Richard, Petty, Teresa**

Interactive First Aid Faculty:

The Pivot Robert J. Bliwise, 2022-10-03 The COVID 19 pandemic presented higher education with an unprecedented challenge How could institutions continue the basic work of teaching and research while maintaining safe environments for their faculty staff and students In *The Pivot* Robert J Bliwise traces Duke University's response to the pandemic to show how higher education broadly met that challenge head on Bliwise interviews people across the campus from bus drivers and vaccine researchers to student activists dining hall managers and professors in areas from English to ecology He explores the shift to teaching online and the reshaping of research programs how surveillance testing and reconfiguring residence halls and dining sites helped limit the virus spread on campus the efforts to promote student well being and to sustain extracurricular programs and what the surge in COVID 19 cases meant for the university health system Bliwise also shows how broad cultural conversations surrounding the 2020 presidential election climate change free speech on campus and systemic racism unfolded in this changed campus environment Although the pandemic put remarkable pressures on the campus community Bliwise demonstrates that it ultimately reaffirmed the importance of the campus experience in all its richness and complexity

Student-Teacher Interaction in Online Learning Environments Wright, Robert D., 2014-09-30 As face to face interaction between student and instructor is not present in online learning environments it is increasingly important to understand how to establish and maintain social presence in online learning *Student Teacher Interaction in Online Learning Environments* provides successful strategies and procedures for developing policies to bring about an awareness of the practices that enhance online learning This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance interaction and a sense of community for all participants in an online arena This book is of essential use to online educators administrators researchers and students

College Student Mental Health Heidi Levine, Susan R. Stock, 2017-01-13 In recent years there has been heightened attention paid to the mental health needs of college students the range and scope of these issues and the challenges related to providing mental health services Counseling center data changing legal mandates and anecdotal reports from senior practitioners all point to the growing complexity of managing these issues This volume examines clinical issues for student affairs professionals beyond the counseling center addressing how campuses can be prepared for and respond to mental health issues It helps readers cultivate a community centered understanding of and sense of shared responsibility for promoting mental health knowledge about best practices for service provision and strategies for dealing with mental health issues pertaining to specific student populations and issues within the environment Topics covered include Contextual and foundational information related to current student mental health trends Mental health aspects of certain populations including military connected students students on the autism spectrum and international student Bigger picture systemic issues related to mental health faced by colleges and universities and Future directions of mental health on

campuses This is the 156th volume of this Jossey Bass higher education quarterly series An indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals New Directions for Student Services offers guidelines and programs for aiding students in their total development emotional social physical and intellectual

Research Anthology on Developing Effective Online Learning Courses Management Association, Information Resources, 2020-12-18 In the current educational environment there has been a shift towards online learning as a replacement for the traditional in person classroom experience With this new environment comes new technologies benefits and challenges for providing courses to students through an entirely digital environment With this shift comes the necessary research on how to utilize these online courses and how to develop effective online educational materials that fit student needs and encourage student learning motivation and success The optimization of these online tools requires a deeper look into curriculum instructional design teaching techniques and new models for student assessment and evaluation Information on how to create valuable online course content engaging lesson plans for the digital space and meaningful student activities online are only a few of many current topics of interest for promoting student achievement through online learning The Research Anthology on Developing Effective Online Learning Courses provides multiple perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization of education This book includes topics focused on online learners online course content effective online instruction strategies and instructional design for the online environment This reference work is ideal for curriculum developers instructional designers IT consultants deans chairs teachers administrators academicians researchers and students interested in the latest research on how to create online learning courses that promote student success
