Marsh Wolfe set out to salvage the best of his writings still left unpublished in 1938 and has thus added to our understanding of the life and thought of a complex and fascinating American figure *The Story of My Boyhood and Youth* John Muir, 1916

John Muir Eden Force, 1990 A biography of the naturalist who among other activities founded the Sierra Club and as an early proponent of wilderness preservation was influential in establishing the national park service *John Muir, Father of Our National Parks* Charles Norman, 1957 The story of a man who was instrumental in awakening Americans to the importance of conserving our forests and establishing national parks at such beautiful sites as the Grand Canyon Yosemite and the Petrified Forest *The Wilderness World of John Muir* John Muir, 2001 John Muir's extraordinary vision of America comes to life in these fascinating selections from his personal journals As a conservationist John Muir traveled through most of the American wilderness alone and on foot without a gun or a sleeping bag In 1903 while on a three day camping trip with President Theodore Roosevelt he convinced the president of the importance of a national conservation program and he is widely recognized for saving the Grand Canyon and Arizona's Petrified Forest Muir's writing based on journals he kept throughout his life gives a view of the American landscape before it was largely settled by farms and towns In *The Wilderness World of John Muir* Edwin Way Teale has selected the best of Muir's writing from all of his major works including *My First Summer in the Sierra* and *Travels in Alaska* to provide a singular collection that provides to be magnificent thrilling exciting breathtaking and awe inspiring Kirkus Reviews *The Writings of John Muir: The story of my boyhood and youth* John Muir, 1913 *The Wilderness World of John Muir* John Muir, 1954 Selections from each of John Muir's published books **The Young John Muir** Steven Jon Holmes, 1999 As a founder of the Sierra Club and promoter of the national parks as a passionate nature writer and as a principal figure of the environmental movement John Muir stands as a powerful symbol of connection with the natural world But how did Muir's own relationship with nature begin In this pioneering book Steven J Holmes offers a dramatically new interpretation of Muir's formative years one that reveals the agony as well as the elation of his earliest experiences of nature From his childhood in Scotland and Wisconsin through his young adulthood in the Midwest and Canada Muir struggled often without success to find a place for himself both in nature and in society Far from granting comfort the natural world confronted the young Muir with a full range of practical emotional and religious conflicts Only with the help of his family his religion and the extraordinary power of nature itself could Muir in his late twenties find a welcoming vision of nature as home a vision that would shape his lifelong environmental experience most immediately in his transformative travels through the South and to the Yosemite Valley More than a biography *The Young John Muir* is a remarkable exploration of the human relationship with wilderness Accessible and engaging the book will appeal to anyone interested in the individual struggle to come to terms with the power of nature **John Muir** Frederick W. Turner, 1997-01-01 This biography of John Muir explores the life of this traveller inventor botanist writer and pioneering conservationist While others dreamed of escaping into the wilderness beyond the range and comforts of
