Smith, 2022-10-04 A biography of the architect of victory in the Persian Wars of 490 and 480 479 BC A valuable read for anyone with an interest in the Golden Age of Greece The NYMAS Review This is an exciting new biography of Themistocles of Athens architect of the Greek victory over the Persian invasions of 490 BC and 480 to 479 BC While his role in the Persian wars is naturally a major theme Themistocles career before and after those conflicts is also considered in detail Themistocles was a leading exponent of a new kind of populist politics in the young democracy of Athens manipulating the practice of ostracism exile to get rid of his political rivals Jeffrey Smith explains Themistocles rise to a position of virtual hegemony which allowed him to institute his far sighted policy of preparation against the growing Persian threat In particular he strengthened Athens fleet and thereby secured the support of the poor thetes who found employment as rowers During the first invasion Themistocles fought and possibly held joint command at the decisive battle of Marathon When the Persians struck again in 480 he commanded the fleet at Artemisium and Salamis The latter battle he won by subterfuge securing Athens liberation and survival Ironically he was himself eventually ostracized by his fellow citizens and ultimately entered Persian service ending his days as governor of Magnesia in Asia Minor

### **Children and Childhood in Classical Athens**

Mark Golden, 2015-06-30 A thoroughly revised and updated edition of Mark Golden s groundbreaking study of childhood in ancient Greece First published in 1990 *Children and Childhood in Classical Athens* was the first book in English to explore the lives of children in ancient Athens Drawing on literary artistic and archaeological sources as well as on comparative studies of family history Mark Golden offers a vivid portrait of the public and private lives of children from about 500 to 300 B C Golden discusses how the Athenians viewed children and childhood describes everyday activities of children at home and in the community and explores the differences in the social lives of boys and girls He details the complex bonds among children parents siblings and household slaves and he shows how a growing child s changing roles often led to conflict between the demands of family and the demands of community In this thoroughly revised edition Golden places particular

emphasis on the problem of identifying change over time and the relationship of children to adults He also explores three dominant topics in the recent historiography of childhood the agency of children the archaeology of childhood and representations of children in art The book includes a completely new final chapter text and notes rewritten throughout to incorporate evidence and scholarship that has appeared over the past twenty five years and an index of ancient sources

Tsetskhladze,2005-12-01 Originally published as Volume 4 2005 of Brill s journal Ancient West East *Kingship in the Mycenaean World and Its Reflections in the Oral Tradition* Ione Mylonas Shear,2004-12-31 During the last few decades there has been great interest in the problems of defining the extent and nature of kingship in the Mycenaean world Questions concerning the degree of economic and religious power held by the king have been given special emphasis This book surveys the conclusions drawn by individual scholars studying the Linear B tablets contrasts their theories with our knowledge of the Mycenaean kingdoms as derived from the archaeological record and finally compares this evidence with possible reflections in the oral tradition specifically in the Iliad and Odyssey This approach leads to the suggestion that the king in the Mycenaean period had only limited power over the society and its economy Although the king appears to have controlled a

large segment of the economy it is argued here that other individuals and family groups within the kingdom also had a certain degree of economic independence      **2001** Massimo Mastrogregori,2011-08-02 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors
