The Life and Work of John Mason Neale, 1818-1866 Michael Chandler, 1995

Music and Theology in Nineteenth-Century Britain Martin Clarke, 2016-04-22 The interrelationship of music and theology is a burgeoning area of scholarship in which conceptual issues have been explored by musicologists and theologians including Jeremy Begbie Quentin Faulkner and Jon Michael Spencer Their important work has opened up opportunities for focussed critical studies of the ways in which music and theology can be seen to interact in specific repertoires genres and institutions as well as the work of particular composers religious leaders and scholars This collection of essays explores such areas in relation to the religious musical and social history of nineteenth century Britain The book does not simply present a history of sacred music of the period but examines the role of music in the diverse religious life of a century that encompassed the Oxford Movement Catholic Emancipation religious revivals involving many different denominations the production of several landmark hymnals and greater legal recognition for religions other than Christianity The book therefore provides a valuable guide to the music of this complex historical period Sobornost, 1994

The High Church Revival in the Church of England Jeremy Morris, 2016-09-19 In The High Church Revival in the Church of England new insights are opened up into one of the most significant movements of devotional and liturgical revival in the nineteenth and twentieth centuries Attending closely to the

social history of the movement as well as to its continental connections and its theological complexity this research re-evaluates its historiographical legacy in the light of recent research and controversy Traditional interpretations of High Churchmanship have presented it either as a heroic rediscovery of the real essence of Anglicanism or as an eccentric distortion of it This volume asserts instead its theological creativity and its popular roots as a permanent enrichment of the Anglican tradition whilst also analysing and describing the nature and limits of its growth **Looking At the Liturgy** Aidan Nichols,2011-04-13 Nichols assesses the liturgical reform from the three converging viewpoints of a historian sociologist and cultural critic pinpointing areas that need to be addressed **F D Maurice and the Crisis of Christian Authority** Jeremy Morris,2005-03-17 F D Maurice was a leading 19th century Anglican theologian and social commentator This study argues that his work was driven above all by a concern to reinvigorate Anglican ecclesiology and to promote economical breadth of spirit that could transform the Church of England's relations with other Christian traditions **Conciliarism** Paul Valliere,2012-02-09 A comprehensive introduction to conciliarism decision making and conflict resolution in the history of the Christian church **British Protestant Missions and the Conversion of Europe, 1600-1900** Simone Maghenzani,Stefano Villani,2020-09-14 This book is the first account of British Protestant conversion initiatives directed towards continental Europe between 1600 and 1900 Continental Europe was considered a missionary land another periphery of the world whose centre was imperial Britain British missions to Europe were informed by religious experiments in America Africa and Asia rendering these offensives against Europe a true form of imaginary colonialism British Protestant missionaries often understood themselves to be at the forefront of a civilising project directed at Catholics and sometimes even at other Protestants Their mission was further reinforced by Britain becoming a land of compassionate refuge for European dissenters and exiles This book engages with the myth of International Protestantism questioning its early origins and its narrative of transnational belonging while also interrogating Britain as an imagined Protestant land of hope and glory In the history of western Christianities converting Europe had a role that has not been adequately investigated This is the story of the attempted and ultimately failed effort to convert a continent **Anglicans and Orthodox** Judith Pinnington,2003 The story of the early Episcopal Orthodox encounter ***Intimate Empire*** Alexa von Winning,2022-04-14 After a humiliating defeat in the Crimean War the Russian Empire struggled to reassert its position as a global power A small noble family returned from the siege of Sevastopol and joined the rulers efforts to advance Russian standing in the decades until 1917 *Intimate Empire* tells the story of the Mansurovs who were known to nineteenth century observers as resourceful imperial agents and staunch supporters of Orthodoxy In close interplay with scholarship and the media they built churches and pilgrim hostels to increase Russian dominance within its borders and in the Ottoman Empire Some of the family's achievements stand to this day the Russian complex in Jerusalem and an impressive Orthodox Convent in Riga When the Revolution came they faced stigmatization as former nobles believers and monarchists Impoverishment and arrests became part of their daily lives in

Soviet Russia Intimate Empire is a study of the momentous role played by elite families in Russia's international involvement in the age of empire. It shows how three generations of a mobile noble family advanced the intertwined causes of the Russian Empire and Orthodoxy using family resources and tools of intimacy. Women were crucial for the family's efforts both behind the scenes and in public. It is the first monograph to examine the interplay between family and empire building in Russian history, a topic that has proven extraordinarily prolific for British imperial history yet remains virtually unexplored for the Russian case. Russia, Orthodoxy and noble family life emerge as part of the European trans-imperial scene. **Willful Submission** Amanda Paxton, 2018-01-02 Victorian England a Jesuit priest writes of wrestling with God at night limbs entangled an Anglican sister begs Jesus her divine lover to end her aching anticipation of their union a clergyman exhorts nuns to study the example of medieval women who suffered on the rack in order to become brides of Christ. Alongside the march of nineteenth-century progress ran a seemingly paradoxical fascination with a dark erotically suggestive side of religious devotion the figuration of the Christian God as a heavenly bridegroom who doles out punishment to his bride the individual soul. Through innovative case studies of Victorian religious poetry Amanda Paxton reveals that while the punitive model proved a convenient rhetorical tool with which to deflate burgeoning nineteenth-century campaigns for women's rights and challenges to Church authority in the hands of several writers it also provided a means of resisting patriarchal institutions and interrogating distinctions between science and religion. *Willful Submission* is the first full-length volume to examine the interplay of sex suffering and religion as a touchstone in Victorian culture and verse. *The Encyclopedia of Eastern Orthodox Christianity* John Anthony McGuckin, 2010-12-15 With a combination of essay length and short entries written by a team of leading religious experts the two-volume *Encyclopedia of Eastern Orthodoxy* offers the most comprehensive guide to the cultural and intellectual world of Eastern Orthodox Christianity available in English today. across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people s words
