The Making of Modern Korea Yushin Yoo, 1990 AN INTRODUCTION TO MODERN KOREA S EDUCATION ECONOMICS AND SOCIAL CHANGES *Resources in Education* ,1998 *Research in Education* ,1974 **Books in Print** ,1987 The Publishers' Trade List Annual ,1989 ㅁㅁㅁㅁㅁㅁ ,1984 *Subject Guide to Books in Print* ,1996 *Santa Barbara Papers in Linguistics* ,1991 ㅁㅁㅁㅁㅁㅁ ㅁㅁ ,1985 **Noun-Modifying Constructions in Japanese** Yoshiko Matsumoto, 1997-08-02 This study examines the clausal noun modifying construction NMC in Japanese a much discussed construction that embraces what have usually been called relative clause and noun complement constructions Drawing upon a broad range of naturally occurring NMCs including types that fall outside the domains of relative clause and noun complement constructions Yoshiko Matsumoto argues for an analysis of NMCs that gives an important role to semantics and pragmatics The framework in which this approach is presented draws from and further refines concepts of frame semantics By using a frame semantic definition of semantic integration the author reveals the commonality of diverse types of NMCs in Japanese and posits a tripartite classification of NMCs which is both more comprehensive and more revealing than the traditional dichotomy between relative clause and noun complement constructions As the first comprehensive and systematic study in English of Japanese NMCs with diverse lexical heads this work is further notable for its detailed discussion of the dependence of NMCs on both linguistic and extra linguistic context **Working Papers in Linguistics** ,1976 *Monthly Checklist of State Publications* Library of Congress. Exchange and Gift Division, 1985 June and Dec issues contain listings of periodicals *Books in Print Supplement* ,1984 *MIT Working Papers in Linguistics* ,2003

Connectivity in Grammar and Discourse Jochen Rehbein, Christiane Hohenstein, Lukas Pietsch, 2007-06-05 In this collection of carefully selected papers connectivity is looked at from the vantage points of language contact language change language acquisition multilingual communication and related domains based on various European and Non European languages From typological and multilingual perspectives the focus of investigation is on the grammatical architecture of a number of linguistic devices that interconnect units of text and discourse The volume is organized along central concepts A general section deals with connectivity in language change and language acquisition subdivisions are devoted to pronouns topics and subjects the role of finiteness in text and discourse coordination and subordination and particles adverbials and constructions The editors preface introduces connectivity as an object of linguistic research **Control in Generative Grammar** Idan Landau, 2013-02-21 The subject of nonfinite clauses is often missing and yet is understood to refer to some linguistic or contextual referent e g Bill preferred __ to remain silent is understood as Bill preferred that he himself would remain silent This dependency is the subject matter of control theory Extensive linguistic research into control constructions over the past five decades has unearthed a wealth of empirical findings in dozens of languages Their proper classification and analysis however have been a matter of continuing debate within and across different theoretical schools This comprehensive

book pulls together for the first time all the important advances on the topic Among the issues discussed are the distinction between raising and control obligatory and nonobligatory control syntactic interactions with case finiteness and nominalization lexical determination of the controller and phenomena like partial and implicit control The critical discussions in this work will stimulate students and scholars to further explorations in this fascinating field *The Internally-headed Relative Clause Construction in Japanese* Masuhiro Nomura,2000 **Korean Syntax** In-Seok Yang,1980 Verb Raising and Theta-Driven Movement Akemi Matsuya,2017-12-04 Under the framework of the Minimalist Program this book attempts to clarify that greedy movement in Japanese fulfills locality and is driven by checking theta roles as well as Case categorial features and so on as formal features The findings are as follows the Spec of TP and an uninterpretable V feature make successive cyclic verb raising possible thus producing a complex verb Multiple Predicate Formation MPF and the Spec TP parameter attribute nonobligatory controlled PRO in the subject position of the adjunct to checking the nominative Case at the Spec of TP within the adjunct Overt verb raising beyond the nonfinite clause boundary enables the long distance A movement in the control constructions The derivational difference among ni direct passives ni indirect passives and ni yotte direct passives is due to the three corresponding types of checking theta roles and Case The impossibility of scrambling ni indirect passives is predicted by the exhaustion of the theta roles The semantic difference between o causatives and ni causatives is caused by dative NP s checking Case and theta roles No passives of noncoercive causatives are produced because of the exhaustion of theta roles at TP The passivization in double object constructions are limited by the functions of dative markers in Case and theta role checking **Evidentialität im Japanischen** Anne Holzapfel,2006
