### Qu'est-ce que c'est ?

L'approche discursive de la communication interculturelle (ADCI) décrit les actes de communication entre membres de différentes communautés ou cultures. Les chercheurs se sont penchés sur des exemples réussis et problématiques. Les problèmes sont dus aux différences de codes linguistiques et d'hypothèses culturelles, ainsi qu'à des différences de pouvoir liées aux différences culturelles, nationales, religieuses, ethniques et raciales. Ceux qui étudient l'ADCI supposent qu'une analyse approfondie des cas réels de communication nous aidera à comprendre les individus impliqués dans les discours, leurs cultures d'origine et leurs interactions co-construites.

### Qui utilise le concept ?

L'ADCI est utilisée par les chercheurs qui étudient les domaines suivants : la communication interculturelle, l'analyse du discours, l'analyse du discours, l'ethnographie de la communication, la pragmatique, la sociolinguistique interactionnelle, et l'anthropologie linguistique. Bien que ces domaines aient des histoires distinctes, il y a un chevauchement considérable récent. Les analystes du discours se concentrent particulièrement sur la structure des conversations et des textes, tandis que les

sociolinguistes, les pragmaticiens et les anthropologues linguistiques examinent les variétés de discours, les événements et les performances verbaux dans leurs contextes plus larges. Jusqu'à présent, la recherche a mis l'accent sur le commerce, l'éducation, le droit, la médecine, et la religion. Les sujets abordés comprennent la construction de l'identité et les comparaisons interculturelles comparaisons interculturelles, en tenant compte de l'impact de de l'ethnie, de la classe sociale et du genre sur les formes de communication.

### Quels sont les liens avec le dialogue interculturel ?

Le dialogue interculturel peut être considéré comme un sous-ensemble de l'ADCI. Les actes réussis de l'ADCI sont des exemples de dialogue réussi. Les disciplines qui étudient l'ADCI facilitent les futurs dialogues interculturels en fournissant les outils analytiques nécessaires pour comprendre la construction du dialogue et les échecs de la communication qui entravent ce dialogue. Par exemple, les chercheurs peuvent examiner comment les pratiques culturelles se manifestent dans des contextes de communication particuliers, allant des interactions occasionnelles aux relations diplomatiques.

**The Handbook of Intercultural Discourse and Communication** Christina Bratt Paulston, Scott F. Kiesling, Elizabeth S. Rangel, 2014-09-15 The Handbook of Intercultural Discourse and Communication Intercultural discourse and communication is emerging as an important area of research in a highly globalized and connected world where language and culture contact is frequent and cultural misunderstandings and misconceptions abound The handbook contains contributions from established scholars and up and coming researchers from a range of subfields to survey the theoretical perspectives and applied work in this burgeoning area of linguistics This timely volume features first a part that introduces the background detailing the scope and topics of the field followed by one that describes four different theoretical approaches and their basic research questions from Ethnography of Speaking and John Gumperz's Interactional Sociolinguistics to Critical Approaches and Postmodernism The third part Interactional Discourse Features describes and explains the features of talk that are frequently studied in cross cultural research such as turn taking and politeness The volume also includes a section on Interactional Discourse sites examining cross cultural communication such as Greek Turkish discourse The final part considers a variety of domains in which interaction takes place such as Translation Business Law Medicine Education and Religion

The construction of intercultural discourse Tom Koole, Jan D. ten Thije, 2020-10-12 This book breaks open the black box of the workplace where successful immigrants work together with their Dutch colleagues In their intercultural team meetings the work itself consists of communication and the question is how that work is done The teams consist of Dutch Turkish Moroccan and Surinamese educational experts whose job it is to advise schools and teachers on the form and content of language teaching Their meetings are structured according to institutional patterns such as interactive planning and reporting and according to intercultural discourse structures For instance Dutch team members identify their immigrant colleagues as immigrant specialists and are themselves identified as institutional specialists Further the intercultural pattern thematizing and unthematizing racism provides the team members with communicative methods to deal with the societal contradictions that exist between different cultural groups in the Netherlands as well as elsewhere These intercultural discourse structures concur with the institutional patterns so that for instance they affect the outcomes of planning discussions Most studies on intercultural communication focus on misunderstandings and miscommunications This book demonstrates that also communication without miscommunication can be shown to be intercultural

*Beyond Misunderstanding* Kristin Bührig, Jan D. ten Thije, 2006-01-01 This book challenges two tacit presumptions in the field of intercultural communication research Firstly misunderstandings can frequently be found in intercultural communication although one could not claim that intercultural communication is constituted by misunderstandings alone This volume shows how new perspectives on linguistic analyses of intercultural communication go beyond the analysis of misunderstanding Secondly intercultural communication is not solely constituted by the fact that individuals from different cultural groups

interact Each contribution of this volume analyses to what extent instances of discourse are institutionally and or interculturally determined These linguistic reflections involve different theoretical frameworks e g functional grammar systemic functional linguistics functional pragmatics rhetorical conversation analysis ethno methodological conversation analysis linguistic anthropology and a critical discourse approach As the contributions focus on the discourse of genetic counseling gate keeping discourse international team co operation international business communication workplace discourse internet communication and lamentation discourse the book exemplifies that the analysis of intercultural communication is organized in response to social needs and therefore may contribute to the social justification of linguistics
