept of the person and the ethics of personal relations **Learning to be Human: The Educational Legacy of John MacMurray** Michael Fielding, 2016-04-14 The educational writings of John Macmurray one of the finest 20th century philosophers of his generation have a special relevance for us today In similar circumstances of international crisis he argued for the central importance of education addressing fundamental issues of human purpose how we lead good lives together the emphasis on wisdom rather than knowledge alone the advancement of a truly democratic culture and the overriding importance of community in human flourishing This remarkable collection of articles from leading international scholars includes the hitherto unpublished John Macmurray lecture Learning to be Human and brings together invited contributions from a range of fields and disciplines e.g philosophy of education moral philosophy care ethics history of education theology religious education future studies and learning technologies and a number of countries across the world e.g Australia the UK and the USA Countering overemphasis on technique and its typical separation from wider human purposes emblematic of much of our current malaise this book asks what it might mean to take the education of persons seriously and how such a perspective helps us to form judgments about the nature and worth of contemporary education policy and practice This book was originally published as a special issue of the Oxford Review of Education **Scottish Philosophical Theology** David Fergusson, 2012-10-05 This volume concentrates on the period from

the beginning of the 18th century to the latter part of the 20th It is impossible to depict a single school of philosophical theology in Scotland across three centuries yet several strains have been identified that suggest some recurrent themes or intellectual habits These include the following the mutually beneficial cross fertilisation of the disciplines of philosophy and theology the tendency to eschew powerful philosophical systems that might threaten to imprison theological ideas a stress on both the providential limitations and reliability of human reason a suspicion of reductive theories of a materialist inclination and a determination to inspect critically the proposals of theology and to place these in positive relation to other disciplines

History of Scottish Philosophy Alexander Broadie, 2008-12-15 Winner of the Saltire Society Scottish History Book of the Year 2009 Shortlisted for the Saltire Society Scottish Research Book of the Year 2009 This is the first ever account of the full 700 year old Scottish philosophical tradition The book focuses on a number of philosophers in the period from the later 13th century until the mid 20th and attends especially to some brilliantly original texts The book also indicates ways in which philosophy has been intimately related to other aspects of Scotland's culture Among the greatest philosophers that Scotland has produced are John Duns Scotus Francis Hutcheson David Hume Adam Smith and Thomas Reid But there were many other fine even brilliant

philosophers who are less highly regarded if they are noticed at all such as John Mair George Lokert Frederick Ferrier Andrew Seth Norman Kemp Smith and John Macmurray All these thinkers and many others are discussed in these pages This clearly written and approachable book gives us a strong sense of the Scottish philosophical tradition *Pastoral Reflections on Global Citizenship* Ryan LaMothe,2018-10-31 This book explores the growing awareness brought on by the recent explosion of communication technology that all human beings are citizens of the world Ryan LaMothe argues that this awareness comes with an urgent need to address political issues systems and structures at local state and international levels that harm human beings and our one habitat Through the lens of pastoral theology LaMothe analyzes the concepts of care faith power and community as they are related to addressing local and global problems linked to neoliberal capitalism racism and classism **Narratives of Loneliness** Olivia Sagan,Eric Miller,2017-09-28 Rising life expectancies and declining social capital in the developed world mean that an increasing number of people are likely to experience some form of loneliness in their lifetimes than ever before Narratives of Loneliness tackles some of the most pressing issues related to loneliness showing that whilst recent policies on social integration community building and volunteering may go some way to giving an illusion of not being alone ultimately they offer a rhetoric of togetherness that may be more seductive than ameliorative as the condition and experience of loneliness is far more complex than commonly perceived Containing thought provoking contributions from researchers and commentators in several countries this important work challenges us to rethink some of the burning issues of our day with specific reference to the causes and consequences of loneliness Topics include the loneliness and mental health of military personnel loneliness and social media loneliness and sexuality urban loneliness and the experiences of transnational movement and adopted children This book therefore makes an overdue multidisciplinary contribution to the emerging debate about how best to deal with loneliness in a world that combines greater and faster connectedness on the one hand with more intensely experienced isolation on the other Since mile Durkheim first claimed that the structure of society could have a strong bearing on psychological health in the 1890s researchers in a range of disciplines have explored the probable impact of social context on mental health and wellbeing Interdisciplinary in approach Narratives of Loneliness will therefore be of great interest to academics postgraduate students and researchers in social sciences the arts psychology and psychiatry **A Radical Political Theology for the Anthropocene Era** Ryan LaMothe,2021-11-18 Given the fierce urgency of now this important book confronts and addresses key problems and questions of political theology with the aim of proposing a radical political theology for the Anthropocene Age LaMothe invites readers to think and be otherwise in living lives in common with all other human beings and other than human beings that dwell on this one earth *Women with 2020 Vision* Jeanne Stevenson-Moessner,2020-10-06 Women haven t always had the right to vote From such diverse voices as John Stuart Mill and Cokie Roberts the absolute right of both women and men to vote has been affirmed And yet resistance to women s suffrage even by women themselves has a long and painful history

