The Unity of Mistakes Marianne A. Paget, 2004 Marianne Paget's *The Unity of Mistakes* has long been considered a landmark text on the nature of medical error Paget, who herself died because of a medical error, argued that mistakes are an intrinsic part of the clinical process Encompassing a much wider range of error than the terms malpractice, incompetence or negligence denote *The Unity of Mistakes* takes an existential view of medical work in which things go wrong as a matter of course and probes what Paget called the complex sorrow that can result when things do go wrong This new paperback edition contains a Foreword by Joan Cassell, anthropologist and author of *Expected Miracles: Surgeons at Work* I began this study when I became aware of the anguish of clinical action and of the moral ambiguity of being a clinician, a person who acts, sometimes mistakenly, and therefore lives with the experience of being wrong With this statement Marianne Paget introduces her study of medical mistakes and their meaning Using as her text in-depth interviews with forty doctors, she explores the subjective experience of physicians who inevitably make mistakes Marianne Paget argues that mistakes are an intrinsic feature of medical work which she calls an error-ridden activity Mistakes involve action and action contains risk Since medical mistakes put at risk human beings not just the acted upon but the actors, her concern is with the subtle effects this endemic danger has upon clinical work Through close textual analysis the author examines the ways in which particular actions which seemed right at the time are recognized as errors and responded to Her study encompasses a much wider range of error than the terms malpractice, incompetence or negligence denote She takes an existential view of medical work in which things go wrong as a matter of course and probes what she calls the complex sorrow that can result

Author note: Marianne A. Paget (1940-1989) was a sociologist and researcher who in the course of her career held positions at various universities and at the time of her death was a research associate in the Department of Sociology at Brandeis University Joan Cassell is Research Associate in the department of Anthropology at Washington University in St. Louis and the author of several books including *Expected Miracles: Surgeons at Work* and *The Surgeon in the Woman's Body*

Essays on Women, Medicine & Health Ann Oakley, 2019-08-06 In this collection of essays Ann Oakley, one of the most influential social scientists of the last twenty years, brings together the best of her work on the sociology of women's health She focuses on four main themes: divisions of labour, motherhood, technology and methodology and in her own inimitable style combines serious academic discourse from a feminist sociological perspective with a practical understanding of what it is to be a woman facing the often impersonal world of twentieth-century medicine Updating and substantially expanding on her earlier work *Telling the Truth About Jerusalem*, this new collection bridges the medical-social divide in an accessible and personable way

Social Research Methods Clive Seale, 2004 Bringing together many of the core classic and contemporary works in

social and cultural research methods this book gives students direct access to methodological debates and examples of practical research across the qualitative quantitative divide The book is designed to be used both as a collection of readings and as an introductory research methods book in its own right Topics covered include research methodology research design data collection and preparation analyzing data mixing qualitative and quantitative methods validity and reliability methodological critique postmodernism post structuralism and critical ethnography political and ethical aspects of research philosophy of social science reporting research Each section is preceded by a short introduction placing the readings in context This reader text also includes features such as discussion questions and practical exercises

Exploring the Interconnected Complexities of COVID-19 Keekok Lee, 2023-08-15 This book explores the nature of COVID 19 through posing four questions What could be said to be the cause of COVID 19 Who is likely to be infected Where is infection likely to take place When is infection likely to occur It will demonstrate that these four W questions are interconnected that they are the very ones which pre occupy biomedicine today whether in the form of clinical medicine or epidemiology Epidemiology is often portrayed as sub standard while clinical medicine is put on a pedestal marked as superior and methodologically impeccable privileged This book challenges this standard assessment It argues that the causal model underpinning epidemiology is more adequate to account for medical data and evidence across the board Epidemiological Thinking is Medical Thinking which this book calls Ecosystem Thinking and through it explores the values underpinning Medical Thinking including geopolitical values