In this exciting volume thirteen theologians and religious leaders in America look back at the historic victory in 1920 when women in the United States won the right to vote They then assess the current situation and speak into the future Women with 2020 Vision American Theologians on the Voice Vote and Vision of Women commemorates the 100th anniversary of women in the United States obtaining the right to vote a story that must be told and retold and reflected upon in light of the current sociopolitical theological realities Public Theology and the Challenge of Feminism Stephen Burns, Anita Monro, 2015-05-01 Public Theology is a rapidly growing international field of study which focuses on how Christian belief and practice engage with wider social issues Yet whilst the ultimate concern of public theology is the well being of society this body of theology has largely developed without integrating the thinking of feminist theology and its insights into womens lives and experience Public Theology and the Challenge of Feminism argues that public theology risks reinscribing traditional constructs of public and private civic and domestic and uncritical notions of gender and the work and worth of people The book brings together both theory and case material to expose how public theology has actively downplayed or ignored feminist perspectives and to reveal how constructive feminism can be for the future of public theology

Us Ryan LaMothe, 2013-05-09 In *Missing Us: Re-Visioning Psychoanalysis from the Perspective of Community* Ryan LaMothe questions the ways in which psychoanalytic and psychodynamic theorists and clinicians have historically relied principally on a two person psychology to understand psychosocial development and practice. While this has many benefits, two person perspectives often overlook a central need and struggle in human life, namely community. The concept of community and its cognate, communion, expand and deepen psychoanalytic theories of development as well as reframe in part psychoanalytic concepts, processes and aims. In *Missing Us*, LaMothe, relying on the Scottish philosopher John Macmurray, carefully defines the concept of community, being sure to differentiate it from the notions of sociality and intersubjectivity. Using this definition and the concept of person, LaMothe reframes potential space, transference and motivation. Given this unique perspective, LaMothe addresses the strengths, limitations and challenges of psychoanalysis as a therapeutic ritual.

Ethics as Scales of Forms Richard Allen, 2014-09-18 This book is an important contribution to moral philosophy and also to moral theology. It overcomes the dichotomising fragmentation of much contemporary moral philosophy which tends to take one aspect or component of moral activity such as the consequences of actions, rules or intentions and to make it the only one. The book employs an adaptation of Collingwood's scheme of scales of forms to provide a synthesis which does justice to all aspects and components by placing each aspect or component on a scale in which each lower one presupposes the next higher and each higher one needs to be appropriately enacted and expressed in the next lower one. The lowest of all is that of the consequences of single actions and the highest in which all the others are fulfilled is that of the unique person as essentially an *ens amans*, a loving being. That scale is itself insufficient for it in turn presupposes a scale of values and ends to be realised and pursued and thus overcomes another false dichotomy that of deontological duty versus axiological value. Ethics for duties without values and ends are pointless and arbitrary and values and ends without duties are of no moral significance. The order of types of love from mere liking and enjoyment to love of the unique person provides an appropriate scale integrated with one of various types of fulfilment: pleasure, happiness, virtue, whose summit, love itself, is also that of the previous scale. Thus insofar as we become what we ought to be, then *ceteris paribus* we shall also find our true fulfilment. At each point relevant texts from Greek to contemporary European philosophy along with mentions of some other world and life views are cited to illustrate and give substance to the argument.
